	According to Central Square, they currently have no intention of eliminating the IMC platform,							
	however, they are no longer selling the IMC platform to new customers and they have							
	basically said they will maintain whats in place, but there will be no further enhancements or							
	upgrades to the system. We are also currently finding that when any of the Departments call							
	for Tech Support that there are just a couple of techs at Central Square who have any							
	experience with the IMC platform. We have had demos of the new Pro Suite software from							
	Central Square and all Chiefs, the Sheriff, IT, and Communications are in agreement and							
	support the move to the new platform. This project will take between 18-24 months to							
	complete once we have made the final decision to move forward.

Capital Asset Definitions and Guidelines

Capital assets are tangible and intangible assets acquired for use in operations that will benefit more than a single fiscal period. Typical examples are land, improvements to land, easements, water rights, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and various intangible assets. A capitalized asset that has a value equal to or greater \$5,000.

Capital Asset Acquisition Cost

Capital assets are recorded and reported at their historical/acquisition costs. Historical/Acquisition cost includes the vendor's invoice, initial installation cost (excluding in-house labor), modifications, attachments, accessories or apparatus necessary to make the asset usable and render it into service. Historical/Acquisition costs also include ancillary charges, such as freight and transportation charges, site preparation costs and professional fees.
