

**To the Citizens of Maine:**  
**A Model Chart of Accounts for Municipal and County Governments**

I am pleased to post a model chart of accounts for municipal and county governments on this Maine Department of Audit web site in compliance with 2007 Private and Special Laws of the 123<sup>rd</sup> Legislature, Chapter 3, “An Act To Improve Access to the Government Chart of Accounts,” which states:

**“Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. Government chart of accounts.** The Department of Audit shall supply on the publicly accessible website of the department the government chart of accounts for municipal and county governments developed under Resolve 2005, chapter 136. This standardized chart of accounts may be used voluntarily by any level of government.”

This model chart of accounts was developed over the summer of 2006 pursuant to Legislative Resolve of the 122<sup>nd</sup> Legislature. The Model Chart of Accounts Committee consisted of the following members:

***Municipal Government***

Barbara Cox, CPA, Finance Director  
Dedham (population 1,480)

Wanda L. Ouellette, Finance Director  
City of Caribou (population 8,235)

Lisa R. Parker, CPA, Finance Director  
City of Saco (population 17,241)  
(Member, Maine Society of CPA)

Christopher Trenholm, Finance Director  
City of Auburn (population 23,256)

***County Government***

Vic Labrecque, Finance Director  
County of Cumberland (Representative, Maine County Commissioners Association)

***State Government***

Richard H. Foote, CPA  
Deputy State Auditor  
Maine Department of Audit

April Newman, CPA  
Financial Management Coordinator  
Office of the State Controller

Tony VanDenBossche  
Director of Administrative Services  
Maine State Planning Office

***Maine Municipal Association***

Kate Dufour, MMA Legislative Advocate  
Maine Municipal Association

***Maine Government Finance Officers Association***

Kathleen B. Tyson, CPA, Principal  
Runyon Kersteen Ouelette

The committee met on June 14, July 17, August 16, September 13, and October 18<sup>th</sup>, and worked between meetings to provide a chart of accounts that will harmonize with an account structure to be required by the Maine Department of Education. The model may be used by small municipalities with no school accounts, or by large municipalities with integrated school accounts, as you will understand by reading the final committee report attached. The small town will use a short account string, while a city will use a longer one. By using a uniform account structure, information can be compiled from a simple spreadsheet, gathered for census purposes, or assembled to compare with other municipalities. Each member contributed an important perspective and constructive criticism, important to making the model chart of accounts work in most municipalities in Maine. I am pleased to have hosted this worthy challenge, and I am proud to be associated with such a good outcome. Should you have questions or comments, please contact me.

## EXECUTIVE SUMMARY

This proposed model chart of accounts was prepared in accordance with H.P. 1220 – L.D. 1713. This law was approved by the Governor on March 13, 2006 and stated the following:

*Resolve, To direct the Department of Audit to establish a working group to develop a model chart of accounts for all levels of government.*

**Sec. 1. Working group established. Resolved:** That the Department of Audit shall create a working group to develop a model chart of accounts to be voluntarily adopted by municipalities, counties and the State as may be applicable. The working group must include representatives from the Maine Municipal Association, the Maine County Commissioners Association, State agencies, including the Department of Administrative and Financial Services, Office of the State Controller and the Executive Department, State Planning Office, and may work with accounting and financing associations, including the Government Finance Officers Association; and be it further

**Sec. 2. Report. Resolved:** That the Department of Audit shall report the working group's model chart of accounts under section 1 to the Intergovernmental Advisory Commission no later than November 1, 2006.

The chart of accounts was prepared being mindful of the Department of Education's (DOE) recently mandated school chart of accounts, in order to enable the tracking of school financial data consistently across the State and to monitor compliance with the “Essential Programs and Services Model.” Those municipalities that also have a school department and who share the same financial software system should therefore be able to implement this proposal without separate account segment structures for their municipal and school accounting. The chart of accounts was also prepared as a universal structure giving a separate account segment option to accommodate smaller municipalities within the State of Maine that do not have a school department and as complex of a financial structure with numerous funds as some of the larger municipalities. The entire proposed account structure is presented below, as well as the proposed basic model for those municipalities with no school department and the Department of Education's model structure for comparison purposes.

### **Proposed structure: 0000-0000-0000-00000-00-0**

Fund – Program – Department – Object Code – Cost Center – GAAP Distribution  
(4) (4) (4) (5) (2) (1) = 20

**Proposed basic model with no school department: 00-000-00000**

Fund – Department – Object Code  
(2) (3) (5) =10

This model is intended for smaller municipalities with no school department. In the case of the Fund piece of the segment, the last 2 zero's would be dropped. In the case of the Department piece of the segment, the first zero would be dropped and, therefore, would accommodate a much simpler account segment string. See Appendix B for a complete listing of account segments for this simpler approach.

**State Department of Education (DOE) structure: 000-0000-0000-0000-00**

Fund – Program – Function – Object Code – Cost Center  
(3) (4) (4) (4) (2) = 17

Schools can add a zero in front of Fund and GAAP (generally accepted accounting principles) Distribution in order to be consistent with the municipal side of the account string. Schools can also add a “4” in front of the Object Code to signify a revenue account and a “5” in front of the Object Code to signify an expenditure account to again be consistent with the municipal side of the account string and, thus making their account segment string consistent with that being proposed within this report for municipalities.

The various proposed segments of the account string are fully defined and presented within the actual report and the accompanying Appendix A. The various segments created should accommodate all levels of government including municipalities, counties and the State (as may be applicable), therefore creating a consistent financial reporting model for comparability purposes. They have been prepared utilizing guidance from the Governmental Finance Officer's Association guide, “Governmental Accounting, Auditing, and Financial Reporting,” commonly referred to as the blue book.

Although implementation of this proposed chart of accounts is voluntary, it is hoped that all levels of government will recognize its ease of use and benefits provided through comparable data available with consistency of financial reporting. The working group is anticipating meeting on an annual basis in order to modify the proposed chart of accounts based on feedback received from those governments who consider its implementation.

## FUND

0000-0000-0000-00000-00-0

This segment of the account string identifies individual funds. DOE uses a 3 digit fund number structure. However, to provide sufficient options, which may be grouped for ease of sorting and report issuing, we have expanded this to 4 digits – with education funds given fund numbers from 0100 through 0999 and municipal government using 1000 through 9999. In the case of a smaller municipality with no school department, the last 2 digits of this segment should be dropped, thus making this segment only 2 digits. See Appendix B for a complete listing of accounts for this simpler approach.

- For DOE categories (0100 through 0999), see their “required fund code report” for descriptions of each fund. This entire report can be viewed at <http://www.maine.gov/education/data/handbook/handbookmenu.htm>. They have been included within our L.D. 1713 framework below.

- For municipal categories (**Represented by being bolded below**):

1000 – General fund – this is the general operating fund for the entity.

2000 – Special revenue funds – These funds segregate monies either raised for a specific purpose or whose use is restricted legally. Examples: grant or title funds. Each separate activity or grant should have a separate fund number.

3000 – Debt service funds – These funds account for monies which have been set aside to service current and future general long-term debt.

4000 – Capital project funds – This fund is useful for segregating major asset acquisition and construction from the general operations of the government.

5000 – Permanent funds – These funds account for monies whose uses are legally restricted to the earnings.

6000 – Enterprise funds – These are “quasi-business” activities of the government.

7000 – Internal service funds – These account for centralized services from which costs are allocated within the government.

8000 – Pension trust funds – A separate fund must be established for each individual pension plan.

8500 – Investment trust funds – This accounts for monies held in an external investment pool.

8800 – Private-purpose trust funds – These report any trust arrangement under which principal and income benefit individuals, private organizations, or other governments.

9000 – Agency funds – These reflect monies held on behalf of others.

9999 – Government-wide fund – to be utilized to present the municipality in compliance with the full accrual basis of accounting.

## PROGRAM

0000-**0000**-0000-00000-00-0

This segment of the account string identifies the program. DOE uses a 4 digit program number structure.

- For DOE categories (0000 through 9600), see their “required detail program code report” for descriptions of each activity. This entire report can be viewed at <http://www.maine.gov/education/data/handbook/handbookmenu.htm>. They have been included within our L.D. 1713 framework below.

**On the municipal side this 4 digit segment of the string will always be 0000. In the case of smaller municipalities with no school department, this string would not be used in the account segment string. See Appendix B for details of the simpler account string.**

## DEPARTMENT/FUNCTION

0000-0000-**0000**-00000-00-0

This portion of the account number string identifies to which department or function the account “belongs”. For municipalities this segment would be titled “Department” whereas for schools it would be titled “Function” according to the DOE suggested account structure. In the case of a smaller municipality with no school department, the first zero of this segment should be dropped, thus making this segment only 3 digits. See Appendix B for a complete listing of account segments for this simpler approach.

- For DOE charts, see their “required function code report” for descriptions of each Department. This entire report can be viewed at <http://www.maine.gov/education/data/handbook/handbookmenu.htm>. They have been included within our L.D. 1713 format below.
- For municipal accounts, **which are bolded below**, the following provides an explanation of which types of expenditures belong within the respective departments.

The departments for municipal revenues as well as expenditures are defined in more detail within Appendix A.

## OBJECT CODES – REVENUE/EXPENDITURES

0000-0000-0000-00000-00-0

This field will be used for the same type of expenditure, regardless of department or fund. This will allow the sorting and grouping by type of expenditure. As much as possible, we have used the DOE summary categories as defined immediately following.

- For DOE categories 41000-46400 and 51000-59600, see their “required object code report” for descriptions of each. This entire report can be viewed at <http://www.maine.gov/education/data/handbook/handbookmenu.htm>. The DOE categories have been included within our L.D. 1713 framework below.

See Appendix A for detailed definitions of each municipal object.

**The municipal object codes have been bolded** and would be the same regardless of the size of the municipality. See Appendix B for the smaller community simpler account structure. On municipal and school side – first digit of “4” means it is a revenue account, first digit of “5” means it is an expenditure account.

## OBJECT CODES – BALANCE SHEET ACCOUNTS

0000-0000-0000-00000-00-0

Note that the object segment of the string is also being utilized for balance sheet account designations. On the school side the first digit would merely be a zero with the other digits remaining the same.

**On the municipal side the first digit is indicative of the following:**

**1= Asset account**

**2= Liability account**

**3= Fund balance/retained earnings/net assets**

**COST CENTER**  
0000-0000-0000-00000-00-0

This segment of the account string identifies the individual cost center. DOE uses a 2 digit cost center structure.

- The DOE chart of accounts utilizes this portion of the string to identify cost centers and has issued a “required cost center codes report”. This report can be viewed at <http://www.maine.gov/education/data/handbook/handbookmenu.htm>. We have included these cost centers within our L.D. 1713 framework below.

**The municipal side cost centers have been bolded below.** This portion of the account string would not be utilized for the smaller municipalities that do not have school departments.

**GAAP DISTRIBUTION**  
**0000-0000-0000-00000-00-0**

This portion of the account number is an addition to the DOE account number. It allows sorting by GAAP (generally accepted accounting principles) distribution for ease of financial statement preparation for the full accrual basis of accounting within the government-wide financial statements. The smaller municipalities without a school department would not utilize this portion of the account string.

## APPENDIX A

### Detail of Municipal Departments and Object Codes

Fund – Program – **Department** – **Object Code** – Cost Center – GAAP Distribution  
0000 0000 **0000** **00000** 00 0 =20

The purpose of this Appendix is to further clarify the department and object codes of the municipal account structure string with definitions which includes revenues, expenditures and balance sheet accounts.

### Explanation of Revenues – Municipal Departments

0000-0000-**0000**-00000-00-0

**General taxes (0100)** – Ad valorem and direct taxes collected such as real estate and personal property taxes and motor vehicle excise taxes.

**Licenses and permits (0110)** – License and permit revenues collected such as business licenses, building permits and hunting and fishing licenses.

**Intergovernmental revenues (0120)** – Revenues received from other governments (local, State, federal) such as federal operating grants, State revenue sharing, and local tax base sharing arrangements.

**Charges for services (0130)** – Revenues received from various services provided by the municipality such as zoning and subdivision fees, sewer inspection fees and general recreation program fees.

**Other revenues (0140)** – Revenues received from other miscellaneous sources not captured within the accounts previously defined such as investment earnings, rents and royalties and sale of municipal property.

**Other financing sources (0150)** – An increase in current financial resources that is reported separately from revenues to avoid distorting revenue trends.

## Explanation of Expenditures – Municipal Departments

0000-0000-0000-000000-00-0

### General Government (0200-0299)

This is the administrative section of governmental activities. Under this function, the following programs or departments would exist:

**Governing body/legislative (0201)** – This would classify the costs for the Board of Selectmen or Council. It might include such things as stipends, elected officials insurance costs, etc.

**Committees (0203)** – This would classify the costs related to other boards – such as the planning board, budget committee, etc. It might include such expenditures as stipends, volunteer insurance, supplies, etc.

**Municipal management (0205)** – This would classify costs for the operation of town or city government. It would include salaries, operating costs, etc. of such things as the municipal/county clerk's office.

**Elections (0207)** – This would include such items as registrar's salary, supplies, etc.

**Planning (0209)** – This category would cover costs for economic development.

**Finance/treasury (0211)** – This category would cover the costs of the finance department such as the Tax Collector's and Treasurer's Office.

**Assessment and revaluations (0213)** – This category would cover the costs of the assessing function. It could include payment to employees or sub-contractors.

**Code enforcement (0215)** – This category would cover the cost of the code enforcement department and related activities.

**Building inspection (0217)** – This category would cover the costs of the building inspection department and related activities.

**Legal/district attorney (0220)** – This category would cover any legal/district attorney expenditures of the municipality or county government.

**Deeds (0230)** – This category is for county governments to record the activities of their deed recording processes.

**Probate (0235)** – This category is for county governments to record expenditures relating to their probate activities.

**Judicial (0240)** – This category is for county governments to record the activities of their court system.

### **Health and Welfare (0300-0399)**

This segment will reflect the activities which provide health services and other assistance to residents. Small communities may only have costs for a health officer and general assistance. Larger governments may have health departments which provide medical and dental services.

**Health (0301)** – This may be the cost of the health officer's stipend and any supplies or may be the costs of the health department.

**General assistance (0303)** – The cost of running the general assistance program.

### **Public Safety (0400-0499)**

This segment will reflect activities which enhance the safety of the citizens and provides emergency assistance as needed. Some municipalities have historically included code enforcement in this segment. Although we understand the reasoning behind this inclusion, we believe that code enforcement should be included in the general administration portion of the chart. Not all municipalities will have activity in all departments.

**Police/sheriff (0401)**

**Fire (0403)**

**Emergency assistance (such as ambulatory services) (0405)**

**Street lights (0407)**

**Animal control (0409)**

**Harbormaster (0411)**

**Jails (0420)**

**Communications (E911, PSAP's) (0430)**

### **Public Works (0500-0599)**

This segment will reflect activities which maintain the municipality's infrastructure and non-building or equipment assets.

**Roads (0501)** – This will include the maintenance costs of roads as well as snow removal, dust control, etc.

**Bridges (0503)** – This will include the maintenance costs for bridges. For many smaller municipalities, this segment may not be used – as it is difficult to separate bridge surface maintenance from regular road maintenance.

**Water and sewer (0505)** – This segment would reflect the maintenance activities of water and sewer infrastructure.

**Waste management (0507)** – This segment includes trash removal.

### **Culture and Recreation (0600-0699)**

This segment will reflect the activities the municipality “sponsors” or supports in the area of culture and recreation.

**Libraries (0601)**

**Parks (0603)**

**Recreation (0605)**

**Other enterprise (0620)** – such as golf courses, civic centers and ice rinks.

### **Economic Development (0700-0799)**

This segment will reflect the activities related to community development.

**Community development (0701)**

### **Debt (0800-0849)**

This segment will reflect all expenditures and/or related costs for acquisition and repayment of debt including all enterprise fund debt.

**Debt (0801)**

### **Intergovernmental (0850-0899)**

This segment will reflect monies “moved between” governmental entities. In most municipalities, this will be the county tax assessment.

**County tax (0851)**

### **All Other (0900-0999)**

This is a “catch-all” category for anything which doesn't fit elsewhere.

**Cemeteries (0901)** – this reflects the maintenance and upkeep of permanent resting places.

**Airports (0910)**

**Public agencies (0920)**

**Other (0950)**

### **Education (1000-9999)**

This segment may be used to record the payments to the SAD or CSD. For those of us who have municipal school departments, it can be used to record the amount of taxes generated for the education allocation.

## Explanation of Revenues – Municipal Object Codes

0000-0000-0000-00000-00-0

### General Taxes (40000-40099)

**Real estate and personal property tax revenue (40000)** – are ad valorem taxes levied on an assessed valuation of real and personal property. The distinguishing characteristics of general property taxes are that the revenues are (1) derived from taxes, (2) levied by the government reporting entity, and (3) assessed on the general property.

**In lieu of property taxes (40002)** – are direct taxes (1) assessed and levied on a valuation other than the general assessed valuation usually applied in the case of privately owned real property or (2) calculated at a specified rate per unit.

**Change in deferred property tax revenue (40003)** – is utilized to post the change in the deferred property tax balance from one fiscal year to the next.

**Motor vehicle excise taxes (40020)** – are imposed upon the annual registration of a motor vehicle based on the valuation amount of the vehicle and a statewide rate, which is reduced each year for the first 6 years that the vehicle is owned.

**Boat excise taxes (40021)** – are imposed upon the annual registration of motorized boats at a statewide established rate depending on the size of the boats motor.

**Penalties and interest on delinquent taxes (40030)** – are amounts assessed as penalties for the payment of taxes after their due date, and the interest charged on delinquent taxes from their due date to the date of actual payment.

**Other taxes (40040)** – are any other tax amounts collected not captured within the other account titles listed above. If the dollar amounts collected are going to be substantial, then another revenue account should be created for that revenue specifically.

### Licenses and Permits (40100-40199)

**Business licenses (40100)** – are revenues from business and occupations that must be licensed before doing business within the government's jurisdiction.

**Building permits (40110)** – are revenues from residential and commercial construction within the government's jurisdiction that must be paid in order to receive a building permit within the community.

**Franchise fees (40112)** – are imposed on the privilege of using public property for private purposes.

**Plumbing permits (40114)** – are revenues from residential and commercial plumbing installations within the government's jurisdiction that must be paid in order to receive a plumbing permit within the community.

**Electrical inspection fees (40115)** – are revenues from residential and commercial inspections of electrical components and systems before being able to obtain an occupancy permit of the respective dwelling.

**Victualers licenses (40120)** – are revenues from businesses within the government's jurisdiction that must be licensed in order to sell and allow consumption of alcohol on their premises.

**Animal licenses (40130)** – are revenues derived from dog owners within the government's jurisdiction that must be registered.

**Marriage licenses (40140)** – are revenues derived from residents within the government's jurisdiction that are intending to be married and need a license to do so.

**Hunting and fishing licenses (40150)** – are revenues from licenses issued to residents residing within the government's jurisdiction in order to be able to hunt and fish.

**Motor vehicle fees (40160)** – are revenues collected from fees charged to register motor vehicles within the government's jurisdiction other than the excise taxes.

**Other licenses and permits (40170)** – are any other license or permits collected not captured within the other account titles listed above. If the dollar amounts collected are going to be substantial, then another revenue account should be created for that revenue specifically.

## Explanation of Balance Sheet Object Codes

0000-0000-0000-00000-00-0

- 11010 Cash (including cash equivalents).** Currency, coins, checks, money orders, and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash or demand deposits with financial institutions. Cash equivalents are short-term highly liquid investments including Treasury bills, commercial paper, and money market funds. This account includes certain securities (e.g., Treasury bills) that are classified as investments in the notes to the financial statements to disclose credit and market risks.
- 11020 Cash on hand.** Currency, coins, checks, postal and express money orders and bankers' drafts on hand.
- 11030 Petty cash.** Currency and coins set aside to make change or pay small obligations when the issuance of a formal voucher or check is not cost-effective.
- 11040 Change cash.** A sum of money set aside to make change.
- 11050 Cash with fiscal agents.** Deposits with fiscal agents, such as commercial banks, typically for the payment of bonds and interest.
- 11110 Investments.** Securities and real estate that generate revenue in the form of interest, dividends, rentals, or operating lease payments. This account does not include real estate used in government operations. This account includes certain items (e.g., most certificates of deposit) that are classified as deposits in the notes to the financial statements to disclose custodial credit risk.
- 11120 Unamortized premium on investments.** The unamortized portion of the excess of the amount paid for securities over their face value (excluding accrued interest).
- 11130 Unamortized discount on investments.** The unamortized portion of the excess of the face value of securities over the amount paid for them (excluding accrued interest).
- 11140 Interest receivable – investments.** The amount of interest receivable on all investments.
- 11150 Accrued interest on investments purchased.** Interest accrued on investments between the last interest payment date and the date of purchase. The account is carried as an asset until the first interest payment date after the date of purchase.
- 11200 Taxes and liens receivable.** The uncollected portion of taxes/liens that a government has levied.
- 11220 Estimated uncollectible taxes (allowance for uncollectible taxes).** That portion of taxes receivable estimated not to be collectible. The balance in this account is reported as a deduction from taxes receivable.

- 11260 Interest and penalties receivable – taxes.** The uncollected portion of interest and penalties receivable on taxes.
- 11270 Allowance for uncollectible interest and penalties (credit).** That portion of interest and penalties receivable on taxes estimated not to be collectible. The balance in this account is reported as a deduction from interest and penalties receivable – taxes to indicate net interest and penalties receivable – taxes.
- 11280 Unbilled accounts receivable.** The estimated amount of accounts receivable for goods and services rendered but not yet billed to customers.
- 11290 Allowance for uncollectible unbilled accounts receivable (credit).** That portion of unbilled accounts receivable estimated not to be collectible. The balance in this account is reported as a deduction from unbilled accounts receivable to indicate net unbilled accounts receivable.
- 11310 Interfund loans receivable.** Amounts that are owed, other than charges for goods and services rendered, to a particular fund by another fund in the government reporting entity and that are not due within one year.
- 11320 Interfund accounts receivable.** Amounts owed for goods and services rendered to a particular fund by another fund in the government reporting entity.
- 11410 Intergovernmental receivable.** Amounts due the reporting government from another government. These amounts may represent intergovernmental grants, entitlements, or shared revenues or may represent taxes collected for the reporting government by an intermediary collecting government, loans, and charges for goods or services rendered by the reporting government for another government.
- 11510 Loans receivable.** Amounts that have been loaned to individuals or organizations external to a government, including notes taken as security for such loans. Loans to other funds and governments should be recorded and reported separately.
- 11520 Allowance for uncollectible loans (credit).** That portion of loans receivable estimated not to be collectible. The balance in this account is reported as a deduction from loans receivable to indicate net loans receivable.
- 11530 Other accounts receivable.** Amounts owed on open accounts from private individuals or organizations for goods and services furnished by a government (excluding amounts due from other funds or intergovernmental receivables).

- 24330 Construction contracts payable.** Amounts due on construction contracts other than the retainage, see 24320.
- 24410 Matured bonds payable.** Unpaid bonds that have reached or passed their maturity date.
- 24420 Bonds payable – current.** The face value of bonds due within one year, except for deep-discount bonds (e.g., zero-coupon). The accreted value of deep-discount bonds due within one year should be presented in this account.
- 24430 Unamortized premiums on issuance of bonds.** The unamortized portion of the excess of bond proceeds over their face value (excluding accrued interest and issuance costs).
- 24440 Unamortized discounts on bonds (debit).** The unamortized portion of the excess of the face value of bonds over the amount received from their sale (excluding accrued interest and issuance costs).
- 24510 Loans payable.** Short-term obligations representing amounts borrowed for short periods of time, usually evidenced by notes or warrants payable.
- 24520 Lease obligations – current.** Capital lease obligations that are due within one year.
- 24550 Interest payable.** Interest costs related to the current period and prior periods, but not due until a later date.
- 24610 Accrued salaries and benefits.** Salary and fringe benefit costs incurred during the current accounting period that are not payable until a subsequent accounting period.
- 24612 Accrued salary and benefits.** Accrued sick leave.
- 24710 Payroll deductions and withholdings.** Amounts deducted from employees' salaries for withholding taxes and other purposes. District-paid benefits amounts payable are also included. A separate liability account may be used for each type of benefit.
- 24720 Compensated absences payable – current.** Amounts owed to employees for unpaid vacation liabilities due within one year.

- 24730 Accrued annual requirement contribution liability.** A liability arising from payments not made to pension funds. This represents any difference between the actuarially determined annual required contribution and actual payments made to the pension fund.
- 24810 Deferred revenue.** (1) Unearned. Amounts under the accrual and modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned. (2) Unavailable. Amounts under the modified accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts are measurable but not available for expenditure.
- 24910 Deposits payable.** Liability for deposits made by customers as a prerequisite to receiving the goods or services the government provides.
- 24990 Other current liabilities.** Appropriately descriptive account titles should be used for such items.
- 25110 Bonds payable.** The face value of bonds, except for deep-discount bonds (e.g., zero-coupon). The accreted value of deep-discount bonds due should be presented in this account.
- 25130 Unamortized gain on debt refunding.** The unamortized portion of the difference between the reacquisition price and the net carrying amount of debt that has been refunded in either an advance refunding or current refunding transaction. This account is added to or deducted from the related debt reported on the balance sheet.
- 25210 Loans payable.** The face value of notes and loans payable.
- 25310 Capital lease obligation.** The discounted present value of total future stipulated payments on lease agreements that were capitalized.
- 25510 Compensated absences payable – non-current.** Amounts owed to employees for unpaid vacation and sick leave liabilities due in more than one year.
- 25610 Arbitrage rebate liability.** Liabilities arising from arbitrage rebates to the IRS from bond financing.
- 25620 Net pension obligation.** In the case of defined benefit pension plans, this is the cumulative difference between annual pension cost and the employer's contributions to the plan to date.
- 25630 Net post employment benefit obligation.** The government's obligation for post-employment benefits which is the cumulative annual required contribution to the plan less the government's contributions to date.

- 25900 Other long-term liabilities.** Appropriately descriptive account titles should be used for these items.
- 37110 Fund balance – reserved for inventory.** Segregation of a portion of a fund balance to indicate, using the purchases method for budgetary purposes, that inventories do not represent expendable available financial resources.
- 37120 Fund balance – reserved for prepaid items.** Segregation of a portion of fund balance to indicate that prepaid items do not represent expendable available financial resources.
- 37130 Fund balance – reserved for encumbrances.** Segregation of a portion of fund balance for commitments related to unperformed contracts.
- 37140 Other reserved fund balance.** Segregation of a portion of fund balance to indicate that other portions of the fund balance, not otherwise described, do not represent expendable available financial resources.
- 37200 Fund balance – unreserved, designated (specify designation).** Segregation of a portion of fund balance to indicate tentative plans for future financial resource use, such as general contingencies. These designations reflect tentative managerial plans or intent and should be clearly distinguished from reserves.
- 37210 Fund balance – unreserved, designated minor capital projects.** Segregation of a portion of fund balance to indicate tentative plans for future financial resource use, such as equipment replacement. These designations reflect tentative managerial plans or intent and should be clearly distinguished from reserves.

- 37240 Designated reserve – special education.** A designation representing that portion of a fund balance segregated to indicate that the assets equal to the amount of the designation have been earmarked by the governing board or senior management for future unanticipated expenditures in support of special education programs.
- 37300 Unreserved fund balance.** Portion of fund balance representing expendable available financial resources.

- 37910 Net assets, invested in capital assets, net of related debt.** The component of the difference between assets and liabilities of proprietary funds that consists of capital assets less both accumulated depreciation and the outstanding balance of debt (e.g., bonds, mortgages, notes) that is directly attributable to the acquisition, construction, or improvement of those assets.
- 37920 Net assets, restricted.** Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- 37930 Net assets, unrestricted.** That portion of net assets that does not meet the definition of the two preceding categories.

## Appendix B

### Basic Municipal Chart of Accounts Structure

The purpose of this Appendix is to display the smaller community with no school department account segment structure only. It therefore removes any account relating to a school department and reflects the smaller digit account segment structure.

#### Proposed Basic Model With No School Department

Fund – Department – Object Code  
00        000        00000 =10

This model is intended for smaller municipalities with no school department. In the case of the Fund piece of the segment, the last 2 zero's would be dropped. In the case of the Department piece of the segment, the first zero would be dropped which allows for a much simpler account segment. The segments are displayed below:

#### **FUND**

**00-000-00000**

- 10        Municipal General Fund – This is the general operating fund for the entity.
- 20 – 29   Municipal Special Revenue Funds – these funds segregate monies either raised for a specific purpose or whose use is restricted legally. Examples: grant or title funds. Each separate activity or grant should have a separate fund number.
- 30 – 39   Municipal Debt Service Funds – This is to account for monies which have been set aside to service current and future general long-term debt.
- 40 – 49   Municipal Capital Projects Funds – This fund is useful for segregating major asset acquisition and construction from the general operations of the government.
- 50 – 59   Municipal Permanent Funds – This fund accounts for monies that are legally restricted to the earnings.
- 60 – 69   Municipal Enterprise Funds – These are “quasi-business” activities of the government.
- 70 – 79   Municipal Internal Service Funds – These account for centralized services from which costs are allocated within the government.
- 80 – 84   Municipal Pension Trust Funds – A separate fund must be established for each individual pension plan.
- 85 – 87   Municipal Investment Trust Funds – This accounts for monies held in an external investment pool.
- 88 – 89   Municipal Private-purpose Trust Funds – This reports any trust arrangement under which principal and income benefit individuals, private organizations, or other governments.
- 90 – 98   Municipal Agency Funds – These funds reflect monies held on behalf of others.
- 99        Municipal Government-wide Statement Adjustments Fund.

**DEPARTMENT**

**OBJECT CODE**  
00-000-00000

This field will be used for the same type of expenditure – regardless of department or fund. This will allow the sorting and grouping by type revenues and expenditures. As much as possible, we have used the DOE summary categories as defined immediately following. However, the actual detailed object codes are more indicative of the municipal side of government. See Appendix A for detailed definitions of each municipal object code.

On the municipal side the first digit of “4” means it is a revenue account and the first digit of “5” means it is an expenditure account.
