

You can choose where to go for lab tests

Select an in-network independent lab to pay less

If you need a lab test, but are worried about your portion of the costs, you can use any independent lab in Maine and **not pay any copay or deductible**.

This includes labs such as Affiliated Lab and NorDx. Some labs at hospitals are also eligible.

How it works

You will find a list of independent labs on the back of this flyer that can help you save on the cost of a lab test. It is also available on the Office of Employee Health & Wellness website: maine.gov/bhr/oeh.

For extra support, call the Member Services number on the back of your ID card for the most up-to-date list of all independent labs and locations.

For the service to be paid in full or at the highest level of benefits, ask your doctor to submit the authorization for lab services at the preferred facility you selected.

Either you or your doctor may set up the appointment for your services.

Choosing a lab near you

To find a lab close to you, log in to anthem.com and select **Find Care**. Then follow the steps to search for a lab. Remember to ask your doctor to order your lab work from your chosen lab.

You can choose from any of these independent labs in Maine to save on the cost of a lab test. You will not have to pay any copay or deductible.
