## NEW WORKERS' COMPENSATION POLICY

### COORDINATION OF BENEFITS

Effective February 4, 2018 our self-insured Workers' Compensation Program will be taking an offset if an employee chooses to use sick leave during a period of incapacity due to an injury. The dollar value of the sick leave taken will be counted as earnings and will reduce and/or eliminate the weekly workers' compensation amount due to the employee. There will be no restorations of sick leave.

If an employee plans on using their vacation/comp/personal leave time for their absence from work due to a workers' compensation injury, the **Benefit Leave Option Form** must be completed, signed and returned promptly. If this form is not returned promptly indicating your option, then it will be assumed that a weekly workers' compensation check is desired and it will be mailed accordingly. Any vacation/comp/personal leave time used will not be restored if the Benefit Leave Option Form is not received indicating a restoration of time is requested in lieu of a workers' compensation check.

If you have any questions regarding the coordination of benefits policy, please contact your Workers' Compensation Designee at your department and/or the Office of Workers' Compensation at (207) 624-7359. Thank you.
