HUMAN RESOURCES MEMORANDUM 3-21

TO: All Human Resource Representatives

SUBJECT: REVISED VALUE OF BENEFITS WHEN PUBLISHING SALARIES

Maine law (MRSA Title 5, §53) requires that a statement of the dollar value of the fringe benefits package provided by the state must be placed in all advertisements that indicate the salary of a position or employee. This includes all advertisements or other announcements that agencies may develop to fill “direct hire” vacancies.

All advertisements for positions that will be filled on or after July 1, 2021 must reflect the health/dental insurance and retirement rates listed below. All previous human resources memoranda pertaining to the value of benefits are superseded by this memorandum.

Please take immediate steps to ensure that the proper statement for the value of employee benefits is placed in all publications that include employee or position salaries.

The following statement is provided as a sample (include the appropriate rates from above based on the position being filled):

The bi-weekly dollar values of some State-paid benefits for full-time employees include: \$14.60 for dental insurance; 13.16% of employee's pay towards retirement; and, depending on the employee's annual pay, at least 85% (\$412.23) of health insurance premiums ([more information is available here](#)). Participation in the [Health Premium Credit Program](#) can increase state-paid health insurance benefits by 5%.

HR representatives should contact Thaddeus Cotnoir (624-7799) with questions or comments.
