Results

- Notification of the results are typically available to the MSBON within 24-48 hours; results for applicants outside of Maine may require additional processing time due to manual processing and mailing times. However, if an applicant has a criminal history, the actual results may not be available for 30 days or more, dependent upon the FBI and/or Maine Department of Public Safety (DPS).
- Applications with an associated criminal history record will take longer to process since they must be reviewed by the Board or a designated Board staff member.
- The MSBON Criminal Background Check staff will notify applicants by mail or email regarding results that may require additional information.
- For additional information regarding the MSBON CBC process please see [Frequently Asked Questions](#).
