That the State Controller increase allotment in account 022-15A-0108-90, Military Training and Operations by \$130,277 in the Personal Services line category and \$61,088 in the All Other line category for the purpose of allotting revenue from the Coronavirus Relief Fund; and,

**Statement of Fact**

This order provides the necessary allotment to reimburse the Department of Defense, Veterans and Emergency Management for the costs of State Active Duty Soldiers (SAD) COVID missions. On March 15, 2020 the Governor declared a State of Civil Emergency in response to COVID-19. As a result, the Maine Emergency Management Agency fully activated the Maine State Emergency Operations Center (EOC). In response, the Maine National Guard, authorized by the Governor, issued a Joint Order for MENG COVID-19 Response. Upon order the MENG began immediate preparations to support the State's EOC with soldiers and airmen being called to SAD on March 19, 2020. As missions were developed and approved, 64 service members were called to SAD to conduct missions in direct response to the public health emergency caused by COVID-19. These 64 soldiers and airmen were on orders for various lengths of time between March 19, 2020 and April 18, 2020. On March 19, 2020 all soldiers and airmen in SAD were transitioned to federal Title 32, Active Duty under the control of the Governor to continue COVID-19 response operations. Funding is provided 100% by the Federal Government under the Coronavirus Relief Fund.

Maine's schools are preparing to provide a safe and healthy return to classroom-based instruction this fall. Schools, districts, CTE programs and Charter Schools anticipate many unbudgeted expenses and logistical hurdles including: transportation and facilities modifications to allow for social distancing and to accommodate new health/safety guidelines; increased need for cleaning supplies and handwashing stations; contracted services to cover custodial needs, tutoring, medical staffing and program oversight; increased need for substitutes, technology, assessments of student learning, communications resources/signage, and professional development for teachers who must become fluent in hybrid and remote learning models in order to accommodate all students. These additional costs are directly related to the COVID-19 pandemic and were not previously reflected in local or state education budgets. This financial order establishes allotment in the DOE Coronavirus Relief Fund account to support schools and districts in returning to classroom-based instruction. Funding is provided by the Coronavirus Aid, Relief and Economic Security (CARES) Act.

The Central Administrative Applications program includes core systems employed by the Department of Administrative and Financial Services to process, control and report on the State's financial and personnel information. Funding is provided by the Coronavirus Aid, Relief and Economic Security (CARES) Act.

Be it further ordered,  
that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2021", for which this shall be our sufficient warrant.

Statement of Fact

This financial order transfers allotment from the Department of Education Coronavirus Relief Fund account to the Education in the Unorganized Territory (EUT) account. The Department received Coronavirus Relief Funds in the Department of Education Coronavirus Relief Fund account. EUT has since applied for and was awarded by the Department \$145,543 of the funds received in the Department of Education Coronavirus Relief Fund account. EUT will use these funds to purchase three vans (\$102,582 in the Capital Expenditures line category) and personal protective equipment (PPE) for school staff and students, cleaning supplies and handwashing stations (\$42,961 in the All Other line category). Vans are more cost effective than buses for the purpose of making deliveries of educational related material; therefore, vans will replace the need to use buses for school related deliveries in the event that remote learning becomes necessary and/or to transport education materials and meals to the student's home if a child becomes ill.

That the State Controller increase allotment in account 022-05A-Z271-60, DOE Coronavirus Relief Fund by \$163,690,000 in the All Other line category for the purpose of supporting schools and districts in returning to classroom-based instruction; and,

Be it further ordered, that the State Controller authorize the expenditure in accordance with the attached "Revision of the Work Program for Fiscal Year ending June 30, 2021", for which this shall be our sufficient warrant.

**Statement of Fact**

Maine schools are continuing the vital work of ensuring a safe and healthy return to classroom-based instruction this fall. Each district has developed three different plans in order to be appropriately prepared for the uncertain trajectory of COVID-19. With Maine schools preparing to implement hybrid and remote models, there are many unbudgeted expenses and logistical hurdles including: transportation and facilities modifications; increased need for cleaning supplies; contracted services to cover custodial needs, tutoring, and medical staffing; increased need for substitutes, technology, assessments of student learning, connectivity needs, and professional development for teachers who must become fluent in hybrid and remote learning models. These additional costs are directly related to the COVID-19 pandemic and were not previously reflected in local or state education budgets. This financial order increases allotment in the DOE Coronavirus Relief Fund account to support schools and districts in returning to classroom-based instruction. Funding is provided by the Coronavirus Aid, Relief and Economic Security (CARES) Act.

Statement of Fact

Schools across the state have been unable to fully reopen and maintain the safety requirements set forth by the Maine Center for Disease Control and Prevention. Schools have developed a hybrid strategy that allows for the student body to be divided into cohorts, with one cohort attending school, and the other cohort doing remote learning. Additionally, there are many students who are learning 100% remotely as a result of COVID-19. The challenge to this strategy is that many students lack access to adequate broadband connections and cannot participate in class fully, or sometimes at all. This program will utilize the structure of the existing ConnectMaine program to provide funding to internet service providers to connect these students to a high-quality service. Funds are from the Coronavirus Relief Fund as provided through the Coronavirus Aid, Relief, and Economic Security Act.

**Statement of Fact**

School administrative units (SAUs) applied for coronavirus relief funds to provide alternative care for school age children during the remote part of their instruction, including contracted services to childcare providers. For many working parents statewide, securing alternative care for their children during the remote portion of their instruction is vital to their ability to actively re-engage in the workforce. Because day programming costs are authorized under 20-A M.R.S.A., §8901 and §8902, this financial order increases allotment in the Day Programming for School Aged Children account and decreases allotment in the Department of Education Coronavirus Relief Fund account to reimburse SAUs for these costs from the appropriate account.

The Maine National Guard has been providing support to the State of Maine's COVID emergency response activities. On April 13, 2020 the President under the "Stafford Act" 42 U.S.C 5121-5207 and 32 U.S.C 502(f) authorized the Governor of the State of Maine to use the National Guard in response to COVID-19 at 100% federal cost. The Maine National Guard is still fully engaged in response to Maine's COVID State of Emergency. The amount requested represents the State's anticipated share of the total 502(f) supported mission costs.
