Additional programs may be offered on a gender specific basis only in terms of content (e.g., personal hygiene). However, in this case, comparable programs shall be afforded to both males and females.

16. Male and female prisoners housed in the same facility shall be housed only with prisoners of the same gender.

2. Overview of Requirements

A. Accessibility. The Department shall ensure that facilities are accessible to prisoners with disabilities and other individuals having dealings with the department, meaning:

1. Ensuring all parts of the facilities that are open to or used by the public are accessible to individuals with disabilities;
2. Designing and constructing new facilities to adhere to applicable state and federal accessibility guidelines;
3. Providing programs and services through alternative methods if physical barriers cannot be removed;
4. Maintaining, in operable condition, those features of facilities and equipment that are required to be readily accessible to and usable by prisoners with disabilities;
5. Providing signage at all inaccessible entrances, providing directions to an accessible entrance or to a location providing information about accessibility. The international symbol for accessibility shall be used at all accessible entrances.

B. Reasonable Modification. The Department shall make reasonable modification to practices and procedures in order to ensure equal access to programs and services, including:

1. providing auxiliary aids and services, such as adaptive equipment, interpreters or readers for prisoners who are hard of hearing or visually impaired and written materials in alternative formats;
2. providing alternate accessible sites for program, service or activity participation;
3. scheduling or format changes in order to allow disabled prisoners to participate in services offered by the health care department;
4. providing for staff and prisoner access to an appropriately trained and qualified individual who is educated in the problems and challenges faced by prisoners with physical and/or mental impairments;
5. providing programs designed to educate and assist disabled prisoners;
6. providing for the assignment of appropriately trained individuals to assist disabled offenders who cannot otherwise perform basic life functions;
7. providing the equipment, education and support necessary for prisoners with disabilities to perform self-care and personal hygiene in a reasonably private environment.
C. Integrated Settings. The Department shall administer its programs and services in the most integrated setting appropriate to the needs of qualified individuals with disabilities, unless a separate setting is necessary to ensure equal opportunity or for safety or security reasons. An “integrated setting” enables individuals with disabilities to interact with non-disabled persons to the fullest extent possible.

D. Equally Effective Communication.

1. Prisoners with disabilities shall have the means to communicate as effectively as nondisabled prisoners. The Department shall take steps to ensure a disabled prisoner’s communications with staff are as effective as those of nondisabled prisoners.

2. The Department shall provide auxiliary aids and services required to enable prisoners to have equally effective communication. Such auxiliary aids and services may include providing qualified interpreters, TTY/TDD service, visual aids and any other means of ensuring adequate communication for prisoners with disabilities.

3. When determining what services or auxiliary aids or equipment are necessary to ensure equally effective communication, consideration shall be given to those measures requested by the prisoner.

3. Interpretive Guidance and Technical Assistance

A complete understanding of the relevant law and policy regarding disabilities, essential eligibility requirements, reasonable modification, undue hardship and direct threat to health or safety is necessary to properly implement and apply this policy.

The Chief Administrative Officer, or designee, may seek technical assistance from the Maine Department of the Attorney General or the Department of Corrections EEO Coordinator when handling requests for modification and otherwise responding to needs of disabled prisoners.

Any prisoner who believes he or she has been discriminated against under the Americans with Disabilities Act, or this policy may use the grievance process or may contact the Department of Corrections EEO Coordinator.

The Chief Administrative Officer, or designee, shall ensure that disabled prisoners have up to date information on how to contact the Department’s EEO Coordinator.

VIII. PROFESSIONAL STANDARDS

ACA
Inmates with disabilities are housed in a manner that provides for their safety and security. Housing used by inmates with disabilities is designed for their use and provides for integration with other inmates. Programs and services are accessible to inmates with disabilities who reside in the facility.

Reasonable accommodation is made to ensure that all parts of the facility that are accessible to the public are accessible and usable by staff and visitors with disabilities.

Written policy, procedure, and practice prohibit discrimination based on an inmate’s race, religion, national origin, sex, disability, or political views in making administrative decisions and in providing access to programs.

Written policy, procedure, and practice provide that male and female inmates housed in the same institution have separate sleeping quarters but equal access to all available services and programs. Neither sex is denied opportunities solely on the basis of their smaller number in the population.

Written policy, procedure, and practice provide for reasonable access between inmates and the communications media, subject only to the limitations necessary to maintain order and security and protect inmates’ privacy. Media requests for interviews and the inmate’s consent are in writing.

Written policy, procedure, and practice provide that foreign nationals have access to the diplomatic representative of their country of citizenship.

Written policy, procedure, and practice prohibit discrimination on the basis of disability in the provision of services, programs, and activities administered for program beneficiaries and participants.

Written policy, procedure, and practice provide for staff and offender access to an appropriately trained and qualified individual who is educated in the problems and challenges faced by offenders with physical and/or mental impairments, programs designed to educate and assist disabled offenders, and all legal requirements for the protection of offenders with disabilities.

Provision is made to meet the educational and vocational needs of inmates who require special placement because of physical, mental, emotional, or learning disabilities.

Male and female offenders do not occupy the same sleeping room.

Staff and offenders have access to an appropriately trained and qualified individual who is educated in the problems and challenges faced by offenders with physical and/or mental impairments, programs designed to educate and assist disabled offenders, and all legal requirements for the protection of offenders with disabilities.

Offenders are not subjected to corporal or unusual punishment, humiliation, mental abuse, or punitive interference with the daily functions of living, such as eating or sleeping.
