Current Population by Controlling Offense

The table to the right shows the total population by controlling sentence. The 43 in the “Null” category is a result of the correctional information system not being able to determine a controlling sentence. The “Attempt” category represents several offense types where the controlling offense was attempted but not successful. Controlling offense reflects all adult facility population on January 7, 2022.

- Substance use disorder assessments December — 50
- Behavioral health intakes for November — 63
- Behavioral health sick calls answered for November — 521
- Adult facility residents on psych meds for November — 738

Intensive Mental Health Unit Average Population

The Department of Corrections recognizes the need to provide structured intensive mental health services in a specialized mental health housing unit to accommodate the needs of male prisoners experiencing serious mental health problems.

The purpose of the IMHU is to help residents’ function at their optimal levels, under the least restrictive conditions necessary, while working towards the reduction of criminogenic risk factors. The goal is to improve quality of life, prepare residents for return to general population housing units, if possible, and, when appropriate, prepare residents for release back into the community, return to jail, admission to a state mental health institute, or transfer to an out-of-state correctional facility.

The table to the right shows the average daily population in the IMHU by month.

2.0 Correctional Programming

2.1 Correctional Program Fidelity

Beginning in the spring of 2016, DOC staff participated in a University of Cincinnati Corrections Institute (UCCI) training on fidelity monitoring using their group observation and coaching process. The form is designed to provide a platform for trained staff to observe and rate program delivery in six individual skill areas and adherence to specific program curriculums, providing an overall fidelity score. The scores can range from 0-2. A zero score indicates “needs improvement,” 1 indicates “satisfactory,” and 2 “very satisfactory.” Initial overall score goals for Maine DOC programs was set at 1.5, with no individual skill area being under 1. All scores for each observation are entered in a database that keeps cumulative overall scores for each program. Immediately following each observation, rater feedback is provided to program staff to highlight strengths and areas of needed improvement. Cumulative reporting on each program has been provided to identify Department-wide areas of need, and specific targeted training to reinforce skill areas has been provided.

The table below shows DOC core programming cumulative scores for 2021 observed programs. *The treatment program expectation is all core programs will be observed a minimum of twice per class cohort.*

Client Classification Reviews

Client classification is a correctional process by which each resident is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for DOC residents, including: Close; Medium; Minimum; and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, residents with more than 5 years must be reviewed annually. Residents with 5 years or less remaining or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

The chart to the right demonstrates the timeliness of statewide classification reviews for DOC residents as of January 5, 2022. "Ok" and "Coming Due" statuses represent those up to date- about 98%. "Overdue" and "Overdue Pending" require review and finalization.

MaineCare & Projected Resident Releases- Through a collaboration with Department of Health and Human Services MaineCare Division, CMs can assist residents in ensuring MaineCare is in place at discharge.

Below are December 2021 releases with MaineCare status at discharge:

- 54 resident releases in December with full MaineCare in place.
- 1 partial MaineCare (open buy-in only)
- 2 released to out of state placements
- 2 unknown

2.3 Opioid Use Disorder & Substance Use Disorder Treatment

The tables below highlight treatment for Opioid Use Disorder (OUD) and Substance Use Disorder (SUD) at Maine Department of Corrections' adult correctional facilities, separated by men and women's treatment cohorts. Waitlists are generated by clinically assessed need. Once a resident is placed on the waitlist, they are offered treatment when a slot becomes available in the appropriate treatment.

"Grand Total" row represents the total number of residents active or wait listed in a treatment program, by program name. It is possible for a resident to be active or waitlisted for multiple SUD/OUD treatment programs, therefore the "total unique participants" row shows the non-duplicated number active in, or on a waitlist for any OUD or SUD treatment. The "total unique male pop" row shows the number of male residents on the day this report was run, and the % of male population represented by the unique participants in the waitlisted and active columns.

College Programming at Maine Department of Corrections

For over 20 years, the Maine Department of Corrections has been providing opportunities for residents to participate in and complete college programming. With over 100 college degrees awarded to residents since 2009, the college program has had a transformative impact on the culture of corrections and in the mindset of residents.

Apprenticeships at MDOC

MDOC has partnered with MDOL and Maine employers to provide four registered apprenticeships to its residents. Apprenticeships provide training and career pathways to high-quality jobs that allow earn while you learn.

Carpentry – Carpentry apprentices may earn credentials of NCCER carpentry 1,2 and 3 as well as complete a 1,2, or 3-year apprenticeship in carpentry. Selected candidates must have the NCCER CORE Curriculum completed prior to enrollment in the apprenticeship.

Current Enrollment: 4

Culinary Arts – Culinary apprentices may earn a ServSafe certification and will learn the skills required to work as a line cook in a commercial kitchen. Skills covered include food safety, storage, ordering, basic preparation, and more.

Current Enrollment: 3

Material Handler – Material handler apprentices will earn an OSHA Forklift Operators certification and are trained in warehouse operations such as order picking, stock rotation, packing, shipping, ordering, purchase Order use, invoicing, and more.

Current Enrollment: 2

Wood Harvesting – Wood Harvesting apprentices may earn a Certified Logging Professional Certification. Apprentices will learn safety requirements, OSHA requirements, directional felling, and equipment operation.

Current Enrollment: 3

2.5 Programming Tablets

The programming tablets in our MDOC facilities are corrections grade and operate on a closed, managed network that allows residents access to thousands of hours of free academic, vocational, life skills, and therapeutic programming designed for all learning levels. Currently there are over 700 tablets available to residents at specific levels in the following facilities: Maine State Prison, Maine Correctional Center, and Mountain View Correctional Facility.

“Productive Hours” is the total amount of time residents spent in active programming and “Total Hours” includes “Productive Hours” plus entertainment hours used. Residents earn entertainment time for active programming time.

Supervised Community Confinement Program (SCCP) Cases by Month

The purpose of the Supervised Community Confinement Program is to provide a means of successful reentry of facility residents into the community. Residents transferred to supervised community confinement are still considered facility residents while in the program. The place of confinement is in the community, rather than in a correctional facility. Participation in this program is a privilege that may be afforded to residents who meet the established criteria.

5.0 Office of Victim Services

December 2021 Highlights

Victim Notification:

One of the major duties of the Maine Department of Corrections (MDOC), Office of Victim Services (OVS) is to register victims of crime for victim notification of adult or juvenile resident release and enforce such requests as outlined in Statute. In December 2021, a total of 21 victims registered for victim notification. The chart indicates which agency assisted the victim in filing the victim notification request with the MDOC. The MDOC OVS assisted in 8 victim notification requests, totaling 38.10% of the requests for December.

Safety planning:

The MDOC victim advocates track information pertaining to releases of persons with problem sexual behavior or domestic violence history into the community and provides support services to crime victims prior to a registered person with problem sexual behavior or domestic violence history being released from an MDOC facility.

Victim wrap around meetings, or "victim safety planning meetings", are offered to all victims, and/or victim's parents/guardians if the victim is a minor, in preparation for the resident's release. Victim Services aims to have the meetings at least two weeks prior to the release date hoping that as much of the resident's re-entry plan information is current and available. These meetings are held at a Probation Office closest to where the victim lives. Only participants requested by the victims attend the meetings. Participants include, but are not limited to, Probation Officer, Victim Services Advocate, Victim and/or victim's parents/guardian, Law Enforcement Officer(s) and an advocate from the Sexual Assault Center or Domestic Violence Resource Center that is located

closest to the victim. Due to COVID-19 and the need for social distancing, safety planning meetings are currently held online. There were no safety planning meetings held in December.

Restitution:

In December, the Maine Department of Corrections collected \$72,563.18 in restitution. Restitution checks disbursed to crime victims in December totaled \$119,830.17 of which, \$13,387.97 were funds that would not have been disbursed without the research done by OVS.

In December the OVS reviewed 107 resident and/or client restitution cases which included 181 contacts with victims, collateral contacts researching the case, and connecting with the Court and District Attorney's Office staff in order to assist crime victims.

Maine Department of Corrections December 2021 Data Reporting

6.4 Violations & Revocations

Violations are broken up into three categories and are detailed below to help better understand the table.

- Felony – Probation Violation based on new criminal conduct that is a felony charge.
- Misdemeanor – Probation Violation based on new misdemeanor charges.
- Technical Violation – Probation violation that is technical in nature. Examples include- failure to report, contact with a victim, failure to participate in treatment, and absconding from probation (not limited to these).

Revocations are broken up into three categories and are detailed below to help better understand the table.

- Full Revocation – A probationer has violated the terms of their current probation and will be serving their underlying sentence at a Maine DOC facility.
- Probation Revocation with Continuation – Probationer will be serving time for a probation violation in either a county jail or in a Maine DOC facility. Upon release, the probationer will continue probation.
- Probation Revocation with Termination – Probationer will serve time for their probation violation in a county jail or Maine DOC facility. Upon release, the person will not be on probation.
