1.3 Administrative Control Unit Population

The Administrative Control Unit (ACU) is a housing unit at the Maine State Prison for residents in need of an extended period of intensive security and programming, when a return to a larger general population may pose an on-going or serious threat to the safety of others, risk of escape, or another repeated or serious threat to facility security. Residents in the ACU are afforded at least four (4) hours of time out of cell, per day, and are afforded access to programs, services, and communications comparable to general population housing areas.

The percent of the adult male population that was housed in the Administrative Control Unit (ACU) during the month of December 2022 was 0.33% (5 residents). The percent of the adult male population in ACU over the past two years is shown in the graph below.

The below tables show the demographics of residents in the Administrative Control Unit during the month of December 2022.

1.4 Restrictive Housing Population

Restrictive housing at MDOC is defined as housing that separates a resident from the general population and restricts the resident to his or her cell twenty-two (22) hours or more per day for the safe and secure operation of the facility.

Administrative status is the MDOC's designation used when placing a resident in restrictive housing.

Administrative status is the placement of a resident in a cell in a restrictive housing unit separated from the general population or in another housing unit only for as long as necessary as a result of a determination that there is a direct threat to the safety of persons or a clear threat to the safe and secure operation of the facility if the prisoner is on a less restrictive status.

The number of stays below and to the left are the number of times any resident spent any amount of time on the status during the month of December 2022. The number of unique residents below and to the right, are the number of residents that spent any amount of time on the status during the month of December 2022.

Number of Stays for Each Status	Male	Female	Number of Unique Residents for Each Status	Male	Female
Administrative Status	31	0	Administrative Status	31	0
Disciplinary Segregation	0	0	Disciplinary Segregation	0	0

The below tables show the demographics of residents on a restrictive housing status during the month of December 2022.

Race	Male		Female		Transgender	
Asian	0	0.0%	0	0.0%	0	0.0%
Black or African American	5	16.1%	0	0.0%	0	0.0%
Native American	1	3.2%	0	0.0%	0	0.0%
Nat. Hawaiian or Pac. Islander	0	0.0%	0	0.0%	0	0.0%
Two or More Races	0	0.0%	0	0.0%	0	0.0%
Unknown	0	0.0%	0	0.0%	0	0.0%
White	25	80.6%	0	0.0%	0	0.0%

Age Groups	Male		Female		Transgender	
20's	7	22.6%	0	0.0%	0	0.0%
30's	14	45.2%	0	0.0%	0	0.0%
40's	9	29.0%	0	0.0%	0	0.0%
50's	1	3.2%	0	0.0%	0	0.0%
60's	0	0.0%	0	0.0%	0	0.0%
70's	0	0.0%	0	0.0%	0	0.0%

An administrative status placement is an option of last resort, to be used only when a less restrictive alternative has not been or would not be effective to resolve the threat posed. This is especially important if a client has any medical or mental health condition that might contraindicate the placement.

In December, no clients with a Special Need were placed on Administrative Status, and 1 (3%) of the 31 clients placed had a Serious Mental Illness at the time of placement.

Maine Department of Corrections December 2022 Data Reporting

For residents placed on Administrative Status during the month of December 2022, the following table lists the reasons for the Administrative Status placement.

2.0 Correctional Programming

2.1 Client Classification Reviews

Client classification is a correctional process by which each resident is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for MDOC residents, including: Close; Medium; Minimum; and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, residents with more than 5 years must be reviewed annually. Residents with 5 years or less remaining or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

Classification reviews by facility can be found below (as of January 5, 2023).

- **47** resident releases in December with full MaineCare in place
- **2** out of state addresses
- **1** Federal detainer
- **1** declined to apply

2.2 Opioid Use Disorder & Substance Use Disorder Treatment

The tables below highlight treatment for Opioid Use Disorder (OUD) and Substance Use Disorder (SUD) at MDOC adult correctional facilities, separated by male and female treatment cohorts. Waitlists are generated by clinically assessed need. Once a resident is placed on the waitlist, they are offered treatment when a slot becomes available in the appropriate treatment.

“Grand Total” row represents the total number of residents active or wait listed in a treatment program, by program name. It is possible for a resident to be active or waitlisted for multiple SUD/OUD treatment programs, therefore the “total unique participants” row shows the non-duplicated number active in, or on a waitlist for any OUD or SUD treatment. The “total unique male pop” row shows the number of male residents on the day this report was run, and the % of male population represented by the unique participants in the waitlisted and active columns.

Active/Waitlisted numbers are current to January 6, 2023; year to date completions through December 2022.
