Special Housing: Restrictive Housing and Special Management Population

On July 1, 2020 the policies pertaining to Special Housing (SH) were revised resulting in a change to the status types along with other restrictive housing and special management criteria and definition changes. The below charts show the demographics of residents on a restrictive housing (RH) or special management (SM) status during the month of February 2021.

Number of Stays for Each Status	Male	Female
Administrative Control Unit (ACU)	13	0
Administrative Status	42	12
Disciplinary Segregation	13	2

Number of Unique Residents for Each Status	Male	Female
Administrative Control Unit (ACU)	13	0
Administrative Status	34	9
Disciplinary Segregation	8	1
More than one Status	3	1

Race	Males		Females	
	Count	Percentage	Count	Percentage
Asian	0	0.00%	0	0.00%
Black or African American	5	8.62%	2	18.18%
Native American	5	8.62%	0	0.00%
'Native Hawaiian or Pacific Islander	0	0.00%	0	0.00%
Two or More Races	0	0.00%	0	0.00%
Unknown	3	5.17%	0	0.00%
White	45	77.59%	9	81.82%

Age Groups	Males		Females	
	Count	Percentage	Count	Percentage
20's	20	34.48%	4	36.36%
30's	26	44.83%	6	54.55%
40's	9	15.52%	0	0.00%
50's	2	3.45%	1	9.09%
60's	1	1.72%	0	0.00%
70's	0	0.00%	0	0.00%

For residents placed on Administrative Status (RH) during the month of February 2021, the following chart shows the reasons for the Administrative Status placement.

Reason for Placement	# of Residents
Physical Altercation	18
Refusing Orders	9
Mental Health Concerns	8
Self-Inflicted Injury	7
Drug Possession/Use	3
Threatening	3
Possession of a Weapon	2
Disorderly Behavior	1
Threat to his/her Safety	1

Current Population by Controlling Offense

The table to the right shows the total DOC population including men and women by their controlling sentence. The 104 residents in the “Null” category is a result of the correctional information system not being able to determine a controlling sentence. The “Attempt” category represents several offense types where the controlling offense was attempted but not successful. Currently this includes attempted murder and attempt to commit a crime. Data as of 2/1/2021.

2.0 Correctional Programming

2.1 Correctional Program Fidelity

Beginning in the spring of 2016, DOC staff participated in a University of Cincinnati Corrections Institute (UCCI) training on fidelity monitoring using their group observation and coaching process. The form is designed to provide a platform for trained staff to observe and rate program delivery in six individual skill areas and adherence to specific program curriculums, providing an overall fidelity score. The scores can range from 0-2. A zero score indicates “needs improvement,” 1 indicates “satisfactory,” and 2 “very satisfactory.” Initial overall score goals for Maine DOC programs was set at 1.5, with no individual skill area being under 1. All scores for each observation are entered in a database that keeps cumulative overall scores for each program. Immediately following each observation, rater feedback is provided to program staff to highlight strengths and areas of needed improvement. Cumulative reporting on each program has been provided to identify Department-wide areas of need, and specific targeted training to reinforce skill areas has been provided.

The table below shows DOC core programming cumulative scores for 2020 observed programs. *The treatment program expectation is all core programs will be observed a minimum of twice per class cohort.*

Program Fidelity Scores by Program and Section Current to March 1, 2021

	Core Program Observed						
	T4C	CBI-SA	CBI-SO	CBI-IPV	LIB	Prime Life	Prime Sol

Client Classification Reviews

Client classification is a correctional process by which each resident is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for DOC residents, including: Close; Medium; Minimum; and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, residents with more than 5 years must be reviewed annually. Residents with 5 years or less remaining or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

The chart to the right demonstrates the timeliness of statewide classification reviews for DOC residents as of March 4, 2021.

“OK” and “Coming Due” statuses represent those who are up to date (97.5%). “Overdue” and “Overdue Pending” require review and finalization.

Classification reviews by facility can be found below.

	BCF		MCC - F		MCC - M		MSP		MVCF		All Facilities	
OK	89	67%	85	75%	226	68%	562	79%	167	61%	1129	72.23%

MaineCare & Projected Resident Releases- Through a collaboration with Department of Health and Human Services MaineCare Division, CMs can assist residents in ensuring MaineCare is in place at discharge.

- 64 resident releases in February 2021 with MaineCare in place.
- 5 released without MaineCare in place
 - 1 on county detainer
 - 1 out of state
 - 3 declined

Maine Department of Corrections February 2021 Data Reporting

Medication Assisted Treatment

On July 1, 2019, as a response to the current opioid epidemic in Maine and in accordance with Governor Mills' Executive Order, the Department of Corrections (MDOC) launched a pilot treatment program for residents in MDOC adult correctional facilities diagnosed with opioid use disorder (OUD). MDOC's MAT program is implemented in collaboration with Well Path (MDOC's comprehensive medical care provider) and Groups Recover Together (a community agency serving those with OUD). Current funding for the program in FY20 totals \$1.2 million, including \$450,000 from Maine SAMHS.

Medication Assisted Treatment (MAT) is considered one of the highest standards of care for individuals diagnosed with OUD, and the purpose of MAT is to reduce cravings for opiates to better allow individuals to manage personal triggers and engage in prosocial activity, including counseling/treatment, more effectively. MDOC's MAT program utilizes Buprenorphine and Naltrexone as primary medications prescribed by medical providers.

In July of 2019, MAT was initiated at Maine Correctional Center (men and women), Southern Maine Women's Reentry Center, and Bolduc Correctional Facility. The pilot treatment serves both male and female residents who are determined to need it by a medical provider, who understand the risks and benefits of treatment, who are willing to enter treatment, and who are within three months of discharge from DOC. Treatment starts in the facility, and continuity of care upon discharge is assured with DOC's community partner, Groups Recover Together. After an effective launch and early successes, MAT was initiated at Mountain View Correctional Center (in partnership with Day One) on November 4, 2019 and began at the Maine State Prison February 2020.

Progress as of March 8, 2021:

- 263 residents are currently active in treatment within a DOC Adult Facility
 - 234 men
 - 29 women
- 597 residents have successfully completed treatment while incarcerated and discharged from an Adult Correctional Facility
 - 503 men
 - 94 women
- 206 residents are on a waitlist for treatment
 - Pending final assessment and meeting all criteria

Since the pilot beginning, Groups Recover Together has been providing in facility support for residents participating in MAT and assisting in discharge planning including transition to either Groups MAT in the community or linking the resident to other MAT providers in catchment areas residents desire to live. Day One began this same practice at Mountain View Correctional Center in November 2019. MAT participants in all facilities are trained in the use of Narcan and offered either the medication or a prescription at time of discharge.

MDOC and MaineCare Collaboration

Historically, a significant barrier to residents transitioning from MDOC facilities to communities has been establishing and activating MaineCare benefits immediately upon release. In 2019, as a result of collaboration between MDOC and the Office of MaineCare, eligible residents releasing to communities have active MaineCare services immediately upon release.

Maine Department of Corrections February 2021 Data Reporting

Statewide Classroom Observations

Beginning January of 2019, the Department of Corrections implemented a teacher observation tool, to observe and rate program delivery in 4 individual skill areas, providing an overall fidelity score. The score can range from 0-2. A zero score indicates “improvement necessary,” 1 indicates “effective,” and 2 “highly effective.” Initial overall score goals for Maine DOC education programs were set at 1. All scores for each observation are entered in a database that keeps cumulative overall scores.

In 2020, due to the introduction of computer-based learning including tablets, a non-traditional observation tool was developed. The primary difference is this tool requires teachers to submit evidence (learning plans, process for assessments, etc.) of items that are not directly observable.

Immediately following each observation, rater feedback is provided to education staff to highlight strengths and areas of needed improvement. Cumulative reporting on facility observations has been provided to identify Department-wide areas of need and specific, targeted training to reinforce skill areas.

Education Observation Expectations:

- The number of required observations per teacher per year is 4.
- Observations shall be completed in a variety of content areas, with a focus on HiSET classes.
- Each MDOC facility shall have a process for ensuring that the observations are completed, and that educators and other UCCI-trained observers participate in the process.
- There are two tools used to support the education observation process. The traditional tool is used for lecture-style classrooms. The non-traditional tool is used for computer-based/tablet learning as well as learning labs.
- All tools and attachments shall be emailed to the Department’s Data/CQI team to compile and report out on.

The table below shows DOC education programming observations cumulative scores for 2021 as of March 2, 2021.

College Programming at Maine Department of Corrections

Summary

For over 20 years, the Maine Department of Corrections has been providing opportunities for residents to participate in and complete college programming. With over 130 college degrees awarded to residents since 2009, the college program has had a transformative impact on the culture of corrections and in the mindset of residents.

- Through the University of Maine and Community College systems, residents are eligible to earn one-year certificates and Associate’s or a Bachelor’s Degrees in multiple tracks.
- Residents can also seek alternative funding to enroll in Master’s Degree and PhD programs.
- In addition, the Department has partnered with MIT’s Educational Justice Institute to offer an “inside/outside” model of instruction, which allows DOC residents to engage in courses with residents in other facilities and MIT students.

Currently, college programming is primarily supported through Second Chance Pell Funding. On December 21, 2020, Congress voted to lift the ban on Pell Grants for people in prison.

Return to Custody Information

MDOC tracked all residents released from 2010 – 2020 who completed either an Associate’s Degree or Bachelor’s Degree. Since 2010, as of December 31, 2020 there have been 29 male releases with 2 returns (**6.9% return rate**) and 10 female releases with 0 returns (**0% return rate**). This is a total of 39 releases since 2010 and an **overall return rate of 5.1%**.

Maine Department of Corrections February 2021 Data Reporting

College and the Level System

The MDOC uses one or more privilege level systems at medium or higher security adult facilities in order to provide an objective system for the provision of incentives to prisoners in response to pro-social behaviors and attitudes and active engagement in rehabilitative programs. Privilege level decisions are based on the totality of a prisoner's circumstances including progress regarding their individualized case plan, behavior, attitude and other documented events and observations (e.g., interactions with staff and others). The Level System starts with Level 1, being the most restricted level, and increases up to Level 4 which has the highest level of privilege.

On 12/31/2020 71% of all residents were level 4, while 84% of residents in college were a level 4.

Behavior Level	% of all Residents by Level	% of College Students by Level
No Level	1.0%	0.0%
1	9.2%	3.5%
2	9.0%	4.1%
3	10.4%	8.1%
4	71.4%	84.3%

2.5 Programming Tablets

In December 2018, the Department launched the use of tablet technology to support increased education and vocational programming. Incorporating the use of tablets in the delivery of key programming supports the mission of the Department and two of our three strategic priorities: Program Expansion and Use of Technology.

The tablets are corrections grade and operate on a closed, managed network that allows residents access to thousands of hours of free academic, vocational, life skills, and therapeutic programming designed for all learning levels.

Currently there are over 700 tablets available to residents at specific levels in the following facilities: Maine State Prison, Maine Correctional Center, and Mountain View Correctional Facility.

“Productive Hours” is the total amount of time residents spent in active programming and “Total Hours” includes “Productive Hours” plus entertainment hours used. Residents earn entertainment time for active programming time.

Supervised Community Confinement Program (SCCP) Cases by Month

The purpose of the Supervised Community Confinement Program is to provide a means of successful reentry of facility residents into the community. Residents transferred to supervised community confinement are still considered facility residents while in the program. The place of confinement is in the community, rather than in a correctional facility. Participation in this program is a privilege that may be afforded to residents who meet the established criteria.

The charts below show the placements, completions and violations of SCCP, as well as the census at the end of each month.

Males	Feb-20	Mar-20	Apr-20	20-May	Jun-20	Jul-20	Aug-20	Sep-20	Oct-20	Nov-20	Dec-20	Jan-21	Feb-21

5.0 Office of Victim Services

February 2021 Highlights

Victim Notification:

One of the major duties of the Maine Department of Corrections (MDOC), Office of Victim Services (OVS) is to register victims of crime for victim notification of adult or juvenile resident release and enforce such requests as outlined in Statute. In February 2021, a total of 12 victims registered for victim notification. The chart indicates which agency assisted the victim in filing the victim notification request with the MDOC. The MDOC OVS assisted in 5 victim notification requests, totaling 41.67% of the requests for February.

Safety planning:

The MDOC victim advocates track information pertaining to releases of persons with problem sexual behavior or domestic violence history into the community and provides support services to crime victims prior to a registered person with problem sexual behavior or domestic violence history being released from an MDOC facility.

Victim wrap around meetings, or “victim safety planning meetings”, are offered to all victims, and/or victim’s parents/guardians if the victim is a minor, in preparation for the resident’s release. Victim Services aims to have the meetings at least two weeks prior to the release date hoping that as much of the resident’s re-entry plan information is current and available. These meetings are held at a Probation Office closest to where the victim lives. Only participants requested by the victims attend the meetings. Participants include, but are not limited to, Probation Officer, Victim Services Advocate, Victim and/or victim’s parents/guardian, Law Enforcement Officer(s) and an advocate from the Sexual Assault Center or Domestic Violence Resource Center that is located

closest to the victim. Due to COVID-19 and the need for social distancing, safety planning meetings are currently held online. In February, 4 safety planning meetings were held at the request of victims.

Restitution:

In February, the Maine Department of Corrections collected \$63,353.15 in restitution. Restitution checks disbursed to crime victims in February totaled \$41,290.11, of which, \$36,898.74 were funds that would not have been disbursed without the research done by OVS.

In February the OVS reviewed 131 resident and/or client restitution cases which included 236 contacts with victims, collateral contacts researching the case, and connecting with the Court and District Attorney's Office staff in order to assist crime victims.

6.3 Violations & Revocations

Violations are broken up into three categories and are detailed below to help better understand the table.

- Felony – Probation Violation based on new criminal conduct that is a felony charge.
- Misdemeanor – Probation Violation based on new misdemeanor charges.
- Technical Violation – Probation violation that is technical in nature. Examples include- failure to report, contact with a victim, failure to participate in treatment, and absconding from probation (not limited to these).

Revocations are broken up into three categories and are detailed below to help better understand the table.

- Full Revocation – A probationer has violated the terms of their current probation and will be serving their underlying sentence at a Maine DOC facility.
- Probation Revocation with Continuation – Probationer will be serving time for a probation violation in either a county jail or in a Maine DOC facility. Upon release, the probationer will continue probation.
- Probation Revocation with Termination – Probationer will serve time for their probation violation in a county jail or Maine DOC facility. Upon release, the person will not be on probation.

February 2021		County Jail		DOC Facility	
Violation Type	Revocation	Male	Female	Male	Female
Felony	Full Revocation			3	
	Probation Revocation with Continuation	4		1	
	Probation Revocation with Termination	4		3
