Special Housing: Restrictive Housing and Special Management Population

On July 1, 2020 the policies pertaining to Special Housing (SH) were revised resulting in a change to the status types along with other restrictive housing and special management criteria and definition changes. The below charts show the demographics of residents on a restrictive housing (RH) or special management (SM) status during the month of November 2020.

Number of Stays for Each Status	Male	Female
Administrative Control Unit (ACU)	11	0
Administrative Status	44	3
Disciplinary Segregation	17	2
Disciplinary Restriction moved from GP	2	0

Number of Unique Residents for Each Status	Male	Female
Administrative Control Unit (ACU)	10	0
Administrative Status	37	3
Disciplinary Segregation	11	2
More than one Status	4	0

Race	Males		Females	
Asian	2	3.23%	0	0.00%
Black or African American	8	12.90%	1	20.00%
Native American	3	4.84%	0	0.00%
'Native Hawaiian or Pacific Islander	1	1.61%	0	0.00%
Two or More Races	2	3.23%	0	0.00%
Unknown	3	4.84%	0	0.00%
White	43	69.35%	4	80.00%

Age Groups	Males		Females	
20's	27	43.55%	1	20.00%
30's	24	38.71%	0	0.00%
40's	8	12.90%	1	20.00%
50's	2	3.23%	3	60.00%
60's	0	0.00%	0	0.00%
70's	1	1.61%	0	0.00%

For residents placed on Administrative Status (RH) during the month of November 2020, the following chart shows the reasons for the Administrative Status placement.

Reason for Placement	# of Residents
Physical Altercation	15
Refusing Orders	5
Self-Inflicted Injury	5
Disorderly Behavior	4
Assault on Staff	3
Mental Health Concerns	3
Threatening Resident	3
Drugs Possession/Use	3
Threatening Staff	1

Current Population by Controlling Offense

The table to the right shows the total DOC population including men and women by controlling sentence. The 53 residents in the "Null" category is a result of the correctional information system not being able to determine a controlling sentence. The "Attempt" category represents several offense types where the controlling offense was attempted but not successful. Currently this includes attempted murder and attempt to commit a crime. Data as of 11/30/2020.

Maine Department of Corrections November 2020 Data Reporting

2.0 Correctional Programming

2.1 Correctional Program Fidelity

Beginning in the spring of 2016, DOC staff participated in a University of Cincinnati Corrections Institute (UCCI) training on fidelity monitoring using their group observation and coaching process. The form is designed to provide a platform for trained staff to observe and rate program delivery in six individual skill areas and adherence to specific program curriculums, providing an overall fidelity score. The scores can range from 0-2. A zero score indicates “needs improvement,” 1 indicates “satisfactory,” and 2 “very satisfactory.” Initial overall score goals for Maine DOC programs was set at 1.5, with no individual skill area being under 1. All scores for each observation are entered in a database that keeps cumulative overall scores for each program. Immediately following each observation, rater feedback is provided to program staff to highlight strengths and areas of needed improvement. Cumulative reporting on each program has been provided to identify Department-wide areas of need, and specific targeted training to reinforce skill areas has been provided.

The table below shows DOC core programming cumulative scores for 2020 observed programs. *The treatment program expectation is all core programs will be observed a minimum of twice per class cohort.*

Current to December 7, 2020

	Core Program Observed					
	T4C	CBI-SA	CBI-SO	LIB	Prime Life	Prime Sol
Group Structure/Format	1.90	1.83	1.73	1.68

Client Classification Reviews

Client classification is a correctional process by which each resident is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for DOC residents, including: Close; Medium; Minimum; and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, residents with more than 5 years must be reviewed annually. Residents with 5 years or less remaining or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

The chart to the right demonstrates the timeliness of statewide classification reviews for DOC residents as of December 3, 2020. "OK" and "Coming Due" statuses represent those who are up to date (95%). "Overdue" and "Overdue Pending" require review and finalization.

Classification reviews by facility can be found below.

	BCF		MCC - F		MCC - M		MSP		MVCF		All Facilities	
OK	93	62%	90	75%	213	72%	567	74%	223	77%	1186	73.3%

MaineCare & Projected Resident Releases- Through a collaboration with Department of Health and Human Services MaineCare Division, CMs can assist residents in ensuring MaineCare is in place at discharge.

- 59 resident releases in November with MaineCare in place.
- 4 released without MaineCare in place
 - 2 released out of state and are not eligible
 - 1 over income
 - 1 refused to apply saying he'd do it upon release

Maine Department of Corrections November 2020 Data Reporting

Medication Assisted Treatment

On July 1, 2019, as a response to the current opioid epidemic in Maine and in accordance with Governor Mills' Executive Order, the Department of Corrections (MDOC) launched a pilot treatment program for clients in MDOC adult correctional facilities diagnosed with opioid use disorder (OUD). MDOC's MAT program is implemented in collaboration with Well Path (MDOC's comprehensive medical care provider) and Groups Recover Together (a community agency serving those with OUD). Current funding for the program in FY20 totals \$1.2 million, including \$450,000 from Maine SAMHS.

Medication Assisted Treatment (MAT) is considered one of the highest standards of care for individuals diagnosed with OUD, and the purpose of MAT is to reduce cravings for opiates to better allow individuals to manage personal triggers and engage in prosocial activity, including counseling/treatment, more effectively. MDOC's MAT program utilizes Buprenorphine and Naltrexone as primary medications prescribed by medical providers.

In July of 2019, MAT was initiated at Maine Correctional Center (men and women), Southern Maine Women's Reentry Center, and Bolduc Correctional Facility. The pilot treatment serves both male and female residents who are determined to need it by a medical provider, who understand the risks and benefits of treatment, who are willing to enter treatment, and who are within three months of discharge from DOC. Treatment starts in the facility, and continuity of care upon discharge is assured with DOC's community partner, Groups Recover Together. After an effective launch and early successes, MAT was initiated at Mountain View Correctional Center (in partnership with Day One) on November 4, 2019 and began at the Maine State Prison February 2020.

Progress as of December 8, 2020:

- 171 residents are currently active in treatment within a DOC Adult Facility
 - 156 men
 - 16 women
- 516 residents have successfully completed treatment while incarcerated and discharged from an Adult Correctional Facility
 - 427 men
 - 89 women
- 177 residents are on a waitlist for treatment
 - Pending final assessment and meeting all criteria

Since the pilot beginning, Groups Recover Together has been providing in facility support for residents participating in MAT and assisting in discharge planning including transition to either Groups MAT in the community or linking the resident to other MAT providers in catchment areas residents desire to live. Day One began this same practice at Mountain View Correctional Center in November 2019. MAT participants in all facilities are trained in the use of Narcan and offered either the medication or a prescription at time of discharge.

MDOC and MaineCare Collaboration

Historically, a significant barrier to residents transitioning from MDOC facilities to communities has been establishing and activating MaineCare benefits immediately upon release. In 2019, as a result of collaboration between MDOC and the Office of MaineCare, eligible clients releasing to communities have active MaineCare services immediately upon release.

- None completed HSED in November

Maine Department of Corrections November 2020 Data Reporting

Statewide Classroom Observations

Beginning January of 2019, the Department of Corrections implemented a teacher observation tool, to observe and rate program delivery in 4 individual skill areas, providing an overall fidelity score. The score can range from 0-2. A zero score indicates “improvement necessary,” 1 indicates “effective,” and 2 “highly effective.” Initial overall score goals for Maine DOC education programs were set at 1. All scores for each observation are entered in a database that keeps cumulative overall scores.

In 2020, due to the introduction of computer-based learning including tablets, a non-traditional observation tool was developed. The primary difference is this tool requires teachers to submit evidence (learning plans, process for assessments, etc.) of items that are not directly observable.

Immediately following each observation, rater feedback is provided to education staff to highlight strengths and areas of needed improvement. Cumulative reporting on facility observations has been provided to identify Department-wide areas of need and specific, targeted training to reinforce skill areas.

Education Observation Expectations:

- The number of required observations per teacher per year is 4.
- Observations shall be completed in a variety of content areas, with a focus on HiSET classes.
- Each MDOC facility shall have a process for ensuring that the observations are completed, and that educators and other UCCI-trained observers participate in the process.
- There are two tools used to support the education observation process. The traditional tool is used for lecture-style classrooms. The non-traditional tool is used for computer-based/tablet learning as well as learning labs.
- All tools and attachments shall be emailed to the Department’s Data/CQI team to compile and report out on.

Maine Department of Corrections November 2020 Data Reporting

College Programming at Maine Department of Corrections Summary

For over 20 years, the Maine Department of Corrections has been providing opportunities for residents to participate in and complete college programming. Funding has come from two primary sources: Doris Buffett through the Sunshine Lady Foundation since 2006 and the Second Chance Pell Program since 2016. Opportunities are available for residents to earn an Associate's or a Bachelor's Degree, with one student currently pursuing a Master's Degree. With over 100 college degrees awarded to clients since 2009, the college program has had a transformative impact on the culture of corrections and in the mindset of residents.

Financial Support

Sunshine Lady Foundation

Since its inception in 2006, Doris Buffett's Sunshine Lady Foundation has gifted well over \$2 million to fund resident education at MSP and MCC's Women Center, including the cost of tuition and books.

For several years, the cost per semester at MSP was approximately \$55,000 plus \$7000 for books. This cost has been offset by SCP Funding, which started in 2016.

Maine Department of Education – Second Chance Pell Program

The Second Chance Pell Program started at MSP in Fall 2016 and at MCC/SMWRC in Fall 2017.

The allotment to UMA for Second Chance Pell students is about \$375,000 per academic year. The number of students in the SCP Grant includes 25 seats at MSP and 30 at MCC (15 women and 15 men). All students are eligible to be funded at full-time, or 12 credit hours per semester.

Return to Custody Information

MDOC tracked all residents released from 2010 – July 2020 who completed either an Associate's Degree or Bachelor's Degree. Since 2010, there have been 29 male releases with 2 returns (**6.9% return rate**) and 10 female releases with 0 returns (**0% return rate**). This is a total of 39 releases since 2010 and an **overall return rate of 5.1%**.

2.5 Programming Tablets

In December 2018, the Department launched the use of tablet technology to support increased education and vocational programming. Incorporating the use of tablets in the delivery of key programming supports the mission of the Department and two of our three strategic priorities: Program Expansion and Use of Technology.

The tablets are corrections grade and operate on a closed, managed network that allows clients access to thousands of hours of free academic, vocational, life skills, and therapeutic programming designed for all learning levels.

Currently there are over 700 tablets available to residents at specific levels in the following facilities: Maine State Prison, Maine Correctional Center, and Mountain View Correctional Facility.

“Productive Hours” is the total amount of time residents spent in active programming and “Total Hours” includes “Productive Hours” plus entertainment hours used. Residents earn entertainment time for active programming time.

As noted in the table above, there was a reduced number of transfers in the second quarter of 2020 due to COVID-19 restrictions. However, after the Department of Corrections reduced the restrictions on transfers, there had been a steady increase throughout the third quarter. Since then, restrictions re-implemented in October and November 2020 once again resulted in a decline.

5.0 Office of Victim Services

November 2020 Highlights

Victim Notification:

One of the major duties of the Maine Department of Corrections (MDOC), Office of Victim Services (OVS) is to register victims of crime for victim notification of adult or juvenile resident release and enforce such requests as outlined in Statute. In November 2020, a total of 6 victims registered for victim notification. The chart indicates which agency assisted the victim in filing the victim notification request with the MDOC. The MDOC OVS assisted in 5 victim notification requests, totaling 83.33% of the requests for November.

Safety planning:

The MDOC victim advocates track information pertaining to releases of persons with problem sexual behavior or domestic violence history into the community and provides support services to crime victims prior to a registered person with problem sexual behavior or domestic violence history being released from an MDOC facility.

Victim wrap around meetings, or “victim safety planning meetings”, are offered to all victims, and/or victim’s parents/guardians if the victim is a minor, in preparation for the resident’s release. Victim Services aims to have the meetings at least two weeks prior to the release date hoping that as much of the resident’s re-entry plan information is current and available. These meetings are held at a Probation Office closest to where the victim lives. Only participants requested by the victims attend the meetings. Participants include, but are not limited to, Probation Officer, Victim Services Advocate, Victim and/or victim’s parents/guardian, Law Enforcement Officer(s) and an advocate from the Sexual Assault Center or Domestic Violence Resource Center that is located

closest to the victim. Due to COVID-19 and the need for social distancing, safety planning meetings are currently held online. In November, 3 safety planning meetings were held at the request of victims.

Restitution:

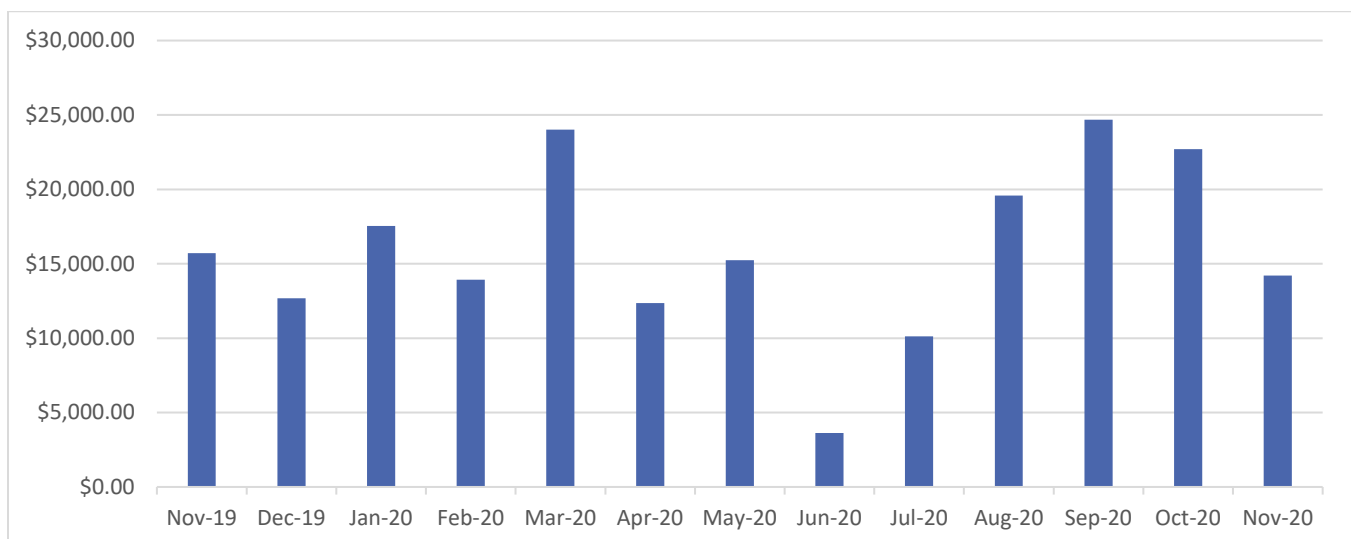

In November, the Maine Department of Corrections collected \$69,407.90 in restitution. Restitution checks disbursed to crime victims in November totaled \$79,385.91, of which, \$14,207.38 were funds that would not have been disbursed without the research done by OVS.

In November the OVS reviewed 94 resident and/or client restitution cases which included 178 contacts with victims, collateral contacts researching the case, and connecting with the Court and District Attorney's Office staff in order to assist crime victims.

6.3 Violations & Revocations

Violations are broken up into three categories and are detailed below to help better understand the table.

- Felony – Probation Violation based on new criminal conduct that is a felony charge.
- Misdemeanor – Probation Violation based on new misdemeanor charges.
- Technical Violation – Probation violation that is technical in nature. Examples include- failure to report, contact with a victim, failure to participate in treatment, and absconding from probation (not limited to these).

Revocations are broken up into three categories and are detailed below to help better understand the table.

- Full Revocation – A probationer has violated the terms of their current probation and will be serving their underlying sentence at a Maine DOC facility.
- Probation Revocation with Continuation – Probationer will be serving time for a probation violation in either a county jail or in a Maine DOC facility. Upon release, the probationer will continue probation.
- Probation Revocation with Termination – Probationer will serve time for their probation violation in a county jail or Maine DOC facility. Upon release, the person will not be on probation.

November 2020
