Special Housing: Restrictive Housing and Special Management Population

On July 1, 2020 the policies pertaining to Special Housing (SH) were revised resulting in a change to the status types along with other restrictive housing and special management criteria and definition changes. The below chart shows the average daily population of clients on a restrictive housing (RH) or special management (SM) status, as well as the ADP in those statuses as a percent of the total population.

Gender	Facility	Special Housing Type	Average Daily Population in SH Sep 2020
Females	MCC	Administrative Status (RH)	1.33
		Disciplinary Segregation (RH)	0.00
	Daily Average of Females in Special Housing		1.33
	% of Female Population in Special Housing		0.99%

Current Population by Controlling Offense

The table to the right shows the total DOC population including men and women by controlling sentence. The 101 clients in the “Null” category is a result of the correctional information system not being able to determine a controlling sentence. The “Attempt” category represents several offense types where the controlling offense was attempted but not successful. Currently this includes attempted murder and attempt to commit a crime. Chart updated October 9, 2020.

2.0 Correctional Programming

2.1 Correctional Program Fidelity

Beginning in the spring of 2016, DOC staff participated in a University of Cincinnati Corrections Institute (UCCI) training on fidelity monitoring using their group observation and coaching process. The form is designed to provide a platform for trained staff to observe and rate program delivery in six individual skill areas and adherence to specific program curriculums, providing an overall fidelity score. The scores can range from 0-2. A zero score indicates “needs improvement,” 1 indicates “satisfactory,” and 2 “very satisfactory.” Initial overall score goals for Maine DOC programs was set at 1.5, with no individual skill area being under 1. All scores for each observation are entered in a database that keeps cumulative overall scores for each program. Immediately following each observation, rater feedback is provided to program staff to highlight strengths and areas of needed improvement. Cumulative reporting on each program has been provided to identify Department-wide areas of need, and specific targeted training to reinforce skill areas has been provided.

The table below shows DOC core programming cumulative scores for 2020 observed programs. *The treatment program expectation is all core programs will be observed a minimum of twice per class cohort.*

Current to October 6, 2020.

	Core Program Observed					
	T4C	CBI-SA	CBI-SO	LIB	Prime Life	Prime Sol

Client Classification Reviews

Client classification is a correctional process by which each client is rated per his/her institutional risk and is used to determine an appropriate housing unit. There are four classifications for DOC clients, including: Close; Medium; Minimum; and Community. An Initial Classification is performed upon admission to a correctional facility after completion of intake assessments. After the initial classification, clients with more than 5 years must be reviewed annually. Clients with 5 years or less remaining or who are transgender, or intersex must be reviewed every 6 months. Case Managers and Unit Teams combined are responsible for keeping classifications up to date.

The chart to the right demonstrates the timeliness of statewide classification reviews for DOC clients as of October 2, 2020. "Ok" and "Coming Due" statuses represent those who are up to date (96.46%). "Overdue" and "Overdue Pending" require review and finalization.

Classification reviews by facility can be found below.

	BCF		MCC - F		MCC - M		MSP		MVCF		All Facilities	
OK	120	75%	109	87%	248	81%	613	81%	224	72%	1314	78.97%

MaineCare & Projected Client Releases- Through a collaboration with MaineCare, CMs are able to assist clients in ensuring MaineCare is in place at discharge.

- 58 client releases in September with MaineCare in place.
- 10 released without MaineCare in place
 - 7 released out of state and are not eligible
 - 3 were picked up on federal detainers

Maine Department of Corrections September 2020 Data Reporting

Medication Assisted Treatment

On July 1, 2019, as a response to the current opioid epidemic in Maine and in accordance with Governor Mills' Executive Order, the Department of Corrections (MDOC) launched a pilot treatment program for clients in MDOC adult correctional facilities diagnosed with opioid use disorder (OUD). MDOC's MAT program is implemented in collaboration with Well Path (MDOC's comprehensive medical care provider) and Groups Recover Together (a community agency serving those with OUD). Current funding for the program in FY20 totals \$1.2 million, including \$450,000 from Maine SAMHS.

Medication Assisted Treatment (MAT) is considered one of the highest standards of care for individuals diagnosed with OUD, and the purpose of MAT is to reduce cravings for opiates to better allow individuals to manage personal triggers and engage in prosocial activity, including counseling/treatment, more effectively. MDOC's MAT program utilizes Buprenorphine and Naltrexone as primary medications prescribed by medical providers.

In July of 2019, MAT was initiated at Maine Correctional Center (men and women), Southern Maine Women's Reentry Center, and Bolduc Correctional Facility. The pilot treatment serves both male and female clients who are determined to need it by a medical provider, who understand the risks and benefits of treatment, who are willing to enter treatment, and who are within three months of discharge from DOC. Treatment starts in the facility, and continuity of care upon discharge is assured with DOC's community partner, Groups Recover Together. After an effective launch and early successes, MAT was initiated at Mountain View Correctional Center (in partnership with Day One) on November 4, 2019 and began at the Maine State Prison February 2020.

Progress as of October 8, 2020:

- 192 clients are currently active in treatment within a DOC Adult Facility
 - 177 men
 - 15 women
- 439 clients have successfully completed treatment while incarcerated and discharged from an Adult Correctional Facility
 - 353 men
 - 86 women
- 171 clients are on a waitlist for treatment
 - Pending final assessment and meeting all criteria

Since the pilot beginning, Groups Recover Together has been providing in facility support for clients participating in MAT and assisting in discharge planning including transition to either Groups MAT in the community or linking the client to other MAT providers in catchment areas clients desire to live. Day One began this same practice at Mountain View Correctional Center in November 2019. MAT participants in all facilities are trained in the use of Narcan and offered either the medication or a prescription at time of discharge.

MDOC and MaineCare Collaboration

Historically, a significant barrier to clients transitioning from MDOC facilities to communities has been establishing and activating MaineCare benefits immediately upon release. In 2019, as a result of collaboration between MDOC and the Office of MaineCare, eligible clients releasing to communities have active MaineCare services immediately upon release.

- 1 woman completed HSED in September

Maine Department of Corrections September 2020 Data Reporting

Statewide Classroom Observations

Beginning January of 2019, the Department of Corrections implemented a teacher observation tool, to observe and rate program delivery in 4 individual skill areas, providing an overall fidelity score. The score can range from 0-2. A zero score indicates “improvement necessary,” 1 indicates “effective,” and 2 “highly effective.” Initial overall score goals for Maine DOC education programs were set at 1. All scores for each observation are entered in a database that keeps cumulative overall scores.

In 2020, due to the introduction of computer-based learning including tablets, a non-traditional observation tool was developed. The primary difference is this tool requires teachers to submit evidence (learning plans, process for assessments, etc.) of items that are not directly observable.

Immediately following each observation, rater feedback is provided to education staff to highlight strengths and areas of needed improvement. Cumulative reporting on facility observations has been provided to identify Department-wide areas of need and specific, targeted training to reinforce skill areas.

Education Observation Expectations:

- The number of required observations per teacher per year is 4.
- Observations shall be completed in a variety of content areas, with a focus on HiSET classes.
- Each MDOC facility shall have a process for ensuring that the observations are completed, and that educators and other UCCI-trained observers participate in the process.
- There are two tools used to support the education observation process. The traditional tool is used for lecture-style classrooms. The non-traditional tool is used for computer-based/tablet learning as well as learning labs.
- All tools and attachments shall be emailed to the Department’s Data/CQI team to compile and report out on.

The table below shows DOC education programming observations cumulative scores for 2020 as of October 6, 2020.

Maine Department of Corrections September 2020 Data Reporting

College Programming at Maine Department of Corrections Summary

For over 20 years, the Maine Department of Corrections has been providing opportunities for clients to participate in and complete college programming. Funding has come from two primary sources: Doris Buffett through the Sunshine Lady Foundation since 2006 and the Second Chance Pell Program since 2016. Opportunities are available for clients to earn an Associate’s or a Bachelor’s Degree, with one student currently pursuing a Master’s Degree. With over 100 college degrees awarded to clients since 2009, the college program has had a transformative impact on the culture of corrections and in the mindset of clients.

Financial Support

Sunshine Lady Foundation

Since its inception in 2006, Doris Buffett's Sunshine Lady Foundation has gifted well over \$2 million to fund client education at MSP and MCC’s Women Center, including the cost of tuition and books.

For several years, the cost per semester at MSP was approximately \$55,000 plus \$7000 for books. This cost has been offset by SCP Funding, which started in 2016.

Maine Department of Education – Second Chance Pell Program

The Second Chance Pell Program started at MSP in Fall 2016 and at MCC/SMWRC in Fall 2017.

The allotment to UMA for Second Chance Pell students is about \$375,000 per academic year. The number of students in the SCP Grant includes 25 seats at MSP and 30 at MCC (15 women and 15 men). All students are eligible to be funded at full-time, or 12 credit hours per semester.

Return to Custody Information

MDOC tracked all clients released from 2010 – July 2020 who completed either an Associate’s Degree or Bachelor’s Degree. Since 2010, there have been 29 male releases with 2 returns (**6.9% return rate**) and 10 female releases with 0 returns (**0% return rate**). This is a total of 39 releases since 2010 and an **overall return rate of 5.1%**.

2.5 Programming Tablets

In December 2018, the Department launched the use of tablet technology to support increased education and vocational programming. Incorporating the use of tablets in the delivery of key programming supports the mission of the Department and two of our three strategic priorities: Program Expansion and Use of Technology.

The tablets are corrections grade and operate on a closed, managed network that allows clients access to thousands of hours of free academic, vocational, life skills, and therapeutic programming designed for all learning levels.

Currently there are over 700 tablets available to clients at specific levels in the following facilities: Maine State Prison, Maine Correctional Center, and Mountain View Correctional Facility.

“Productive Hours” is the total amount of time clients spent in active programming and “Total Hours” includes “Productive Hours” plus entertainment hours used. Clients earn entertainment time for active programming time.

5.0 Office of Victim Services

September 2020 Highlights

Victim Notification:

One of the major duties of the Maine Department of Corrections (MDOC), Office of Victim Services (OVS) is to register victims of crime for victim notification of adult client or juvenile release and enforce such requests as outlined in Statute. In September 2020, a total of 14 victims registered for victim notification. The chart indicates which agency assisted the victim in filing the victim notification request with the MDOC. The MDOC OVS assisted in 5 victim notification requests, totaling 35.71% of the requests for September.

Safety planning:

The MDOC victim advocates track information pertaining to sex offender and domestic violence releases into the community and provides support services to crime victims prior to a registered sex offender or domestic violence offender being released from a MDOC facility.

Victim wrap around meetings, or “victim safety planning meetings”, are offered to all victims, and/or victim’s parents/guardians if the victim is a minor, in preparation for the client’s release. Victim Services aims to have the meetings at least two weeks prior to the release date hoping that as much client re-entry plan information is current and available. These meetings are held at a Probation Office closest to where the victim lives. Only participants requested by the victims attend the meetings. Participants include, but are not limited to, Probation Officer, Victim Services Advocate, Victim and/or victim’s parents/guardian, Law Enforcement Officer(s) and an advocate from the Sexual Assault Center or Domestic Violence Resource Center that is located closest to the victim. Due to COVID-19 and the need for social distancing, safety planning meetings are currently held online.

Maine Department of Corrections September 2020 Data Reporting

Restitution:

In September, the Maine Department of Corrections collected \$76,977.97 in restitution. Restitution checks disbursed to crime victims in September totaled \$91,089.41, of which, \$24,673.62 were funds that would not have been disbursed without the research done by OVS.

In September the OVS reviewed 72 client's restitution cases which included 116 contacts with victims, collateral contacts researching the case, and connecting with the Court and District Attorney's Office staff in order to assist crime victims.

6.3 Violations & Revocations

Violations are broken up into three categories and are detailed below to help better understand the table.

- Felony – Probation Violation based on new criminal conduct that is a felony charge.
- Misdemeanor – Probation Violation based on new misdemeanor charges.
- Technical Violation – Probation violation that is technical in nature. Examples include- failure to report, contact with a victim, failure to participate in treatment, and absconding from probation (not limited to these).

Revocations are broken up into three categories and are detailed below to help better understand the table.

- Full Revocation – A probationer has violated the terms of their current probation and will be serving their underlying sentence at a Maine DOC facility.
- Probation Revocation with Continuation – Probationer will be serving time for a probation violation in either a county jail or in a Maine DOC facility. Upon release, the probationer will continue probation.
- Probation Revocation with Termination – Probationer will serve time for their probation violation in a county jail or Maine DOC facility. Upon release, the person will not be on probation.
