

July 14, 2022

At the Commission's June 23 Business Meeting, a new Performance Framework was adopted for use in all Maine Charter Schools beginning with school year 2022-2023. Your school's approved Performance Framework is below.

The National Association of Charter School Authorizers' (NACSA's) Principles & Standards for Quality Charter School Authorizing (2012) emphasizes that a quality authorizer establishes standards for school performance that are clear, quantifiable, rigorous, and attainable. NACSA also recommends that authorizers develop and formally adopt a Performance Framework that includes academic, financial, and organizational performance measures for use by schools and authorizers to establish expectations, guide practice, assess progress, and inform decision making over the course of the charter term and at renewal or revocation.

The three areas of performance covered by the framework—academic, financial, and organizational, form the backbone of the Maine Charter School Commission's performance management system. This framework enables effective performance management and promotes school success by establishing and communicating performance expectations for all schools in the MCSC's portfolio in a way that is objective, transparent, and directly related to school quality.

Over the next few months, we will work with schools on the Custom Target portion of the Performance Framework.

Because the Performance Framework is a part of the charter contract between the Maine Charter School Commission and the school, a contract amendment must be completed to incorporate the new Performance Framework into the charter contract.

We ask that your board review and approve the Performance Framework below and return a signed copy by August 19, 2022.

If you have any questions, please contact me.

Best,
Gina
