---

Billie,

Minimal fish and wildlife concerns with this project. We reviewed the applicant's assessment and concur with their results relating to Vernal Pools, Roaring Brook Mayfly and Northern Spring Salamander.

Thanks,  
Andy

Good Morning.

Your office provided preliminary comments in a letter to Michael Roy on this project dated January 3, 2025. Please provide a detailed review of the project. The files are large so I hope it is ok to send them in three emails. Here is the review cover sheet and the first part of the application. I have omitted the deed, land division history and financial capacity sections in order to reduce the file size as I didn't think those exhibits would be critical to your review.

Thanks.
