Todd, thanks for the update! Was not positive on the wording, as you can see, so I added in a few words that did not belong. As we talked about a interested person will work for me, thanks!

Also a point I feel strongly about, being a Veteran, I think a public hearing should be a law, because, for one, it does affect many hundreds of people! Any continuing attempt by First Wind, or other parties involved, to keep the people from voting or speaking on the issues is a clear and obvious attempt to obstruct justice as was done in Lincoln in several ways! The reason that First Wind did not want to change the zoning in Lincoln was because the people would have to vote on the issue! So they were allowed without a variance to build a commercial project in a rural residential area, having a negative impact on thousands of people where was the representation?! And where will the representation be if The Bowers Wind Project goes forward with as little impute from the people as possible?!

You used the phrase "[intervene on a personal level](#)". Based on our conversation I understood you wanted to be considered as an "interested person" and not as an intervenor.

Good day, Todd! This letter is in response to First Wind's project of Bowers Wind Project and our conversation!

The project is not being properly evaluated for old Indian sites, so I would like to be on a list of petitioners to ask for a public hearing and to intervene on a personal level! Most old Indian sites had lookout camps on ridge tops and it was a way to spot animals from a distance and to sight people from a distance! Even today people go to hill tops if lost to get the bearings! Indians brought their dead and dying to the hill tops to be closer to Their God! Also when the waters came into the land, at least as far as East Millinocket, after the glaciers melted they were force to the hills tops in and around the Lincoln area, etc.!

If the generators go up on the Bowers wind project it will have a "Cumulative Impact" on the area to include Mt. Katahdin, partly best the towers are taller then the ones in The Lincoln area!

If the tall towers are allowed I believe I will be able to see them from my land in Woodville, from a look-out tower I built! If I build the tower 80' as I plan to I will see the towers for sure, it will devalue the land and remove a pristine view of the surrounding mountains to include Mt. Katahdin, Joe Mary

Mt., Whitecap Mt., Saddleback Mt. and several more! Will submit more information soon! Truly yours,  
Leonard J. Murphy. Jr.

**Subject:** Bowers/Champlain Wind DP4889 questions and Interested Person request  
**Date:** Monday, March 21, 2011 4:59:56 PM

---

Fred,

I am writing to request 'Interested Person' status for the above referenced project. Do to my personal and business interests in the ongoing wind development projects in this State, I would like to be considered an 'Interested Person,' as per LURC Rules, Chapter 5, as opposed to simply being on the 'Interested Parties notification list.' I would like to have as much participation in the process as possible, without being an 'Intervener.' I have made similar requests for the Highland Project, as well as the Bull Hill Project, and iwill be attending the bull hill Pre-Hearing conference tomorrow.

Your notification that went out on March 14 has caused some confusion. Please clarify if this request for interested person status, and requests for a public hearing must be recieved in writting [in the mail] as opposed to by email. Every other wind project to date has accepted these requests by email. I believe your reference to signed/mailed documents refered to 'Intervener' requests, but I would like clarification as soon as possible.

Thank you.

Dave

**Subject:** RE: Procedural Issue  
**Date:** Wednesday, March 30, 2011 10:40:00 AM

---

Gary, I have both of your letters requesting a public hearing but didn't note a request to be an "interested person". There is no deadline for requesting status as an "interested person" so we'll add you and Kay to that list. You may respond to that procedural order if you wish. The next order will have you and Kay listed.

There are three levels of public participation:

**Interested public:** The list of people who just want to be kept informed of events in a particular proceeding.

**Interested Persons:** As defined in LURC rules, and with an enhanced role in the proceeding as decided by the Chair, but not as involved as intervenors -- could be an entity such as the PPDW.

**Parties:** Intervenors, government agencies, applicant.

**Subject:** Procedural Issue

Hi Fred,  
Kevin Gurall forwarded me the email about the Procedural Order. I'm surprised I didn't get it directly. Can you please check to see if my wife and I are registered as interested persons? Our full names are Gary Campbell and Kay Campbell.

Also, I see that PPDW is listed as an interested person ("Kevin Gurall, PPDW"). After reading all the legal explanations provided by you and Catherine Carroll, I thought there were three levels of participation: Intervenor, Interested Party and Interested Person. I thought we registered PPDW as an Interested Party but I see us listed as an Interested Person. Am I totally confused?

Thanks,  
Gary
