

City of Belfast Rangeway Management Plan

PARTNERS

The City of Belfast Parks and Recreation Commission

PROJECT DESCRIPTION (anticipated completion February 2018)

The City of Belfast owns 17 documented public rangeways and rights-of-way in its urban area that allow public access to the coast. Many of them date back to the establishment of Belfast in 1768. Public access is at a premium along the Maine coast and, taken together, these public access points provide access to nearly 5.5 miles of coast. These funds will allow the city to develop management actions for each rangeway to insure continued public access, a critical element of both the town and regional economies.
