

## **Hancock County Planning Commission Village and Waterfront Plan for the Town of Orland**

*Orland River Day*

### **PARTNERS**

Town of Orland and Great Pond Mountain Conservation Trust

### **PROJECT DESCRIPTION** (completed April 2017)

Downtown Orland's location along a tidal tributary of the Penobscot River and adjacent to the busy Route 1 corridor presents an opportunity to reinvigorate its downtown by capitalizing on its coastal identity. This project will assess current conditions in Orland village and changes to the Narramissic River brought about by the closure of Verso Paper; gather citizen input on improving economic opportunities in light of the mill closure; and identify actions that will improve growth and economic development in the waterfront village area.
