Motorized Trails

ATV riders enjoy 30 miles of trail plus an Adirondack shelter for near-trail camping along the north end of Scopan M. The map includes a picnic table, fire ring, and a 5-mile loop hiking trail, and is close to a stream.

Hiking Trails

Scopan Loop Trail (difficult, 3.5 miles roundtrip, allow 3 hours). Take Scopan M. Proceed on the north edge of the wetland, then circle into the trail between steep and maintain a rigorous grade until the summit at the north edge trail at 1,470 feet. The trail continues by dropping slightly down the west side of the ridge. The final 3 miles is a steep grade down before leveling near the trailhead.

Kidder Loop Trail (easy, 0.5-mile loop) Begins and ends at the Adirondack shelter near the ATV trail north of Gate #2. Follow signs to trailhead.
