- Hemp Planting Report -

INDOOR

Licensee Name: _____ Date: _____ Page ____ of ____ (use additional forms as needed to report on all lots)

A hemp “lot” is a single variety (cultivar), strain or cross that you grow in a distinct location (or locations) and is not mixed with other hemp cultivars and is planted at about the same time and will be harvested at about the same time. Indoor growers may have several “lots” during a license period. In 2020, DACF staff will be sampling individual hemp lots. It is therefore important that you plant your crop with the “lot” concept in mind and report about it in a “lot” format. After the pre-harvest sample analysis, DACF will send licensed hemp growers Certificate of Analysis reports (THC results) for each lot that is grown. Annually, you must also report your harvest for each lot you grow.

LICENSE NUMBER	INDOOR SITE ID	VARIETY/CULTIVAR GROWN	GPS COORDINATES FOR THIS LOT <small>(decimal degrees from center of lot)</small>	TOTAL SQAURE FEET PLANTED FOR THIS LOT	DID YOU PLANT SEEDS, SEEDLINGS OR CLONES?	PLANTING DATE	ESTIMATED HARVEST DATE	TYPE OF HEMP CROP <ul style="list-style-type: none"> • Flower (bud) • Biomass • Fiber (textiles, construction...) • Grain (hemp hearts) • Seed (breeding) • Other – please elaborate
