- **Waldo County, towns of:** Belfast, Belmont, Frankfort, Islesboro, Lincolnville, Morrill, Northport, Prospect, Searsmont, Searsport, Stockton Springs, Swanville, Waldo
- **York County:** all towns

Hemlock woolly adelgid (HWA) is an invasive insect that attacks and kills hemlock trees. Maine has an HWA quarantine to slow the spread of HWA in the state. It is illegal to move hemlock trees from the quarantine area to any other part of the state. Help protect Maine's forests from this destructive insect by following the quarantine; it's the law.
