3. Overview of Likely Responses to Human Health Risks Arising from Mosquito-Borne Pathogens

At its September 7, 2012, meeting, the Board adopted an emergency amendment to Chapter 20 of its rules. The purpose of the amendment was to facilitate public-health-related mosquito-abatement programs, in the event that risks of a mosquito-borne-disease outbreak become critical. Following a staff update at the October 26, 2012, meeting, the Board requested that a representative from the Maine Center for Disease Control and Prevention attend a future Board meeting to provide an overview of the state's likely response to a critical mosquito-borne-disease threat. Dr. Stephen Sears, State Epidemiologist, agreed to attend the December 7 meeting and brief the Board.

4. Adoption of Proposed Amendments to Chapters 10, 27, and 50, and the Proposed Repeal of Chapter 21

*(Note: No additional public comments may be accepted at this time.)*

On August 15, 2012, a Notice of Agency Rulemaking Proposal was published in Maine's daily newspapers, opening the comment period on the proposed amendments to Chapters 10, 27, and 50, and the proposed repeal of Chapter 21. A public hearing was held on September 7, 2012, and the written comment period closed at 5:00 PM on September 28, 2012. The Board reviewed the hearing record at its October 26, 2012, meeting and instructed the staff to make adjustments to the draft amendments to Chapter 27. The Board will now review the new draft amendments to Chapter 27 and the associated rulemaking documents for all four chapters, and determine whether it wishes to adopt any/all of the proposed amendments.

Director

Action Needed: Decision on whether to adopt the proposed amendments/repeal

5. Consideration of a Consent Agreement with TruGreen Lawncare of Westbrook

On June 3, 1998, the Board amended its Enforcement Protocol to authorize staff to work with the Attorney General and negotiate consent agreements in advance in matters not involving substantial threats to the environment or public health. This procedure was designed for cases where there is no dispute of material facts or law, and the violator admits to the violation and acknowledges a willingness to pay a fine and resolve the matter. This case involved the application of a pesticide without prior authorization from the property owner.

Manager of Compliance

Action Needed: Approve/disapprove the consent agreement negotiated by staff

6. Consideration of a Consent Agreement with The Lawn Dawg of Portland

On June 3, 1998, the Board amended its Enforcement Protocol to authorize staff to work with the Attorney General and negotiate consent agreements in advance in matters not involving substantial threats to the environment or public health. This procedure was designed for cases where there is no dispute of material facts or law, and the violator admits to the violation and acknowledges a willingness to pay a fine and resolve the matter. This case involved the application of a pesticide without prior authorization from the property owner and an application of pesticides within 250 feet of the property of an individual listed on the Maine Pesticide Notification Registry, without notification to that individual.
