-Main Topic: Pesticide Use Reporting for Ag Producers (Private & Ag Basic)  
-Other Topics Also Welcome
- 11:15–1:00\* BPC Meeting, continued

*\*One credit for attending entire meeting and forum*

### Upcoming BPC Rulemaking

The Board of Pesticides Control is conducting rulemaking to incorporate requirements from recent legislation [LD 155](#), [LD 264](#), and [LD 316](#). The proposed amendments include:

#### Chapter 20 – Three amendments are proposed:

1. Define “Perfluoroalkyl and Polyfluoroalkyl Substances” or “PFAS”.
2. Add a requirement for registrants to submit a confidential statement of formula to register their product with the state of Maine.
3. Add two affidavit requirements; one affidavit that asks registrants to disclose if their pesticide product has ever been stored in a fluorinated high-density polyethylene container and a second affidavit asking registrants to disclose if the formulation of the pesticide product contains any perfluoroalkyl or polyfluoroalkyl substances.

#### Chapter 41 – Two amendments are proposed:

1. Add a new section pertaining to neonicotinoids (dinotefuran, clothianidin, imidacloprid or thiamethoxam) to restrict registration and prohibit use in outdoor residential landscapes for the purposes of managing pests in turf and ornamental vegetation. Add a clause allowing use for management of invasive invertebrate pests in ornamental vegetation.
2. Add a new section prohibiting the use of chlorpyrifos, except for licensed applicators who obtain a use permit from the Board to apply chlorpyrifos products purchased prior to December 31, 2022.

**A public hearing has been scheduled during the January Board meeting. It will be a remote meeting on Friday, January 14, 2022 @ 9:00AM via Microsoft Teams. A link to join will be posted on the BPC website.**
