

STATE OF MAINE

Foundation/Certified

Seed

Potatoes

As determined by the

Post-Harvest Test

Crop Year 2025

The readings in the Foundation List do not exceed tolerances for Maine Foundation Seed Potatoes. (0.55% total virus and produced on farms where no Ring Rot was found in 2025)

Included in this book are those seed lots that met the tolerances for Maine Certified Seed Potatoes.

Printed under appropriation number 014 01A 7871 012

Crop Year 2025 Seed Potato Lots Not Exceeding Tolerances for Maine Foundation/Certified Seed Potatoes in Post-Harvest Test

Test Samples

All samples tested were collected by the grower and it is assumed that they were taken in a recommended manner. The Department of Agriculture, Conservation & Forestry has no knowledge of the way in which the samples were obtained.

The Post-Harvest test is conducted in a laboratory on the appropriate number of plant/tubers specified in CMR 01 001 Chapter 252 section 2.F.(2). The number of tubers to be tested MUST comply with the requirements of this Chapter. The testing costs will be borne by the seed potato grower.

Maine Foundation Seed Potatoes, in addition to meeting the requirements of this test, must meet all the requirements for certified seed and must be graded for shipment to meet one of the official grades for Maine Certified Seed Potatoes.

Bacterial Ring Rot

This Post-Harvest test is not designed to detect the presence or absence of Bacterial Ring Rot. The samples used are not large enough and the techniques used in these evaluations are not intended to be a check for this disease. It should be pointed out, however, that for a seed grower to sell Foundation Seed, the entire operation on a farm must be free from Ring Rot. This ruling offers the buyer of Foundation Seed some assurance against this disease.

Intellectual Property Rights

Certain varieties may be protected under plant variety protection such as Plant Variety Protection (PVP) Certificates, Plant Patent, or other intellectual property laws. Productions of these varieties may require a license or other permission from the variety owner and it is the responsibility of producers to ensure that appropriate permissions are obtained. Any information provided in this directory regarding the protection of specific varieties is provided for informative purposes only and is not intended to act as a substitute for official sources of such information.

Seed Class

The last column on the variety listing pages is abbreviation for the seed class as follows.

- F = Foundation - Total virus is 0.55% or less
- FC = Entered as Foundation Seed but only meets Certified - Total virus tolerance for certified seeds.
- C = Certified - Total virus is 5% or less
- GO = Growers Own

Sample Quality Requirement

Samples with less than 50% ability to test owing to such factors as sample degradation or lack of suitable and/or sufficient plant tissue to conduct testing will be designated in the annual Post-Harvest Test booklet. Such samples shall be granted certification based on the results of the summer field inspection.

Field Generations for Seed Potato Shipments

The Potato Association of America recommended that North American Seed Potato Certification programs use a uniform Generation designation in addition to their regular Generation designation. The designation "FY", which stands for "Field Year", has been added to the regular generation designation on tags and bulk certificates. "Field Year" represents the number of years the seed has been produced in the soil.

¹The purpose of this table is to express equivalency of terms used by various certification agencies for seed potatoes harvested from a series of successive field plantings. For specific criteria relating to disease tolerances and other requirements, the reader is referred to the certification regulations of the agency in question.

²The first field planting utilizes laboratory-tested stocks which may be tissue-cultured plantlets, greenhouse-produced minitubers, stem cuttings, or line selections. Contact agencies for details as to types of stocks planted in their programs.

³Terms used by agency for seed potatoes for a particular year in the field: C = certified, E = elite, F = foundation, G = generation, N = nuclear, PE = pre-elite.

⁴If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a (U) to denote source.

⁵FY = Field Year

⁶FY = Foundation Year

Prepared by the Certification Section of the Potato Association of America.

Revision Date: 12/2024

Summary of Post-Harvest Test

Total Virus 0 to 0.55% - Foundation Seed (if entered as Foundation), Certified Seed (if entered as Certified)

Total Virus 0.56 to 5.0% - Certified Seed

Total Virus is over 5.0% - Not Suitable for Replanting

Intellectual Property Rights

Certain varieties may be protected under plant variety protection such as Plant Variety Protection (PVP) Certificates, Plant Patent, or other intellectual property laws. Productions of these varieties may require a license or other permission from the variety owner and it is the responsibility of producers to ensure that appropriate permissions are obtained. Any information provided in this directory regarding the protection of specific varieties is provided for informative purposes only and is not intended to act as a substitute for official sources of such information.

Seed Class

F = Foundation - Total virus is 0.55% or less, and FC = Entered as Foundation Seed but only meets Certified - Total virus is greater than 0.55% to 5%.

CERTIFIED SEED PROGRAM PERSONNEL & AREA SERVED

Megan Patterson

Director

Division of Animal & Plant Health

State House Station 28

Augusta, Maine 04333

(207) 592-0911

Email: megan.l.patterson@maine.gov

Sita Ghimire

Seed Certification Program Manager

Division of Animal & Plant Health

744 Main St. Suite 9

Presque Isle, ME 04769

(207) 764-2036 (Office)

(207) 458-9340 (Cell)

Email: sita.ghimire@maine.gov

Riqui Sharp

Office Specialist I

Division of Animal & Plant Health

744 Main St. Suite 9

Presque Isle, ME 04769

(207) 764-2038 (Office)

Fax: (207) 764-2035

Email: riqui.sharp@maine.gov

Seed Potato Specialist

Area Served

Lacey Snyder Caribou, Fort Kent, Frenchville, Woodland
Cell# (207) 215-2736 St. Agatha, Van Buren, Washburn and Connor

Cassidy Robinson Hodgdon, Houlton, Island Falls, Linneus, Littleton,
Cell# (207) 538-6485 New Limerick, Oakfield, Patten, Sherman Mills and
Sangerville

Matthew Chasse Crouseville, Mapleton, Presque Isle
Cell # (207) 551-3196

Katie Gillis & Matthew Hopkins Blaine, Bridgewater, Mars Hill, Monticello
Cell # (207) 473-8671 and Presque Isle

Nicholas Bubar Fort Fairfield, Limestone and Presque Isle
Cell # (207) 551-3226
