

Acknowledgements

SMRT would like to thank a number of individuals and groups who have played significant roles in the Augusta State Facilities Master Plan project and process.

Special recognition is due to Charles Jacobs, Deputy Director of the Department of Administrative and Financial Services (DAFS), for his guidance and dedication to the project and for keeping the Master Planning Committee focused on the important issues and the need to produce a visionary but realistic plan. We also wish to recognize the key roles played by Janet Waldron, Commissioner of DAFS; Elaine Clark, Director of the Bureau of General Services (BGS); and Bill Bridgeo, Manager of the City of Augusta, in assuring that the City and the State would benefit from a new spirit of cooperation.

The staffs of many State departments have lent invaluable assistance to us, including BGS, the State Planning Office, the Department of Environmental Protection, the Department of Human Services, the Department of Labor, DAFS, the Department of Behavioral and Developmental Services, and the Maine Historic Preservation Commission.

We would be remiss not to recognize the organizational and logistical assistance rendered by Sandra Tracy, Administrative Assistant, DAFS, who assured that communication among all parties was maintained during a fast-moving and oft-changing planning process.

Finally, we thank the Master Planning Committee members, who contributed a great deal of time and thought to the process and maintained a collegial and hard-working attitude in spite of a grueling schedule. The balance brought to the committee by its State administrative, City, and Legislative members, under the steady leadership of Janet Waldron, assured that the end result was reflective of the goals and needs of the stakeholders of greater Augusta.
