**AMENDMENT No. 3 to
MASTER AGREEMENT# 8497**

I. This is Amendment No. 3 to Master Agreement #8497 dated April 25, 2018, as amended from time to time ("Master Agreement") between the State of Oregon, acting by and through its Department of Administrative Services, Procurement Services office ("DAS PS") on behalf of the member states of the NASPO ValuePoint Cooperative Purchasing Program and Fastenal Company hereafter called "Contractor." This amendment is effective on the date it has been signed by both parties.

II. The Master Agreement is hereby amended as follows;

Master Agreement #8497 term is hereby extended to June 30, 2023.

III. Except as expressly amended above, all other terms and conditions of the Master Agreement are still in full force and effect. Contractor certifies that the representations, warranties and certifications contained in the Master Agreement are true and correct as of the effective date of this amendment and with the same effect as though made at the time of execution of the Master Agreement.

Certification: By signature on this Amendment, the undersigned hereby certifies under penalty of perjury that the undersigned is authorized to act on behalf of Contractor and that s/he has authority and knowledge regarding Contractor's payment of taxes, and to the best of her/his knowledge, for a period of no fewer than six calendar years preceding the Effective Date of this Amendment, Contractor has faithfully has complied with and is not in violation of: (i) all tax laws of this state, including but not limited to ORS 305.620 and ORS chapters 316, 317, and 318; (ii) any tax provisions imposed by a political subdivision of this state that applied to Contractor, to Contractor's property, operations, receipts, or income, or to Contractor's performance of or compensation for any work performed by Contractor; (iii) any tax provisions imposed by a political subdivision of this state that applied to Contractor, or to goods, services, or property, whether tangible or intangible, provided by Contractor; and (iv) any rules, regulations, charter provisions, or ordinances that implemented or enforced any of the foregoing tax laws or provisions.

APPROVED PURSUANT TO ORS 291.047: Not Required as per OAR 137-045-0050

**MASTER AGREEMENT # 8497
FORM PARTICIPATING ADDENDUM**

NASPO ValuePoint
PARTICIPATING ADDENDUM

**Facilities Maintenance and Repair &
Operations (MRO) and Industrial Supplies**
Lead by the State of **Oregon**

Master Agreement #: 8497

Contractor: **Fastenal Company (Contractor)**

Participating Entity: **State of Maine, Master Agreement # 18P 180625-152**

The following Goods or services are included in this Addendum:

- *All Goods and accessories listed on the Contractor page of the NASPO ValuePoint website not covered by current State of Maine Master Agreements or contracts.*

Master Agreement Terms and Conditions:

1. Scope: This addendum covers the **Facilities Maintenance and Repair & Operations and Industrial Supplies** led by the State of Oregon for use by state agencies and other entities located in the Participating State *[or State Entity]* authorized by that State's statutes to utilize State contracts with the prior approval of the State's Chief Procurement Official.
2. Participation: This NASPO ValuePoint Master Agreement may be used by all state agencies, institutions of higher institution, political subdivisions and other entities authorized to use statewide contracts in the State of *[xxxxxxx]*. Issues of interpretation and eligibility for participation are solely within the authority of the State Chief Procurement Official.
3. Primary Contacts: The primary contact individuals for this Participating Addendum are as follows (or their named successors):

Contractor

Name: Fastenal Company
Contractor Contact: Monica Nelton
Address: 4730 N. Service Drive, Winona, MN 55987
Telephone: 507-313-7633 Fax: 507-453-7145
Email: mnelton@fastenal.com

Name: Fastenal Company
Contractor Local Contact: Alan Ayer, District Manager
Address: 1219 Lisbon St., Lewiston, ME 04240
Telephone: 207-577-5563
Email: aayer@fastenal.com

Participating Entity

Name: State of Maine
State Contact: William Allen, Procurement Analysts II
Address: 9 State House Station, Augusta, Maine 04333-0009
Telephone: 207-624-7871
Fax: 207-287-6578
Email: wje.allen@maine.gov

4. Participating Entity Modifications Or Additions To The Master Agreement

These modifications or additions apply only to actions and relationships within the Participating Entity.

Participating Entity must check one of the boxes below.

☐ No changes to the terms and conditions of the Master Agreement are required.

☒ The following changes are modifying or supplementing the Master Agreement terms and conditions.

Administrative Fee Rebate: Fastenal will provide a 2% Base Administrative Fee. The Fee shall be paid quarterly, forty-five (45) days after the close of the quarter, on all purchases under the Price Agreement, less any freight, taxes, returns, credits or adjustments.

Ordering Procedures: Orders over \$5,000.00 placed by State of Maine departments and agencies require additional Division of Procurement Service approvals prior to purchase. Orders placed without receiving prior approval may be rejected and the items would be required to be returned. For orders over \$5,000.00, departments and agencies must attempt to secure quotes from at least two other NASPO vendors holding Master Agreements for Facilities Maintenance and Repair & Operations (MRO) and Industrial Supplies with The State of Maine. The Participating Entity Contact may require purchases exceeding \$10,000.00 go through the State of Maine competitive bid process

State of Maine Participating Addendum Additional Terms

- i. **EQUAL EMPLOYMENT OPPORTUNITY.** During the performance of this contract, the Contractor agrees as follows.
 - A. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religious creed, sex, national origin, ancestry, age, physical or mental disability, or sexual orientation, unless related to a bona fide occupational qualification. The Contractor shall take affirmative action to ensure that applicants are employed and employees are treated during their employment, without regard to their race, color, religion, sex, age, national origin, physical or mental disability, or sexual orientation.

Such action shall include, but not be limited to, the following: employment, upgrading, demotions, transfers, recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship.
 - B. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religious creed, sex, national origin, ancestry, age, physical or mental disability, or sexual orientation.
 - C. The Contractor will send to each labor union or representative of the workers with which he has a collective or bargaining agreement, or other contract or understanding, whereby he is furnished with labor for the performances of his contract, a notice, to be provided by the contracting department or agency, advising the said labor union or workers' representative of the Contractor's commitment under this section and shall post copies of the notice in conspicuous places available to employees and to applicants for employment.
 - D. The Contractor will cause the foregoing provisions to be inserted in all contracts for any work covered by this agreement so that such provisions will be binding upon each subcontractor.
 - E. Contractors and subcontractors with contracts in excess of \$50,000 will also pursue in good faith affirmative action programs.
- ii. **GOVERNING LAW.** This Agreement shall be governed in all respects by the laws, statutes, and regulations of the United States of America and of the State of Maine. Any legal proceeding against the State regarding this Agreement shall be brought in State of Maine administrative or judicial forums. The Contractor consents to personal jurisdiction in the State of Maine.
- iii. **STATE HELD HARMLESS.** The contractor shall release, protect, indemnify and hold NASPO Value Point and the respective states and their officers, agencies, employees, harmless from and against any damage, cost or liability, including reasonable attorney's fees for any or all injuries to persons, property or claims for money damages

arising from acts or omissions of the contractor, his employees or subcontractors or volunteers.

- iv. **NON-APPROPRIATION.** Notwithstanding any other provision of this Agreement, if the State does not receive sufficient funds to fund this Agreement and other obligations of the State, if funds are de-appropriated, or if the State does not receive legal authority to expend funds from the Maine State Legislature or Maine courts, then the State is not obligated to make payment under this Agreement.

5. Lease Agreements: Lease Agreements are not authorized by this contract.
6. Subcontractors: No servicing subcontractors are permitted under this contract.
7. Orders: Any order placed by a Participating Entity or Purchasing Entity for a product and/or service available from this Master Agreement shall be deemed to be a sale under (and governed by the prices and other terms and conditions) of the Master Agreement unless the parties to the order agree in writing that another contract or agreement applies to such order.

IN WITNESS WHEREOF, the parties have executed this Addendum as of the date of execution by both parties below.

REVISED Exhibit B-1 - Vending Machines

With tens of thousands of machines currently implemented at customer sites, Contractor is the dominant leader in industrial vending. Why? It's a combination of Contractor's innovative technology, Contractor's low-cost, no-risk program, and most

important of all, Contractor's "machine behind the machine" – the thousands of local Contractor personnel making sure each solution is perpetually filled, functioning, and fully optimized for maximum savings.

- Wide variety of machines to support virtually any product needs.
- Dynamic web reporting – view real-time usage data when, where and how you want to see it.
- Machines provided free of charge based on a one-year renewable service agreement **in a form substantially similar to the Master Agreement #8497, Revised Exhibit B-1, Appendix 1, "FAST Solutions Agreement/Locker Lease Government" Form incorporated by reference.**
- Participating Entity's servicing Contractor branch teams monitor and replenish the machines – no paperwork or labor required.
- Dedicated vending specialists work hand-in-hand with Contractor's local branches to analyze usage patterns, suggest areas for improvement, and make sure the solution is driving the results you want to see.
- Contractor's industrial vending solutions have the added benefit of reducing product consumption, typically by 25–35%.

FAST 5000 & FAST 3000

With tens of thousands of units driving results at customer sites, this is most widely-used industrial technology in the world – a simple, versatile solution to track and control items ranging from PPE to general MRO items. The FAST 3000 is simply a more compact version of the FAST 5000. Both can function as stand-alone solutions or used in conjunction with Contractor's standard lockers.

Standard Lockers

Contractor's standard (semi-secure) lockers are used to: 1) track and control access to larger-sized consumable products (relying on the user to enter the quantity taken), and 2) automate check-out and return of tools and other assets. They can be used with a standalone controller or in conjunction with a FAST 5000 or FAST 3000 machine.

FAST 10000SL (Secure Locker) Series

This next-generation technology extends the benefits of vending to four very common (yet traditionally difficult to vend) product types: 1) boxes, 2) cylinders/cans, 3) 'floppy' items (Tyvek suits, belts, hoists, etc.), and 4) loose components (fasteners, fittings, cutting tools, etc.). The machines automatically sense and report the exact amount taken by each user, providing per-item traceability and a frictionless 'grab and go' experience.

Outdoor Lockers

With a tough steel exterior, ruggedized electronics and optional temperature control, these lockers are built to operate in harsh outdoor environments. Keep tools perpetually stocked, secure and accessible on the jobsite, and automatically track check-out/check-in of expensive tools.

FAST CT (Cutting Tool) Machines

Designed to dispense and track inserts and round tools, either individually or in pre-determined quantities. The compact design of the machines (combined with the low cost of Contractor's vending program) makes it practical to install multiple point-of-use machines throughout the shop (versus a single centralized unit) for increased productivity.

FAST Bev

Provides 24/7 access to chilled beverages at the point of use along with reporting to ensure workers are receiving proper hydration during the day – an efficient solution to drive compliance with Participating Entity's hydration program. (Subject to state and local restrictions.)

Additional Value Added Solutions

Contractor's bin stock solutions are a perfect fit for any production and MRO items you cannot dispense out of a vending machine but are still needed on Participating Entity's shelves. Each solution is unique, but all share three common elements:

1. A labeled location and min/max inventory range for each part.
2. A nearby Contractor branch to carry the inventory and make sure you always have just the right amount on hand.
3. Detailed usage reporting by location, clarifying 'how much of which parts should be stocked where.'

Manual Solutions:

Contractor Managed Inventory (FMI)

Save time and money by utilizing Contractor's local experts to manage Participating Entity's bin stock inventory.

- We organize & label new or existing bins, collaborate to establish initial min/max levels and service schedule.
- We visit regularly to monitor & replenish inventory.
- Suggested replenishment orders are submitted, reviewed and approved via Contractor.com.
- Flexible delivery (we deliver to dock or put product away).

FAST Scan

If you prefer to handle the scanning and ordering internally, Contractor will provide an iOS-based scanning solution for Participating Entity's personnel to quickly generate replenishment orders.

- We organize and label bins and shelving.
- We set up profiles for local users on Contractor.com and provide scanning devices.
- Participating Entity's local personnel determine inventory levels and controls.
- We provide flexible delivery, reporting, and suggestions for improvement.

Electronic Solutions:

FAST Scale

Utilizes weight sensor technology to provide a real-time view of Participating Entity's exact quantity on hand (QOH) – a good fit for critical production parts. Users log onto Contractor.com to view live inventory levels and adjust reorder triggers.

- We install the scale system, organize and label parts.
- An order is automatically generated when stock hits 'min' level.
- View and approve suggested orders via Contractor.com.
- Flexible delivery (we deliver to dock or put product away).

Auto Bin (coming soon)

Offers a real-time view of Participating Entity's inventory 'health' ('above min,' 'below min' or 'out of stock' – not exact QOH) along with electronic signals prompting replenishment when stock runs low. There are two basic options:

- Infrared Bins – An order is triggered when stock falls below a specified 'water mark' in the bin.
- 2-Bin System – An order is triggered by placing the empty bin next to an RFID chip built into the shelving.

The purest expression of Contractor's local service philosophy is Contractor's Onsite service model, positioning not only Contractor's solutions but also Contractor personnel and Contractor-owned inventory – essentially a dedicated branch – within the walls of

Participating Entity's facilities. Just like vending and bin stocks, this is a natural extension of Contractor's distribution infrastructure and a model we've pioneered in Contractor's industry.

The Contractor Onsite Advantage:

- Full program customization based on process mapping exercise.
- Dedicated onsite Contractor team to handle all inventory management functions – the first time Participating Entity's employees touch the product is at the point of use.
- Consigned onsite inventory within the Contractor crib – we own it until it's on Participating Entity's production floor.
- Customized inventory modeling to eliminate stock-outs.
- Immediate access to planned needs (within Contractor's crib) and a variety of spot-buy needs (via Contractor's local branch).
- Detailed, flexible reporting based on Participating Entity's business priorities.
- Deep collaboration, including participation in Kaizen events and other company initiatives. (As we like to say, it's like having a team of supply chain experts on Participating Entity's staff, but not on Participating Entity's payroll.)

How Will Participating Entity's Business Benefit?

- ✓ Save money
 - Lower markup structure (reflecting Contractor's lower operating costs vs. Contractor's traditional branch-based service model).
 - Utilize Contractor labor for purchasing, quality inspection, inventory management, etc.
 - Reduce transportation costs through better inventory planning and utilization of Contractor's trucking system.
- ✓ Reduce inventory/working capital
 - Upon moving Onsite, we will sell down Participating Entity's current inventory and replace it with Contractor's own.
 - Moving forward, the inventory in the Contractor crib is on Contractor's books until we move it to the production floor. This transformation creates a dollar-for-dollar reduction in Participating Entity's working capital.
- ✓ Gain efficiency in Participating Entity's facility
 - Simply put, we are experts – with the knowledge, solutions, and systems to run a truly world-class supply chain for Participating Entity's business.
 - Put Contractor's decades of experience to work for you in the areas of quality/source control, OEM critical spares management, inventory planning, point-of-use supply flow, and other critical activities.

Contractor's FAST Solutions agreement(s) (vending, bin stock, onsite) will be executed and/or incorporated in the resulting Participating Addendum with the respective state and/or political subdivision.

Industry-Specific Services and Specialists

As a complement to Contractor's local branch sales force, Contractor has trained and deployed hundreds of industry specialists to provide high-level support in key areas of Contractor's business, including:

Safety

To support Contractor's safety product offering, we've positioned 50+ trained Safety Specialists across the U.S. and Canada. These personnel carry multiple certifications, including Masters in Occupational Health and Safety, QSSP Certification, and OSHA 30-Hour Training. Their job is to identify hazards, document risk factors, garner worker feedback regarding PPE, and ultimately develop a business plan to reduce workplace incidents while maximizing productivity and profits.

Working with Contractor's key safety suppliers, Contractor's Safety Specialists provide trainings and PPE equipment assessments for the following concepts:

- Eye Protection – product selection/rationalization, fit testing
- Hearing Conservation – fit testing
- Face and Head Protection
- Respiratory Protection – qualitative fit testing
- Skin Care Needs Analysis – prevention/reduction of occupational dermatitis, reduction of sick days
- Hand Protection – job-specific assessments, product testing
- Fall Protection – application assessment, harness/lanyard inspection, competent person training
- Ladder Inspection and Certification
- Hoist and Sling Inspection and Certification
- Heat Stress Evaluation – program development
- Spill Containment and Flammable Storage
- Lock Out/Tag Out Program
- AED, BBP, First Aid Training
- ARC Flash Assessments

Manufacturing/Metalworking

As part of Contractor's metalworking product expansion, we've stationed 40+ Metalworking Specialists across North America. These individuals have undergone three levels of training, culminating with intensive hands-on training at Contractor's key suppliers' facilities. They work directly with customers to help them select the best products for the job and run them the right way for maximum productivity and cost-effectiveness.

Lean Consulting/Six Sigma

Contractor's 70+ employees who have completed Black Belt training and 110+ internally-trained 'Blue Belts' are available to participate in Lean events and support Participating Entity's Lean initiatives. Services include DMAIC Process Mappings – working with Participating Entity's personnel to map the movement of product through Participating Entity's current system and identify areas where costs can be reduced or eliminated. Based on the information gathered, a gap analysis is presented along with a business plan to achieve a specific cost savings goal.

**AMENDMENT No. 2 to
MASTER AGREEMENT # 8497**

I. This is Amendment No. 2 to Master Agreement #8497 dated April 25, 2018, as amended from time to time ("Master Agreement") between the State of Oregon, acting by and through its Department of Administrative Services, Procurement Services office ("DAS PS") on behalf of the member states of the NASPO ValuePoint Cooperative Purchasing Program and Fastenal Company hereafter called "Contractor." This amendment is effective on the date it has been signed by both parties.

II. The Master Agreement is hereby amended as follows;

The purpose of this Amendment is to revise Exhibit B-1 Vending Machines to incorporate the 8497 FAST Solutions Agreement Form by reference. The Exhibit B-1 of the Master Agreement is hereby modified, as set forth in the Revised Exhibit B-1 Vending Machines 12/21/2018, attached hereto.

III. Except as expressly amended above, all other terms and conditions of the Master Agreement are still in full force and effect. Contractor certifies that the representations, warranties and certifications contained in the Master Agreement are true and correct as of the effective date of this amendment and with the same effect as though made at the time of execution of the Master Agreement.

Certification: By signature on this Amendment, the undersigned hereby certifies under penalty of perjury that the undersigned is authorized to act on behalf of Contractor and that s/he has authority and knowledge regarding Contractor's payment of taxes, and to the best of her/his knowledge, for a period of no fewer than six calendar years preceding the Effective Date of this Amendment, Contractor has faithfully has complied with and is not in violation of: (i) all tax laws of this state, including but not limited to ORS 305.620 and ORS chapters 316, 317, and 318; (ii) any tax provisions imposed by a political subdivision of this state that applied to Contractor, to Contractor's property, operations, receipts, or income, or to Contractor's performance of or compensation for any work performed by Contractor; (iii) any tax provisions imposed by a political subdivision of this state that applied to Contractor, or to goods, services, or property, whether tangible or intangible, provided by Contractor; and (iv) any rules, regulations, charter provisions, or ordinances that implemented or enforced any of the foregoing tax laws or provisions.

REVISED Exhibit B-1.Appendix 1

FAST SOLUTIONS AGREEMENT / LOCKER LEASE GOVERNMENT

Subject to the provisions of NASPO ValuePoint Master Agreement #8497, Customer hereby grants Fastenal the exclusive right to install FASTENAL Vending Solutions (identified herein as FVS units or FVS equipment) subject to Customer's access and security policies and procedures. The FVS equipment is identified as the machine types listed in Section 5 of this Agreement. The FVS Equipment may only be stocked with Fastenal supplied and distributed products. FASTENAL agrees to be responsible for all standard maintenance and repair of the FVS equipment (blatant or willful damage or destruction by Customer excluded,) including refilling of vended products for the term of this Contract. FASTENAL will provide insurance to cover its liability for personal injury or property damage it causes in connection with the installation and operation of the FVS equipment.

- 1) **Ownership:** Fastenal shall maintain full and exclusive ownership of all FVS equipment. Fastenal retains the right to terminate and remove the FVS equipment from Customer site, at Fastenal's sole discretion and without liability. Customer may terminate this Agreement if Fastenal does not timely service the FVS equipment, including the replenishment of products. Customer will provide Fastenal sixty days advance written notice and a reasonable opportunity to cure any service deficiencies, prior to termination.
- 2) **Equipment:** For the FVS equipment specifically identified as Locker units, the parties understand that the Customer may utilize the check in and checkout features for goods not distributed by Fastenal. The parties will mutually agree to the type and quantity of such goods vended from the Locker units or FAST 10000SL Lockers. The FAST 10000SL Lockers are dispense only, check in check out is not an option on these units.
- 3) **Assignment:** Customer may not assign, remove or attempt to sell or transfer any FVS equipment to another party or property, without Fastenal's written permission.
- 4) **Title to Products, Risk of Loss and Taxes:** Customer will retain title and ownership of product once product is purchased from Fastenal and placed in machine for dispensing.

5) **Product Pricing, Payment and Software Fees:**

Product Pricing: Prices are subject to NASPO ValuePoint Master Agreement #8497 with the State of Oregon, acting by and through the Department of Administrative Services on behalf of the member states of the NASPO ValuePoint Cooperative Purchasing Program and other Participating Entities

Prices for dispensed items may be negotiated to best identify high usage parts that are best opportunities or situated for dispensing. Prices may vary based on specific customer requirements such as kitting, special labeling, or packaging if applicable.

Payment: FASTENAL will invoice Customer upon delivery for products when stocked in the FVS unit. Payment for products sold thru FVS equipment will be made by Customer within Net 30 days after invoice. If Customer issues FASTENAL a Blanket Purchase Agreement or Blanket Purchase Order that is equal to or greater than the amount on page two "Total Good Faith Expected Spend Increase", the Customer will qualify for the FVS units at no cost. The parties agree that Customer will work in good faith to increase its overall purchases of products from FASTENAL at the location of the FVS units in accordance to the expected spend associated with the FVS units.

- 6) **Lease Equipment:** For the FVS equipment specifically identified as Locker Lease units, the parties understand that the Customer may only utilize the check in and checkout features of the Locker unit for non-MRO goods not distributed by Fastenal.
- 7) **Locker Lease Fee:** The Lease fee will be invoiced upon installation and quarterly thereafter for all installed FVS equipment in accordance with the fee table below. If this Agreement is terminated during Year 1, FASTENAL will charge a fee equivalent to the remaining months of the Total Monthly Lease Fee at the time of termination of Year 1. If this Agreement is terminated during Years 2 or 3, FASTENAL will charge a fee equivalent to 3 months of the Total Monthly Lease Fee at the time of termination.

8) Order number of ***Standard Program*** units here. See **Product Line card** for available configurations.
