	F. The procurement of goods or services involves expenditures of \$10,000 or less, in which case the Director of the Bureau of General Services may accept oral proposals or bids;	
	G. The procurement of goods or services involves expenditures of \$10,000 or less, and procurement from a single source is the most economical, effective and appropriate means of fulfilling a demonstrated need.	
	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:	

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non- competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Safety Base USA, Inc. is the only company that provides the specific type of "break-a-way" replacement system that MaineDOT needs to repair its damaged highway light poles.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is a specific system that fits the current light fixture that MaineDOT now has in place.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Safety Base USA "break away" system is unique in that no other system is comparable. The cost of the Safety base USA unit isn't comparable to other systems as no other systems are constructed in this way. The Safety Base USA Luminaire Assembly Unit price is \$355.00 each

C7/RP10/S7 Unit price \$375.00 each

State of Maine Waiver of Competitive Bidding Request Form

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

Should another company provide this specific type of break-away replacement system, we would request a quote from them.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

When a vehicle collides with a pole, the Safety Base USA "break-away" system couplers allow the pole to break away from its base. After a collision, the couplers are easily removed and replaced with a new coupler set. The undamaged pole can then be lifted into position and a "shroud" is placed around the Safety Base system. The entire procedure is fast, simple and cost effective. In addition, the Safety Base system includes a "retraction plate" that allows the tension on all 4 of the bolts within the base to be distributed evenly which means that bases will not need to be drilled to replace anchor bolts when a post breaks. This results in a cost saving for the Department.

Benefits of Safety Base include safety rating that are required by MaineDOT:

- NCHRP report 230 & 350
- Meets or exceeds the criteria set by AASHTO requirements.
- FHWA approved.
- Protects anchor bolts.

The Safe Base USA system is the only system that fits the current light fixtures that MaineDOT now has in place

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

The break-away systems were purchased in response to the several light poles that were down as a result of the winter driving season. The need to replace the break-away systems on the affected light poles has become a priority.
