#### 3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid taxexemption certification(s). When ordering, a Participating Entity must indicate if it is a taxexempt entity.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### 4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

- B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entitles may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.
- C. PERFORMANCE BOND. If requested by a Participating Entity, Vendor will provide a performance bond that meets the requirements set forth in the Participating Entity's order.

Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.
- E. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Vendor will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Vendor may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Vendor will submit a check payable to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Administrative fee will only be due and owing on invoices paid by the Participating Entity, and no administrative fee will be due if Vendor has not received payment from the Participating Entity. Payments should note the Sourcewell-assigned contract number in the memo and must be mailed to the address above "Attn: Accounts Receivable." Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Vendor agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Vendor is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Vendor in any subsequent solicitation. #### 10. ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

- D. CONTRACT COMPLETE. This Contract contains all negotiations and agreements between Sourcewell and Vendor. No other understanding regarding this Contract, whether written or oral, may be used to bind either party.
- E. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

#### 11. LIABILITY

Vendor must indemnify, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees, arising out of the negligence or willful misconduct of Vendor during the performance of this Contract by the Vendor or its agents or employees. 23	Sales force.	Effectively servicing large national accounts such as Sourcewell requires a team approach. Brad Laws is the Government Accounts Senior Manager and is the quarterback of the state and local government team. Under him are three Government Accounts Managers that will work with the field sales team of 4,400 industry experts. This sales team is supported by branch operations and field personnel across an extensive network of approximately 1,180 branch locations to effectively implement, manage and service an industrial client of Sourcewell's scope.  Implementing and rolling out a national contract with Sourcewell requires a concerted effort from many levels of United Rentals' organization beyond the governmentaccounts group. Strategic Account Managers (SAM), Outside & Inside Sales Representatives (OSR & ISR), Branch & Service Managers, Delivery Drivers and Field Service Technicians will continue to maintain current relationships while implementing a new contract in areas where we are already doing business. These levels will be heavily engaged in areas where we do not currently have relationships with Sourcewell's members for contract implementation and service. Current partnerships will be built upon and modeled after.

24	Dealer network or other distribution methods.	Sourcewell benefits from United Rentals owning all of our fleet. The following operating efficiencies help distribute our equipment to your members quickly:  • Equipment Sharing Among Branches. Each branch within a region can access equipment located elsewhere in the region. This fleet sharing increases equipment utilization because equipment that is idle at one branch can be marketed and rented through other branches. Additionally, fleet sharing allows us to be more disciplined with our capital spend.  • Customer Care Center. We have a Customer Care Center ("CCC") with locations in Tampa, Florida and Charlotte, North Carolina that handles all telephone calls to our customer service telephone line, 1-800-UR-RENTS. The CCC handles many of the 1-800-UR-RENTS telephone calls without having to route them to individual branches, and allows us to provide a more uniform quality experience to customers, manage fleet sharing more effectively and free up branch employeetime.
25	Service force.	Our branches across the US and Canada are wholly owned by United Rentals and never franchised. They are staffed with a knowledgeable team of Branch Managers, Service Technicians, and Drivers to fulfill Sourcewell's equipment needs. In addition to our field service teams, we have a Government Sales Support Team staffed with dedicated Government account experts to handle any customer requests. Backing them up is the company's extensive customer service team that is available for customer request 24/7/365.
		Branch Managers: United Rentals' has numerous branch managers to oversee operations at each of our local branches, such as bookings, dispatches and requests for onsite assistance. They can collaborate with other branches in our network, and with our centralized customer service facilities, to ensure fleet availability for Sourcewell. They are also able to train our local personnel so that we service your account in a way that supports Sourcewell's existing and future operations.  Maintenance/Service Technicians: United Rentals' has approximately 5300 technicians company-wide that are factory-trained and participate in periodic preventive maintenance refresher courses and manufacturer training. They inspect and service each piece of rental equipment to ensure its safety and operating condition before returning it to the rental-ready fleet.

If a warranty claim on such replacement part is approved by the OEM and the OEM authorizes United to repair or replace the part, United will do so.

EXCEPT AS SET FORTH HEREIN BIDDER DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO REPLACEMENT PARTS AND SERVICE OF EQUIPMENT.

For Damage to Rental Equipment: All of our rental equipment is owned by United Rentals, and all preventative and regular use maintenance will be taken care of by United Rentals. 44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	For Rentals. Costs including technician travel time that are associated with service required due to defects in the equipment, reasonable wear and tear or United negligence is the responsibility of United Rentals. The cost of Service required for any other reason will the participating entities' responsibility.  For New and Used Equipment Sales. The OEM warranty will set forth what expenses are covered.

45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? Howwill Sourcewell participating entities in these regions be provided service for warranty repair?	For Rentals. All branches in the United States and Canada have in-house technicians available to service and maintain our equipment. Therefore, all regions we provide service to will also have access to certified technicians.  For New and Used Equipment Sales. Therefore, all regions we provide service to will also have access to certified technicians.
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	United is not the original equipment manufacturer ("OEM") on any of the equipment it rents or sells. United is certified to perform warranty service by many OEMs. Upon acceptance of a warranty claim by the OEM and upon the OEM authorizing United to perform service, United is able to perform warranty service on many OEM's equipment  We strive to lead our industry in service performance, particularly when it comes to equipment maintenance and readiness for rental. United Rentals invests in our service personnel to ensure that they are up to speed on manufacturer's service requirement with internal or manufacturer sponsored training. We have also invested heavily in resources designed to make our company more efficient in maintaining our equipment to the highest standards. All 1180+ United Rentals locations use the same systems in order to ensure that Preventive Maintenance, ANSI inspections and manufacturer's service bulletins are being completed with integrity per our company procedure. United Rentals is responsible for the costs associated with inspecting and servicing our owned equipment. If requested, United Rentals can also provide inspections and services on equipment owned by our customers at mutually agreed upon rates.  Some of the specific procedures are:  Preventive maintenance: PM's are governed by the stricter of two regulatory programs: Either 1) Per manufacturer's recommendation of service requirement or; 2) Perform an inspection inside of 90 days and / or service of the equipment with 250 operating hours. The "Rental Flow" process also tracks pending PM's due for service personnel to monitor. These PM's are performed at our locations as well as at customer locations by qualified field service technicians.  ANSI inspections on aerial equipment, booms and scissors, are required by law. United Rentals has a NO-EXCEPTIONS policy related to ASNI inspections; if a unit does not receive this inspection within a year from its last date, it is taken out of rental service.  Manufacturer's service bulletins
47	What are your proposed exchange and return programs and policies?	For Rentals. If a piece of equipment is not operating properly, United Rentals will deploy one of its factory-trained technicians to perform the repair and/or supply the necessary parts. United Rentals promptly responds to repair and maintenance service calls - typically within two to four hours. In the event the equipment cannot be repaired on site, United Rentals will replace the equipment as quickly as it can.  For New and Used Equipment Sales. Exchange and return programs/policies are determined by the OEM.

48	Describe any service contract options for the items included in your proposal.	For Rentals. 50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions? Our Government Sales and Service Center (GSSC) will process all orders. Providing a centralized location for all orders, allows consistency and a stronger account knowledge to support the decentralized system of orders submitted by the many end users. Additionally, the end users will have full account visibility through our UR Control System.  Customers are able to use the GSSC team to submit orders through phone or email. Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as desribed in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Please see our attached pricing spreadsheet.  United Rentals is providing a national net pricing structure as you will see on the attached pricing spreadsheet. This is not a percentage discount program. All pricing is NOT TO EXCEED and our sales representatives will be encouraged to provide local market pricing if it happens to be lower than the contract price although this is not a common occurrence.
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	United Rentals is providing a national net pricing structure as you will see on the attached pricing spreadsheet. This is not a percentage discount program. All pricing is NOT TO EXCEED and our sales representatives will be encouraged to provide local market pricing if it happens to be lower than the contract price although this is not a common occurrence.
55	Describe any quantity or volume discounts or rebate programs that you offer.	This is a NOT TO EXCEED contract. Customers can negotiate volume pricing locally on a case by case basis.
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	As with normal requests, United Rentals will field off-schedule requests through local territory representatives or our Government Customer Care Center. This will enable us to provide first-class service to Sourcewell members through our knowledgeable team. Our philosophy is that no request is unreasonable and will be investigated to the fullest. Our strategy will be to field requests and factor in rental patterns, demands for new technology or advances in equipment efficiencies, and enactment of new legislation, affecting equipment. If we see a spike in a certain category, we will ask Sourcewell to determine if the equipment can be added to our schedule. For Sourcewell members, we would like to propose a NOT TO EXCEED markup of 24% on the total invoice cost from a 3rd Party Rental Vendor.
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like predelivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Installation, set up costs for Specialty equipment rental Solutions United Rentals' proposal includes items for specialty equipment solutions such as installation, set up, mandatory training, or initial inspection, the costs of which will be negotiated at the time of the rental quote. Power and HVAC Services may include power and HVAC system start-up support, installation of low voltage cables, installation of temporary chilled water piping, on-site training for Customer's employees, 24/7 technical assistance and onsite support, and monitoring of selected installing trades. Trench Services may include the engineering, delivery and pickup of the trench/shoring system (the "System"). Scaffolding Services may include the installation and dismantling of scaffolding, including all parts and accessories Portable Restroom Services- Additional fees may be charged for tip-overs, relocation of the units on the same site and vandalism/graffiti. Fluid Solutions may include the design, installation, operation, ongoing maintenance, monitoring, and dismantling of the Fluid Solutions system ("Fluid Solutions Services").  Multiple shift for generators and other power equipment Rental charges accrue during Saturdays, Sundays and Holidays. Rental rates are for normal "one-shift" usage based on an eight (8) hours per day, 40 hours per week and 160 hours per four-week period. On power equipment, operations in excess of one shift will be as follows: one and one-half times the rental charge for double shift and two times the rental charge for triple shift.  Refueling Service Charge Customer acknowledges that a "Refueling Service Charge" will be applied to all Equipment not returned with a full tank of fuel. The exact cost of the Refueling Service Charge may

vary depending on the rate being charged by the branch location on the date Customer returns the Equipment. Customer acknowledges that the Refueling Service Charge is not a retail sale of fuel. Customer may avoid the Refueling Service Charge if Customer returns the Equipment with a full tank of fuel.

#### Tire Repair

Repair or replacement of tires and tubes on Equipment is the responsibility of Customer and is not included in the rental rate.

#### Environmental Fee

Due to the hazardous nature of some of our waste products, United Rentals charges an Environmental Service Charge on rental invoices for equipment which contains an internal combustion engine, hydraulic oils or similar components. The Charge is 1.84% of the rental charge, with a maximum charge of \$99 per invoice. This charge is not a tax or government mandated fee. We are offering to waive this fee for this new contract in order to provide the participating entities additional newsavings.

#### Additional Fees

Some government entities have special fees, such as the SMM fee in Colorado (Texas and Maryland have similar fees). These fees are setup by local/state government entities, and are charged at the direction of local/state laws. United Rentals passes these fees directly to the customer with no markup. These fees are usually negligible in nature and are included guotes provided by our branches.

#### Rental Protection Plan

62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	The United Rentals government team will be available to provide up-to-date information. In addition to direct communication with the team a sample report has been provided in the response.  United Rentals customer quotes, orders, change orders and updates are recorded within United Rentals' RentalMan computerized rental system. They are recorded in date order, with unique, individualized numerical designations. Customer accounts are identified as eligible to utilize the Sourcewell contract and are identified further within the RentalMan system with a customer level code and United Rentals' pricing agreement for the contract will be loaded into the customer accountfile.  United Rentals will identify and report all product/equipment sourced as part of a Sourcewell contact purchases and provide timely payment of administrative fees to Sourcewell.  On a quarterly basis, we will perform analysis of the detailed pricing file, review the pricing agreement for accuracy or updates/changes, and audit the individual customer invoices and transactions for accuracy and compliance with the contract.
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	United Rentals proposes a 2% administrative fee on all eligible sales and rentals. This represents a 0.25% increase in administrative fees from the current contract.

92 Describe maintenance responsibility (e.g., vendor or end user) related to long-term rentals.

You don't have time to mess around. United Rentals understands. From our shop to field mechanics, our teams of professionals perform detailed maintenance to keep the equipment on your site working. United Rentals strives to reduce rental equipment breakdowns through a rigorous quality assurance program. This starts with a thorough preventive maintenance program and rent-ready inspections then followed by a condition report so the equipment we deliver on your site is ready-to-work. Equipment productivity is never left to chance.

United Rentals takes a number of Industry Leading steps to ensure all rental equipment performs at its' intended peak by the manufacturer. This is a dynamic and multiple step process. United Rentals' proprietary rental software tracks all owned equipment throughout its' entire life from acquisition to disposal, routes/labels equipment status, and even documents all services/PM's/annuals/and more:

- An incoming driver denotes any issues noticed on first glance regarding operations, safety, cosmetics, or any damages---notifies the dispatcher/Service Department.
- Off-rent equipment that is returned to our facilities are "TRIAGED" to determine if a) can simply go to any factory trained tech or b) must be marked as "hard down" assigning a specialist to handle the process from start to finish.
- A trained tech is assigned throughout the process ensuring that all safety devices are intact, general service is performed, standard repairs are made at that time, fluid levels/ changes completed, and 80+ item checklist is completed to verify piece is "Rental Ready.
- It's moved to "Rent Ready Status & Ready Line" in branch.
- Another check is performed on the equipment at the time of rental/loading. Driver/Yard Associate verifies all safety/ operations are sound
- The Driver upon delivery performs a final equipment inspection to ensure proper safe-operations exist.

  All of this is tracked in a sophisticated electronic system that integrates our Driver handheld units at pickup, to internal service records/scheduling for tech's, to Telematics (GPS) tracking hours to assist in service intervals, to Driver handheld units at delivery. One final manual device is a "rent ready" tag that is initialed by the tech and certifying it is ready for use

During the rental, our system estimates use in addition to physical checks and inquiries for hour meter updates. Maintenance steps (requirements) for each category and class of equipment are tracked within our system based on hours, miles and days. Reporting is generated daily for inspection and scheduling purposes. Service and safety bulletins released by manufacturers are loaded centrally and tracked within this same reporting system. We will schedule with Sourcewell to do maintenance during a down time when equipment is on-rent.

Customer agrees to check filters, oil, fluid levels and tire air pressure, to clean and visually inspect the equipment daily and to immediately notify United Rentals when equipment needs repair or maintenance. Should the equipment be involved in an accident, become unsafe, malfunction or require repair, customer shall immediately cease using the equipment and immediately notify United Rentals.

93	Describe procedures for repair or replacement of rental	We strive to lead our industry in service performance,	7

We have also invested heavily in resources designed to make our companymore efficient in maintaining our equipment to the highest standards. All 1180+ United Rentals locations use the same systems in order to ensure that Preventive Maintenance, ANSI inspections and manufacturer's service bulletins are being completed with integrity per our company procedure. Some of the specific procedures are:  • Preventive maintenance: PM's are governed by the stricter of two regulatory programs: Either 1) Per manufacturer's recommendation of service requirement or; 2) Perform an inspection inside of 90 days and / or service of the equipment with 250 operating hours. The "Rental Flow" process also tracks pending PM's due for service personnel to monitor. These PM's are performed at our locations as well as at customer locations by qualified field service technicians.  • ANSI inspections on aerial equipment, booms and scissors, are required by law. United Rentals has a NO-EXCEPTIONS policy related to ASNI inspections; if a unit does not receive this inspection within a year from its last date, it is taken out of rental service.  • Manufacturer's service bulletins are handled as United Rentals is notified, either in our shops or in the field.  United Rentals can provide a response to issues within 2 hours and a full resolution to issues within 24 hours to Sourcewell participating entities. In the unlikely event that a	*
		problem should arise, Sourcewell simply needs to contact the local branch or the 24-Hour National Account Customer Solution Center to advise them of the issue. United Rentals will then work with Sourcewell to amicably resolve the issue to the parties' mutual satisfaction. To the extent there is a problem with a piece of equipment, United Rentals will deploy one of its factory-trained technicians to perform the repair and/or supply the necessary parts. United Rentals promptly responds to repair and maintenance service calls. Our qualified staff routinely handles situations over the phone to gain instant resolution, or assist in a faster "triage" of the equipment prior to arriving on site. In the event the equipment cannot be repaired on site, United Rentals will replace the equipment as quickly as it can.	
94	Explain the procedures and timelines for providing equipment to a vendor or dealer location that does not have a piece of equipment in inventory.	A request for equipment can be made through the Government Sales and Service Center - getting the requested equipment to the member will be handled on a case by case basis and members will be notified of a timeframe of availability and delivery. Re-Rent Policy: Occasionally, equipment that is not in the UR network may be sourced from outside the company. This service is rare due to our fleet size and our ability to share equipment between branches. In order to provide maximum responsiveness for our customers, any equipment that is rerented will be charged a locally managed mark-up from the inter-company discounted rate and will not be subject to the pricing discount agreement with Sourcewell, but negotiated with the member prior to purchase order award.	*

Describe the extent to which your proposal includes a customer owned equipment repair program. f applicable, describe the types of repair procedures, including transportation, on-site repair, labor and parts costs, or warranty offering.

How you manage your fleet can have a big impact on driving overall worksite performance. And that's why we created a site-specific Fleet Maintenance Management Program to help you maintain-and manage-your owned equipment and site vehicles using the same systems, processes and expertise we apply every day to our more than 14+ billion dollars in fleet.

From inspections and repairs to utilization tracking and strategic consulting, our experts can keep your assets ready when you are-and help you get the most from your investment in fleet.

Working together, we'll build out a site-specific program that maximizes the benefits based on your site's needs. You focus on running your worksite, while we turn the challenges of managing your fleet into an efficient, hassle-free operation.

Primary components of most fleet management solutions include:

- Maintenance Services
- Parts and Material Management
- Fleet Systems
- Fleet Advisory

We'll station a dedicated team of our factory-trained, certified mechanics right on your site. No repair is too complex, and every repair is done with the same level of quality and expertise we use to condition our more than 690K+ unit rental fleet. f we can't service something ourselves, we'll contract the right vendors on your behalf.

We will design a parts and material program to meet the immediate needs of critical and non-essential assets while balancing the requirements (and expense!) of stocked parts to that of just-in-time delivery. We have the brands you rely on for every kind of fix, from routine tune-ups to major repair.

All labor pricing is included in the attached pricing spreadsheet.

#### Proposer's Affidavit

### PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

- 1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
- 2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
- 3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
- 4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
- 5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
- 6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
- 7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
- 8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
- 9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
- 10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
- 11. Proposer its employees, agents, and subcontractors are not:
  - a. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign

Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

- b. Included on the government-wide exclusions lists in the United States System for Award Management found at: <a href="https://www.sam.gov/portal/3">https://www.sam.gov/portal/3</a>; or
- c. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.
- By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. Schmidt, Vice President National Accounts, United Rentals (North America), Inc.

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.
