

Help Build Our Emergency Preparedness Contract Portfolio

The State of Maine is developing an **Emergency Preparedness Contract Portfolio (EPCP)** to enhance Maine’s readiness to respond to current and future national, state, and civil emergencies. The goal of the EPCP is to leverage **Maine businesses** as the foundation of the EPCP supply chain, which will address these key priorities:

- ✓ **Improve the State’s general emergency readiness**
- ✓ **Reduce delivery times and shipping costs using in-state suppliers**
- ✓ **Strengthen business opportunities for Maine manufacturers**

CALL TO ACTION: Please review the sections below to find out: 1) Maine’s current needs related to the COVID-19 health emergency; and 2) potential needs for future emergencies. We also invite Maine manufacturers to submit ideas about items we may not have identified yet, which your company has in current supply or plans to develop and would support the State’s emergency preparedness.

CURRENT NEEDS FOR PERSONAL PROTECTIVE EQUIPMENT (PPE)

REQUESTED RESPONSE: If your company produces any of the items below, please complete the applicable bid form(s) posted on our [PPE Bid Page](#).
