AWARD NOTIFICATION LETTER

June 18, 2019

Organic Solutions, LLC d/b/a Mr. Fox Composting
Attn: Johnathan Watts
6 Carwin Drive
York, ME 03909

SUBJECT: Notice of Conditional Contract Awards under RFP # 201902030,
Waste Diversion Grants Program

Dear Mr. Watts:

This letter is in regard to the subject Request for Proposals (RFP), issued by the State of Maine Department of Environmental Protection for Waste Diversion Grants Program. The Department has evaluated the proposals received using the evaluation criteria identified in the RFP, and the Department is hereby announcing its conditional grant awards.

The following bidders will receive full awards:

- Northern Aroostook SW Association
- University of Maine System
- Bo' Lait Farms
- Pleasant River Farms
- DM&J Waste
- Town of Limerick
- Town of Kennebunkport

The following bidders will receive partial awards:

- Town of Vinalhaven
- Manchester Conservation Committee
- City of South Portland (1)
- City of South Portland (2)

- Town of Lisbon
- Town of China

The bidders listed above received the evaluation team's highest rankings. The Department will be contacting the aforementioned bidders soon to negotiate a contract. As provided in the RFP, the Notice of Conditional Contract Award is subject to execution of a written contract and, as a result, this Notice does NOT constitute the formation of a contract between the Department and the apparent successful vendor. The vendor shall not acquire any legal or equitable rights relative to the contract services until a contract containing terms and conditions acceptable to the Department is executed. The Department further reserves the right to cancel this Notice of Conditional Contract Award at any time prior to the execution of a written contract.

As stated in the RFP, following announcement of this award decision, all submissions in response to the RFP are considered public records available for public inspection pursuant to the State of Maine Freedom of Access Act (FOAA). 1 M.R.S. §§ 401 et seq.; 5 M.R.S. § 1825-B (6).

This award decision is conditioned upon final approval by the State Procurement Review Committee and the successful negotiation of a contract. A Statement of Appeal Rights has been provided with this letter; see below.

Thank you for your interest in doing business with the State of Maine.

Sincerely,

A handwritten signature in black ink, appearing to read "Carole A. Cifrino". The signature is fluid and cursive, with a long horizontal stroke at the end.

Carole Cifrino, Supervisor Recycling Programs
Division of Materials Management

STATEMENT OF APPEAL RIGHTS

Any person aggrieved by an award decision may request an appeal hearing. The request must be made to the Director of the Bureau of General Services, in writing, within 15 days of notification of the contract award as provided in 5 M.R.S. § 1825-E (2) and the Rules of the Department of Administrative and Financial Services, Bureau of General Services, Division of Purchases, Chapter 120, § (2) (2).

AWARD NOTIFICATION LETTER

June 18, 2019

Town of Lisbon
Attn: Mark Stevens
300 Lisbon Street
Lisbon, ME 04250

SUBJECT: Notice of Conditional Contract Awards under RFP # 201902030,
Waste Diversion Grants Program

Dear Mr. Stevens:

This letter is in regard to the subject Request for Proposals (RFP), issued by the State of Maine Department of Environmental Protection for Waste Diversion Grants Program. The Department has evaluated the proposals received using the evaluation criteria identified in the RFP, and the Department is hereby announcing its conditional grant awards.

The following bidders will receive full awards:

- Northern Aroostook SW Association
- University of Maine System
- Bo' Lait Farms
- Pleasant River Farms
- DM&J Waste
- Town of Limerick
- Town of Kennebunkport

The following bidders will receive partial awards:

- Town of Vinalhaven
- Manchester Conservation Committee
- City of South Portland (1)
- City of South Portland (2)

- Town of Lisbon
- Town of China

The bidders listed above received the evaluation team's highest rankings. The Department will be contacting the aforementioned bidders soon to negotiate a contract. As provided in the RFP, the Notice of Conditional Contract Award is subject to execution of a written contract and, as a result, this Notice does NOT constitute the formation of a contract between the Department and the apparent successful vendor. The vendor shall not acquire any legal or equitable rights relative to the contract services until a contract containing terms and conditions acceptable to the Department is executed. The Department further reserves the right to cancel this Notice of Conditional Contract Award at any time prior to the execution of a written contract.

As stated in the RFP, following announcement of this award decision, all submissions in response to the RFP are considered public records available for public inspection pursuant to the State of Maine Freedom of Access Act (FOAA). 1 M.R.S. §§ 401 et seq.; 5 M.R.S. § 1825-B (6).

This award decision is conditioned upon final approval by the State Procurement Review Committee and the successful negotiation of a contract. A Statement of Appeal Rights has been provided with this letter; see below.

Thank you for your interest in doing business with the State of Maine.

Sincerely,

A handwritten signature in cursive script, appearing to read "Carole A. Ciffrino".

Carole Ciffrino, Supervisor Recycling Programs
Division of Materials Management

STATEMENT OF APPEAL RIGHTS

Any person aggrieved by an award decision may request an appeal hearing. The request must be made to the Director of the Bureau of General Services, in writing, within 15 days of notification of the contract award as provided in 5 M.R.S. § 1825-E (2) and the Rules of the Department of Administrative and Financial Services, Bureau of General Services, Division of Purchases, Chapter 120, § (2) (2).

Pass/Fail Criteria		
N/A	Pass:	Fail:
	Points Awarded:	
Section I. Organization Qualifications and Experience (Max: 20 Points)		15
Section II. Proposed Services (Max: 55 Points)		45
Section III: Cost Proposal (Max: 25 Points)		20
TOTAL POINTS (Max: 100 Points)		80

**STATE OF MAINE
TEAM CONSENSUS EVALUATION NOTES**

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: DM&J Waste
DATE: 5/29/19

**EVALUATION OF SECTION I
Organization Qualifications and Experience**

Total Points Available: 20

Score: 15

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality and content of the information provided.

Relevant Experience, including experience with similar projects, longevity of staff experience, and documentation of any applicable licensing/certifications/special credentials.
--

Excellent, long-term solid waste management experience. 2 Compost School grads. Licensed. Plus 5
--

Quality of application.

Good, thorough.

RFP TITLE: Waste Diversion Grants
BIDDER: DM&J Waste
DATE: 5/29/19

EVALUATION OF SECTION II Proposed Services

Total Points Available: 55 Score: 45

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Targeted to move material management at least one rung up the hierarchy

Yes, very much so. **Plus 5**

Local/regional/statewide impact

Underserved area; all of Waldo & Hancock Counties, plus portion of 4 others. **Plus 5**

Addresses demonstrated need

Absolutely; current facility operating at capacity. Have identified additional significant carbon source in Jackson Lab shavings. Half current compost production area used for shavings storage. Need for additional shelter is real & significant to resolve production bottleneck. **Plus 5**

Completeness of Implementation planning

Very good. Feasible, with construction to be completed in Fall 2019.

Data collection and reporting

On-going, in accordance with license.

Reach and quality of educational component

Very limited; not really needed

Anticipated benefits, including immediate and future cost savings
Plus 5

Significant savings in trucking.

Significant diversion of materials from disposal.

New significant nitrogen and carbon added to agricultural area.

**STATE OF MAINE
TEAM CONSENSUS EVALUATION NOTES**

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: DM&J Waste
DATE: 5/29/19

**EVALUATION OF SECTION III
Cost Proposal
Best Value Assessment of Money, Time, Tasks, Budget and Match**

Total Points Available: 25

Score: 20

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Percent cost share

30%

Reasonable costs for expected outcomes

Very reasonable. Plus 5

Likelihood of good return on investment.

Absolutely. Expected to divert significant amounts of materials from disposal to composting, with a huge reduction in carbon footprint and increase in carbon sequestration. Estimated that expansion of production capability may increase facility revenues by \$95,000 annually. Plus 5

**EVALUATION OF SECTION II
Proposed Services**

Total Points Available: 55 Score: 45

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy Yes. Plan significantly raises original pilot compost project to ultimately serve the entire island on a drop-off basis. Plus 5
Local/regional/statewide impact – Local, but project should provide excellent example to other island communities.
Addresses demonstrated need – As an island community, the need to minimize what is literally shipped is obvious. Proposal to establish an on-island food scrap composting program will decrease shipping of solid waste off-island for disposal and increase availability of soil amendments for on-island gardens. Plus 5
Completeness of implementation planning Very thorough, but in instances, a little overthought (see costs) Plus 5
Data collection and reporting Department (Mark King) to provide further direction and detail for data collection and reporting.
Reach and quality of educational component Island community should be pretty simple. Extensive plans with adequate methods, but overall somewhat over-funded (see costs). Plus 5
Anticipated benefits, including immediate and future cost savings Add in - Report out on how to do large scale food composting on islands Significant cost savings for not shipping for disposal. Benefit in adding organics to island soils. GHG emissions reductions in decreased transportation of organics off-island to disposal Anticipate revenue from compost sales Plus 5

TEAM CONSENSUS EVALUATION NOTES**

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Town of Vinalhaven
DATE: 5/29/19

**EVALUATION OF SECTION III
Cost Proposal
Best Value Assessment of Money, Time, Tasks, Budget and Match**

Total Points Available: 25

Score: 15 (with changes)

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Percent cost share

Cost share adequate, but amounts all "in kind" or donated. No actual cash committed.

Reasonable (grant funded) costs for expected outcomes

Not all costs reasonable for expected outcomes. Substantial costs related to E&O. Grant fund request for 2 years of operational costs, when 1 year is sufficient to plan funding operations into the future.

Amended amounts for award:

Task/Equipment	Proposed	Department amended for award
1-gallon collection pails	\$2,000	\$1,000 grant/\$1000 match suggested if needed
Compost Manager	\$10,400	\$0 . Equipment operator should be trained to cover tasks
Equipment Operator	\$10,400	\$ 5,200 for one year of production
Transport Equip Operator	\$2,600	\$1,300 for one year of production
Outreach Coordinator	\$2,600	\$1,560 (1 year 104 hours @\$15/hr)

Grant award to be offered = \$20,425

Likelihood of good return on investment.

Since applicant has good communication with the Department, and the proposal is as pertinent as it is to island communities, return on investment should be significant. **Plus 5**

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy Increases efficiency and allows year-round production capability for diverting food scraps from disposal to composting. Plus 5
Local/regional/statewide impact Will expand reach of regional services - Plus 5
Addresses demonstrated need Picking up slack from Lincoln County Recycling, and addressing safety and sustainability issues. Plus 5
Completeness of implementation planning Well planned, although implementation timeline lacks purchasing and paving dates.
Data collection and reporting Track weekly and monthly collections by sector. Strong record of data recording and reporting.
Reach and quality of educational component Well targeted to motivate food scrap diversion at residential and small business level. Also offer more general community education on the benefits of composting food scraps. Plus 5
Anticipated benefits, including immediate and future cost savings High. Will be much more efficient operations. Cost savings in diverting food scraps from disposal to composting. GHG savings benefits. Plus 5

Score: 35 – for RFID only

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy
Neutral – RFID program will enable gathering of data to improve operations. Anticipated increase in recycling from placement of additional containers in service area is speculative.
Local/regional/statewide impact
Small regional impact, but will be good pilot for appropriate use of RFID technology by other solid waste facilities
Addresses demonstrated need
RFID addresses tracking needs of China's transfer station operations as they expand to serve more regional needs.
Completeness of implementation planning
Good RFID. Need to think through how to roll-out RFIDs so users appreciate their value. Need for satellite collection sites for single-sort not adequately documented or planned for siting.
Data collection and reporting
RFID system will provide high quality granular data on operations – Plus 5
Reach and quality of educational component
Outreach ill-defined for satellite collection
Anticipated benefits, including immediate and future cost savings
RFID system will significantly improve tracking of facility use, including recycling and composting options, which will support more efficient management and targeted e&o to increase recycling and composting – Plus 5 Potential benefits of satellite collection sites not well documented

Targeted to move material management at least one rung up the hierarchy
--

Development of solid supply lines for home-based composting supplies and equipment.

Local/regional/statewide impact
--

Local; could have more impact as a model – Plus 5 with create guide "Municipal Program to Support Backyard Composting" for other towns

Addresses demonstrated need

Community-driven home composting. Good model
--

Completeness of Implementation planning
--

A bit vague.

Data collection and reporting

Good data to estimate amounts home-composted with appropriate guidance (Mark may request collection of additional data)

Reach and quality of educational component

Solid Waste Committee has decent plan, including providing one-on-one help with learning and troubleshooting. Plus 5

Anticipated benefits, including immediate and future cost savings
--

Plus 5

Avoid all transportation costs on diversion of 100 tons in year 1, up to 500 in 5 years.
--

Need to add better data collection; negotiate on backyard bin design
--

Direct savings for town on avoided tipping fees

27% (does not include in-kind match of equipment operator as this is not explained in proposal)

Reasonable costs for expected outcomes

Neutral – no significant savings in planned costs

Likelihood of good return on investment.

Educational benefits plus waste diversion. Plus 5
--

STATE OF MAINE TEAM CONSENSUS EVALUATION NOTES

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Town of Limerick
DATE: 5/29/19

Instructions: The purpose of this form is to record all evaluation notes and scoring that is obtained through consensus discussions among the full evaluation team for this Request for Proposals (RFP) process. The RFP Coordinator or Lead Evaluator should complete this form and maintain the only copy. This form should reflect the full team's consensus evaluations, and this form is *not* meant to take the place of individual evaluation notes, which are still required from each member of the evaluation team. A separate form is available for individual evaluation notes. Please submit a copy of this document to the Division of Procurement Services as part of your contract award selection documents.

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Town of Limerick
DATE: 5/29/19

**EVALUATION OF SECTION I
Organization Qualifications and Experience**

Total Points Available: 20

Score: 15

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality and content of the information provided.

Relevant Experience, including experience with similar projects, longevity of staff experience, and documentation of any applicable licensing/certifications/special credentials.
--

Excellent experience. Previously received and successfully implemented grant from SPO. Plus 5
--

Quality of application.

OK – work clearly delineated, although no timeline
--

**STATE OF MAINE
TEAM CONSENSUS EVALUATION NOTES**

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Town of Limerick
DATE: 5/29/19

**EVALUATION OF SECTION II
Proposed Services**

Total Points Available: 55 Score: 40

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy
Moving disposal to reuse. Especially larger household items. Plus 5
Local/regional/statewide Impact
Local impact, but impoverished, underserved area
Addresses demonstrated need
Absolutely; bursting at the seams, haven't been able to offer reuse opportunities for bulky household items and construction materials. Well-supported with data. Plus 5
Completeness of implementation planning
Very good.
Data collection and reporting
OK
Reach and quality of educational component
OK. Will meet needs.
Anticipated benefits, including immediate and future cost savings
High benefits in avoided CDD disposal costs and decreased consumption of new goods (avoids environmental impacts of extraction and production). Community benefits. Plus 5

Total Points Available: 55 **Score: 35**

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Targeted to move material management at least one rung up the hierarchy
--

Yes – new program for town to divert food scraps from disposal to composting. Plus 5
--

Local/regional/statewide impact
--

Local (can offer to 9000 residents)

Addresses demonstrated need

Yes. Currently have no composting option for organics..

Completeness of Implementation planning
--

Very good. Working with well-established partners. Plus 5

Proposed phase in schedule very conservative; encourage to expand more quickly.

Data collection and reporting

Garbage-to-Gardens will weigh & report tonnage
--

Reach and quality of educational component

Adequate, through Lisbon Conservation Commission, although lacking details.

Anticipated benefits, including immediate and future cost savings
--

Moderate; claim disposal costs have increased >4x; if true, town savings of \$3,994.
--

Asking for operational funds for contract with Garbage-to-Gardens; can fund through savings from avoided disposal costs (will motivate faster ramp-up of program)

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Town of Lisbon
DATE: 5/29/19

Total Points Available: 25 **Score: 20**

Requesting operational funding for Garbage-to-Gardens contract. Do not fund this aspect.

Section II. Proposed Services (Max: 55 Points)		40
Section III: Cost Proposal (Max: 25 Points)		15
TOTAL POINTS (Max: 100 Points)		70

*Point score based on funding equipment, materials and host site fees only (\$8,304); no contracted operational costs

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Manchester Conservation Commission
DATE: 5/29/19

Total Points Available: 20 **Score: 15**

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as “P” (plus) or “M” (minus) based on the quality and content of the information provided.

Town has experience with implementing “silver bullet” drop-off. Too much contamination. Looking to utilize experienced in-town private solid waste management business to oversee new drop-off site for single-sort to ecomaine. Plus 5

Medium – Included extensive information about history with exploring and implementing alternatives

**STATE OF MAINE
TEAM CONSENSUS EVALUATION NOTES**

RFP #: 201902030
RFP TITLE: Waste Diversion Grants
BIDDER: Manchester Conservation Commission
DATE: 5/29/19

**EVALUATION OF SECTION II
Proposed Services**

Total Points Available: 55 Score: 40

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Targeted to move material management at least one rung up the hierarchy
--

Yes; too many barriers for residents to use current recycling option
--

Local/regional/statewide impact
--

Local (population ~ 26000), but can serve a pilot for public/private partnership model for other Hatch Hill member towns given the extremely limited recycling option offered by Augusta. Data on efficacy of manned vs. unmanned drop-off applicable throughout state. Plus 5
--

Addresses demonstrated need

Yes. Manchester residents have consistently demonstrated a desire to recycle. Town has provided opportunity & education, but contamination rates at unmanned drop-offs are too high.
--

Completeness of implementation planning
--

Very complete. Have carefully considered all options and developed a proposal for a novel public-private partnership to significantly improve recycling opportunities for residents. Detailed timeline. Plus 5
Request to pay attention to potential litter problem from use of open bins.

Data collection and reporting

Ecomaine tracks weight of each load and contamination rates. Town has data from previous unmanned drop-off system for comparison purposes. Will be very valuable in assessing efficacy of supervised drop-off model. Plus 5

Reach and quality of educational component

Will continue existing outreach through schools, town office, website and local organizations, with support from ecomaine educators.
--

Anticipated benefits, including immediate and future cost savings
--

Goal to recycle with 2X efficiency and virtually no contamination. This would halve the GHG emissions from transportation. Expect to save \$10,000 in recycling program operating costs through elimination of contamination fees.
--

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy
Not proposing to increase composting production immediately. Minus 5
Local/regional/statewide impact
Potential is there, but not enhanced by this proposed project.
Addresses demonstrated need
Yes. Mr. Fox operations are in need of improvement in order to compost fully licensed amounts (currently composting approximately 2000 tons, licensed for 4000)
Completeness of implementation planning
Incomplete – no timeline. Minus 5
Data collection and reporting
Limited to only that required by license
Reach and quality of educational component
None – Minus 5
Anticipated benefits, including immediate and future cost savings
Expansion of composting operations, but can fund solar panels with short-term financing through solar companies.

Targeted to move material management at least one rung up the hierarchy
--

Yes. Will increase diversion by expanding food scrap collection to entire city and creating more accessible drop-off – Plus 5
--

Local/regional/statewide impact
--

Local impact only

Addresses demonstrated need

Did successful pilot; community wants expansion

Completeness of implementation planning
--

Good planning. 12 gallon container tough to haul and dump. Should likely offer a smaller one as well. 12 gallon bin more likely to be diverted to other uses. Plan encourages use of plastic liner which will end up incinerated. Fund ½ of totes for \$5950.

Data collection and reporting

G-to-G to provide City monthly collection reports.
--

Reach and quality of educational component

Good job on this – Plus 5

Anticipated benefits, including immediate and future cost savings
--

By increasing participation, can offer anaerobic digestion at competitive price with disposal– Plus 5 Plastic liners needed; will go to disposal
--

EVALUATION OF SECTION II Proposed Services

Total Points Available: 55 **Score: 40**

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 25 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.
Targeted to move material management at least one rung up the hierarchy
Yes. Opening an existing food waste collection program to commercial. PLUS 5
Local/regional/statewide impact
Model is potentially transferrable to other communities, particularly tourist. PLUS 5
Addresses demonstrated need
Need is present. PLUS 5
Completeness of implementation planning
Well thought out..
Data collection and reporting
Data collected through self report. Not terribly dependable. MINUS 5
Reach and quality of educational component
Develop significant buy-in with pledge development, consensus building and public visibility PLUS 5
Anticipated benefits, including immediate and future cost savings
Increases recycling & diverts food waste to AD. Actual effects limited to 1 community. No need to reimburse restaurants for purchase of collection bins; waste containers are standard business cost calculated into net profits.

**EVALUATION OF SECTION III
Cost Proposal
Best Value Assessment of Money, Time, Tasks, Budget and Match**

Total Points Available: 25

Score: 10

Evaluation Team Comments:

Point Factors: Each applicant is awarded an initial baseline of 10 points. Up to 5 points may then be added or subtracted for each factor rated as "P" (plus) or "M" (minus) based on the quality of the information provided.

Percent cost share

Initially 36% with in kind hours. **PLUS 5**

Reasonable costs for expected outcomes

Department is unable to justify awarding a grant which in turn would be distributed as grants **MINUS 5**

Likelihood of good return on investment.

Difficult to provide a hard measure of results. There would potentially be incentive to overstate success on the part of businesses in response to being awarded a grant and additional public visibility. On the positive side, the provided outreach certainly raises awareness of the issue and goal of reduction and diversion.

INDIVIDUAL EVALUATION NOTES**

RFP #: 201902030

RFP TITLE: Waste Diversion Grant Program

BIDDER NAME: Town of Lisbon

DATE: May 22, 2019

EVALUATOR NAME: Carole Cifrino

EVALUATOR DEPARTMENT: Department of Environmental Protection

Instructions: The purpose of this form is to record proposal review notes written by individual evaluators for this Request for Proposals (RFP) process. It is required that each individual evaluator make notes for each proposal that he or she reviews. No numerical scoring should take place on these notes, as that is performed only during team consensus evaluation meetings. A separate form is available for team consensus evaluation notes and scoring. Once complete, please submit a copy of this document to your Department's RFP Coordinator or Lead Evaluator for this RFP.

Individual Evaluator Comments:

Organization Qualifications and Experience

Town of Lisbon contract w/ Garbage to Gardens to set up market-based composting program. Partnership w/ Benson Farm, Gorham

Proposed Services

Town contract with G-to-G for ~~residential~~ composting. Includes: signage + educational materials, finished compost for residential sector. Lisbon Conservation Commission to offer composting etc. Residents to deliver food scraps to PWRs. Town disposal costs increased from 35/ton → \$150/ton

Target to start with 10 families

G-to-G to provide bins, + data tracking + reporting

Lisbon to build concrete foundation, kiosk + shelter near T.S.

Project diversion of 20 tons annually, cost savings of \$3999 + costs of \$1668

Cost Proposal \$7,086 with \$2,640 match 72.92/27.12

\$3,336 for 2 year G-to-G contract - do not fuel operational cost

match is all in-kind unspecified labor

Individual Evaluator Comments:

Organization Qualifications and Experience
Team Manager experienced in grant writing (Dennis Heald)
Tim Trotter - T.S. Manager - 7 years @ T.S., 3 as manager
Proposed Services Data collection, deployed collection trailers, + E+O for land waste diversion
increased recycling of paper, plastics + tin cans. Will improve recycling rate from 13% to 18%.
RFID sensors for entry gate to detect all entering vehicles.
Expanded E+O from China schools to Albion, Vassalboro + Palermo
to push use of deployed trailers + figure where to place them.
- Lack info on trailer design/specs, signage, QC on material collected - Need to do more homework!
Fiberight to be receiving facility (Coastal Resources)
RFID sensors will enable critical data collection re: T.S. usage.
Cost Proposal
\$27,500 for recycling trailers
\$10,500 for RFID Detection System \$5,550 match 65.4/34.6% match

EVALUATOR NAME: Jim Guerra

EVALUATOR DEPARTMENT: Department of Environmental Protection

Instructions: The purpose of this form is to record proposal review notes written by individual evaluators for this Request for Proposals (RFP) process. It is required that each individual evaluator make notes for each proposal that he or she reviews. No numerical scoring should take place on these notes, as that is performed only during team consensus evaluation meetings. A separate form is available for team consensus evaluation notes and scoring. Once complete, please submit a copy of this document to your Department's RFP Coordinator or Lead Evaluator for this RFP.

Individual Evaluator Comments:

Section 1 – Cover etc – complete

Section 2 – Qualifications -

- Proposal 3 – Proposal presentation requires deciphering and raises some general logistical issues
- a.) One of four towns uses pay as you throw which seems like it would be tedious operationally. It provides an incentive to contaminate satellite collection with trash. Some Winslow residents participate? While China bales OCC for Vassalboro, it seems that the bulk of recycling is via single sort but it is not stated
 - b.) Fundamental misunderstanding in suggesting need to reach out for more material is related to poor recycling markets.
 - c.) Recovery estimates – hard to justify the paper estimates. Assumption seems to be for full containers and news and mixed papers are not of equal density.
 - d.) The transfer station is open five days per week, survey says 93% support recycling, yet the rate is 13%. There is something other than accessibility preventing more recycling.
 - e.) RFID seems proposed in lieu of facility permit with receiver at the facility gate. In longer run, it may provide info on use within the facility. RFID does not seem proposed for satellite collection points where it might be helpful in the unsupervised situation.
 - f.)
 - g.) This program will skew collection results if it increases (allows) participation from outside towns. Also, with increased use of satellites, one should expect a corresponding drop at the transfer station.
 - h.) N/C
 - i.) The RFID system as proposed could be a good tool for China in determining which of their towns make the most trips to the transfer station. One could assume from this which generates more trash unless every vehicle is weighed - then it is more empirical. But what about the mom & pop haulers with any number of customers in any of the towns? It would also provide some information is it was set up to record the stops within the facility.
 - j.) Other than management and replacement of RFID tags, the proposal provides little info on current and future costs.

Finally, unsupervised collection of anything is ill-advised. Assume collection bins are adequately covered.

Individual Evaluator Comments:

Organization Qualifications and Experience
High Quality Application
Have established ^{pilot} program - using Garbage to feeders + exche AgriEnergy
Planning for "zero-waste future"
Directly relevant experience + data from Pilot.
Proposed Services
- Establish drop-off site at SoPo High on Highland Ave next to Community Center
- Partner w/ HS. Earth Club to target outreach, incl. tally counts
"Free" 12-gallon + 1-gallon food waste bins ^{Need to require}
- By increasing participation, can provide service at price point competitive with disposal services.
- Data collection monthly by Garbage-to-feeders and exchaine; ^{needer bin distributed at tallying events.}
- 700 12 gallon bins to be purchased; have 800 in stock = 1500 new households
- Drop-off site = 3 64-gallon bins + signage
- Have already developed brochures
- Potential cost savings of \$254/ton x 194 tons/year = \$29,876/year savings
Can they create a "How-To" guide for other Maine communities?
Cost Proposal
\$4,680 for first-year hauling fees
\$11,900 for 700 12 gallon bins. \$800 for 400 1-gallon bins
↳ how about scavenger for reuse items?
\$1,320 for student labor on ETO (120 hrs)

Instructions: The purpose of this form is to record proposal review notes written by individual evaluators for this Request for Proposals (RFP) process. It is required that each individual evaluator make notes for each proposal that he or she reviews. No numerical scoring should take place on these notes, as that is performed only during team consensus evaluation meetings. A separate form is available for team consensus evaluation notes and scoring. Once complete, please submit a copy of this document to your Department's RFP Coordinator or Lead Evaluator for this RFP.

Individual Evaluator Comments:

Organization Qualifications and Experience

Good

Proposed Services

Expand current drop-offs

Lots of expense for a project limited to the city area.

Remove 12 gallon @ 1st timer tough to haul and then pay for waste removal hauling

Cost Proposal

19,200

2620.00

APPENDIX D

State of Maine Department of Environmental Protection COST PROPOSAL FORM RFP#201902030 Waste Diversion Grants Program

Applicant's Organization Name:	City of South Portland – Sustainability Office
Grant Amount Requested	\$ 19,200

Cost Proposal		
Include in this spreadsheet anticipated costs to be funded by the grant and any project / program costs to be funded by the applicant (a minimum 25% match is required, which may include in-kind services). You may add additional rows as needed.		
Cost Item	Amount from grant	Amount from applicant (If any)
Equipment (list items)		
Drop-off site installation (bins and signage)	\$500.00	
Materials (list items)		
12-gallon food waste bins (700 x 17.00 per unit)	\$11,900	
1-gallon food waste bins (200 x 4.00 per bin)	\$800	
Food waste outreach printing		\$1,000.00
Facilities (list items)		
Labor (list positions, roles, and hourly rate)		
Earth Club, training and tabling (\$11/hr)	\$1,320.00	
Garbage to Garden, annual hauling fee (1 year)	\$4,680.00	
Public Works (Sign Foreman, 2 hours for site prep and sign installation)		\$80.32
Sustainability Office, Director (\$47.79/hr. Development of outreach and education, coordination with Garbage to Garden, contact with public)		\$2,137.1
Sustainability Office, Program Coordinator (\$35.36/hr. Development of outreach and education, coordination with High School, training and management of students)		\$1,591.2
Totals	\$19,200	\$4808.62

Organization Qualifications and Experience

Town of Limerick operates Transfer Station since 2000.

Previously received grant from SP0 for reuse building; successfully built & implemented.

Application quality - work clearly delineated. No timeline

Proposed Services

Expansion of existing + "Take-It-Shoppe" building ^{new 22' x 30'} space to ~~2000~~ by 32' x 30'

This will enable expansion of reuse items managed to include furniture + building supplies

Have data from first year of reuse shoppe (2005) 10,000+ items = 107 tons from demo. Demo disposal dropped from 291.44 to 184.00 tons.

Cost Proposal

\$16,500 grant, \$32,500. town 33.67% grant / 66.33 match!

~~materials had increased~~
Rough plumbing, electrical + drilled well donated by local business

+

Organization Qualifications and Experience
Qualified and licensed - refer to Mark King or PM for inspection info
Proposed Services -
a.) Ongoing compost operation requires shelter for bulk carbon source as wood shavings arrive faster than compost finishes. Appears to be 2,000 tpy formerly landfilled or incinerated.
b.) Half compost production area is currently used as C storage in order to maintain bulking attributes of dry material.
c.) 2,000 tpy shavings, 300 tpy seafood residuals with room to grow. Sludge – undisclosed Need is real and significant
d.) feasible
e.) I.D. acquisitions - clear
f.) purchase 60X50 Tarp-Rite structure
g.) resolves bottleneck issue at facility, h.) Outreach & Educ – ongoing but project is private
i.) Date & Record keep – ongoing j.) \$95,000/yr impact by freeing space for production
Cost Proposal – while there is definite positive impact on solid waste management, the monetary impact is well internalized between the generators and those providing service. Issue is a Policy matter regarding disposal of taxpayer funds. Have all avenues of funding (generator of shavings) been explored?

Organization Qualifications and Experience
NASHUA licensed since July since 1995
long-term operators + Team manager experienced.
The Simon Suburban expanded their recycling →
experienced finding glass markets
will partner w/ market for marketing
+ Detailed planning included in ap.

Proposed Services increase recycling involvement - Steel baling
Serves 5 Tams.
match to baler
No subcontractors
Have on-site bales to store bales
Currently use igloos with contract to Amherst SW / seasonally
restricted access
will reduce SW going to landfill $\approx 80-100$ tons.
Can expand cardboard recycling, add cans, HDPE, SOW,
Good E+O plans well-targeted to community.

Cost Proposal \$30,000 for building 19,550 match
40.6% 39.4%

Individual Evaluator Comments:

Organization Qualifications and Experience
Proposed Services
residences not served? - NO! Bottle & Neery all good
Sensible solution to mitigate chances of physical injury and use of single use bags
Good opportunity to generate worthwhile data
Project can be implemented elsewhere -
Not properly able to weigh
Reduce need for totes & drum liners
Captures all for compost
Cost Proposal total - 12710
10% share w/out 2500 - Ed & Andrew

Organization Qualifications and Experience
 Relevant experience - Gaining by implementing 2018 grant award. MOFGA-certified compost. On-farm excretion
 Quality of application - high; good data + documentation

Proposed Services
 Facility + ^{operational} equipment upgrades: paving, compost covers, trailer upgrade, 65-gallon water carts for restaurants, 5-gallon collection buckets for households, [screener (breaking on-site)], lift gate
 Implementation timeline lacks purchasing + paving dates.
 Offer community education beyond grant work proposed.

Cost Proposal Grant \$29,780; applicant 16,285 41,665 total
 59.5% 41.5%

Upgrades will increase operational efficiencies **
 Questions - 65-gallon water for businesses → businesses should be able to purchase

Fully Fund

AGREEMENT AND DISCLOSURE STATEMENT

RFP #: 201902030

RFP TITLE: Waste Diversion Grant Program

I, Carole Cifino accept the offer to become a member of the Request for Proposals (RFP) Evaluation Team for the State of Maine Department of Environmental Protection. I do hereby accept the terms set forth in this agreement AND hereby disclose any affiliation or relationship I may have in connection with a bidder who has submitted a proposal to this RFP.

Neither I nor any member of my immediate family have a personal or financial interest, direct or indirect, in the bidders whose proposals I will be reviewing. "Interest" may include, but is not limited to: current or former ownership in the bidder's company; current or former Board membership; current or former employment with the bidder; current or former personal contractual relationship with the bidder (example: paid consultant); and/or current or former relationship to a bidder's official which could reasonably be construed to constitute a conflict of interest (personal relationships may be perceived by the public as a potential conflict of interest).

I have not advised, consulted with or assisted any bidder in the preparation of any proposal submitted in response to this RFP nor have I submitted a letter of support or similar endorsement.

I understand that the evaluation process is to be conducted in an impartial manner. In this regard, I hereby certify that, to the best of my knowledge, there are no circumstances that would reasonably support a good faith charge of bias. I further understand that in the event a good faith charge of bias is made, it will rest with me to decide whether I should be disqualified from participation in the evaluation process.

I agree to hold confidential all information related to the contents of Requests for Proposals presented during the review process until such time as the Department formally releases the funding decision notices for public distribution.
