Award Justification Statement
RFP# 201905093 Pre-Qualified Vendor List for Environmental Consulting Services

I. Summary

The Department of Environmental Protection will pre-qualify environmental consultants to assist Department staff at petroleum, hazardous substance sites as well as Uncontrolled sites, Brownfields Site and other tasks requested by the department.

II. Evaluation Process

Consensus scoring

I had two (2) project managers and a geologist as my review team. I was the note taker. Chris Redmond and Eric Sroka are project managers working on Voluntary Response Action Program (VRAP) and Brownfields. Each has years of experience dealing with varying aspects of environmental sites. Matt Burke is a department geologist that works on Uncontrolled sites and various other sites.

III. Qualifications & Experience

The team found that all submittals had the experience, staff and resources they need to carry out tasks provided by the department. All submittals were in the same score range from 90-100

Key components: Number of successful completed projects, training and staff to complete projects awarded through the mini bid process.

IV. Proposed Services

V. Cost Proposal

We did not have a cost proposal. We asked that submittals include a rate sheet. All submittals included one.

VI. Conclusion

The department received (15) fifteen submittals. Only one has not been on our prequalified list since it's inception in/around March 2015. All submittals scored within 10 points of each other due to their experience, qualifications and proposed services.
