PART III: SUPPLEMENTAL INFORMATION

The project Executive Sponsorship has delayed the go live date for the implementation of Workday due to outstanding configuration and testing. This delay in production cutover date will require work from Premier to support the Department for a period that was not included in the Agreement. This change order is to ensure that support can continue to be provided past the current end date of December 31, 2021.

2. Provide a brief justification for the selected vendor to supplement the response in Part II.

The continued data validation, edit reports, and automation of legacy data clean up will require work from Premier to support the Department for a period of time that was not included in the previous change order. This change order ensures support can continue to be provided through upcoming project milestones and deliverables in both HCM and Finance. Estimated resource need is 225 additional hours.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The cost estimates were in line with the original cost estimates for the original Agreement and prior change orders.

4. Describe the plan for future competition for the goods or services.

Any further date changes would be a scope change and will require an approved change order.
