### PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

Plow truck 11-117 had check engine light on and was derated. Fleet field tech connected laptop to truck and found it had 3 emission codes he checked the diagnostic repair steps it lead to the ammonia sensor so he replaced the ammonia sensor and truck was fine for 2 days and the check engine light came back on. The region had other truck down, so it was decided to send this to the Dealer. The dealer found it had broken CAC clamps so they replaced and did an air management test and it failed diagnostic steps led to replace EGR cooler, crossover duct and tube assembly when the dealer tech was doing this he noticed 3 broken exhaust manifold bolts so he had to remove the manifold to remove the broken bolts upon checking the manifold found it was warped had to replace, he also found a rusted turbo oil supply line and a chafed sensor harness witch he replaced. Repairs totaling \$90315.06 where made. The decision to move forward with these repairs was made consistent with Maine DOT Fleet Management's guidance considering the vehicle's age, mileage, and anticipated replacement schedule. The estimated replacement cost for this vehicle is \$188,000.00. The decision to use a commercial repair facility was made after careful consideration of the availability and expertise of Department personnel and the operational need to get the equipment back in service.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

The Fleet Augusta heavy shop was busy and is down 2 Tech's and 2 out sick. The vendor for this work was able to work it in and has International trained technicians along with all the special tools for the repair and replacement of the parts associated with this issue. The magnitude of this repair was considered, and the logical decision was to send this unit to the dealer.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

Daigle & Houghton is an International dealer and Fleet Services has negotiated a lower labor rate with them, we have also had work done there in the past and when compared with the other International dealer their rates where the same or in some cases a little cheaper. They are able too efficiently and cost effectively do a repair of this significance. This repair would not have been something the department could have cost effectively done and completed in a timely manner.

4. Describe the plan for future competition for the goods or services.

If we could convince more International truck dealers and service facilities to move into more locations in the state it would potentially foster better competition.
