If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

With advancements in digital technology, the Maine State Police Computer Crimes Unit (CCU) continues to search for a tool that will give access to that evidence when authority to search exists. In order to achieve the desired level of effectiveness and efficiency in the job, it is important to provide forensic analysts with tools necessary to achieve these goals. By providing forensic analysts training on the use of Axiom software, It will aid them in the extraction and analysis of digital media where they can be more effective and provide accurate information in less time, reducing the current backlog and providing more evidence for prosecution and the Unit will be better able to protect Maine citizens and prosecute criminals who offend them.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is not available by any state or federal entity.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Online courses eliminate the travel expenses and this online passport provides the opportunity for the supervisor to prioritize the course schedule that fits the job requirement without having to wait for the course to be offered in person. This utilizes the concept of time is money by providing efficiencies as well as cost savings from unnecessary travel.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Maine State Police Computer Crimes Unit routinely evaluates new forensic software tools in an ongoing effort to further our capabilities to extract critical data from the myriad of digital components (smart phones, tablets, game stations, cameras, etc.) that are in use and may be developed for future use (and unfortunately misuse) by consumers. The Unit has, on occasion, been used as a beta-test site for new forensic software. We do this to improve our work product and spur improvement within the computer forensic field. Axiom is becoming the new industry standard in forensic examination tools as it is faster and more efficient for an analyst to use than our current primary forensic tool.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

Axiom software is proprietary software provided through Magnet forensics and is a forensic tool used to extract and analyze data from digital media submitted to the CCU for forensic processing. Training on this software is critical to the ability for the analysts in this Unit to fulfill their primary function.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
