Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Public Law 412 enacted on June 25, 2007 requires all conservation easements to be monitored at least once every three years. Maine's conservation easements that were acquired with funds from the Forest Legacy Program must be monitored annually. This contract amendment will provide additional funds to help fulfill these requirements. This contractor has the experience, expertise and tools to perform the easement monitoring using the specific protocol system that is in place for these easements. This contractor has been monitoring easements for BPL for 3.5 years and is very knowledgeable about the properties, allowing her to efficiently perform the easement monitoring and quickly detect changes to the land and potential violations of the easement conditions. This service is very specialized and to open up for competitive bidding would delay the monitoring for the 2019 season.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Monitoring of conservation easements is very specialized and requires specific tools and training due to the complexity of each easement. At this time the Bureau does not have the staff to perform this work and has relied on contractors to perform this service for more than 5 years.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The contractor's rate of \$75/hour is considered fair and reasonable and is below the rate that other BPL contractors have been paid. There would be a substantial cost to find another contractor to perform this service because this contractor has years of familiarity with the complex terms of these easements and relationships with landowners that allows her to perform the service efficiently and at a reasonable cost. Dedicated endowment funds for Conservation Easement monitoring are used to fund this work.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

A new RFP process will be initiated for providing 2020 easement monitoring services.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This contractor has the experience, expertise and tools to perform the easement monitoring using the specific protocol system in place for these easements. This contractor has been monitoring BPL's easements for 3.5 years and is very knowledgeable about the properties, allowing her to efficiently perform the monitoring and quickly detect changes to the land and potential violations of easement conditions. Opening this up for competitive bidding would delay required monitoring for 2019 and cause a potential loss of years of training, knowledge and history with these easements. The contractor has already initiated the 2019 monitoring process by working with landowners on annual reporting and requests for 2019 and the additional funds will help fulfill the required monitoring for this year.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

Signature of requesting Department's Commissioner or Chief Executive (or designee within the Commissioner's Office):

By signing below, I signify that my Department requests, and I approve of, this Waiver of Competitive Bidding.
