Please respond to ALL of the questions in the following sections.

### PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

T01-290 Developed a noise in the front half of the engine after a quick inspection at the Bangor Fleet location, the decision was made to send the truck to the local International dealer for a second evaluation. Allegiance first thought the noise was just a fuel knock issue, but decided the noise was an internal and determined it to be a faulty wrist pin which did damage to the cylinder sleeves. Allegiance performed an in-frame engine overhaul. They replaced 6 new sleeves and 6 new pistons where installed, Head was tested, inspected and reinstalled, Engine was retimed and dressed all fluids added, programmed the new injectors primmed the fuel system, started engine, Everything is good.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

Allegiance Trucks was selected for this work where they have certified technicians trained in performing complete engine overhauls. The magnitude and scope of this repair was considered given the fact that we currently have numerous other trucks down in region 4 at this time and the logical decision was to send the Unit (T01-290) to the nearest International dealer.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

Allegiance Trucks is a local and certified International Dealer. Fleet Services has negotiated a lower labor rate with Allegiance. They have appropriate tools and training to efficiently and cost effectively complete a repair of this significance. This type of repair would not have been something the Department could have done timely and cost effectively given the time of year it is and the amount of trucks region 4 currently has down.

4. Describe the plan for future competition for the goods or services.

With limited number of repair shops in the Bangor area have the capacity to undertake repairs of this significance. The criticality of returning this truck to service as soon as possible, made it impractical to look outside the Bangor area for these repairs. Allegiance Trucks was willing to do the repairs upon request and in a timely manner. There is a need to solicit other Vendors to get on board and that would be willing to undertake such projects for MDOT.
