Please respond to ALL of the questions in the following sections.

PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

The Atlantic Salmon Federation (ASF) will provide oversight for anadromous fish passage improvements at the Mill Remnant Dam site Sabattus, Maine. ASF and its agents will provide construction oversight to ensure compliance with state and federal permit requirements and to verify that the work is done according to stamped engineering design plans. Demolition and any required bank stabilization is set for 2024.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

ASF has been working with the Town of Sabattus, the community, and other project partners for years to gain support to implement this project. The Atlantic Salmon Federation has extensive project management experience with this project and enough time and capacity to complete this project. DMR does not have program staff that can oversee the construction and permitting, particularly given some budget reductions with contract staff at DMR and the remote nature of this project. The Atlantic Salmon Federation is also contributing funding to this project. Without the Atlantic Salmon Federation managing the project, DMR could not complete this project.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

DMR has only partial funding for this effort and the Atlantic Salmon Federation has secured and will continue to seek additional funds to make the project complete. The Atlantic Salmon Federation has a pending contract with a subcontractor who can complete this work at low cost, can complete the project within the agreed upon timeframe, and has a proven track record of project completion. DMR has worked with the Atlantic Salmon Federation on a number of projects where they managed the construction.

4. Describe the plan for future competition for the goods or services.

In the future, if another vendor becomes available that has the adequate facilities and capabilities to fill this role, we will evaluate each equally.

PART IV: AMERICAN RESCUE PLAN ACT (ARPA) / MAINE JOBS & RECOVERY PLAN (MJRP)

Does this request utilize ARPA/MJRP funds?

Yes – If Yes, please attach the approved Business Case(s).

No – If No, proceed to Part V.
