State of Maine Waiver of Competitive Bidding Request Form

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The State of Maine cloud hosts the Oracle Enterprise Data Quality software. The cloud hosting agreement are required to continue to operate the system. OEDQ provides integrated data quality in customer relationship management and other applications. It is a utility to improve application data quality.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

NA – Cloud hosting of off-the-shelf licensed software.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

All Oracle software, support and cloud computing is being acquired under the pricing, terms and conditions of the State of Massachusetts ITS-64 Oracle Software and Services contract which replaced ITS-19 effective 5-22-2018 and is in force through 6-30-2023. Massachusetts negotiated the contract with Oracle over a period of 3-years replacing the previous ITS-19 agreement. Maine indicated it would participate in ITS-64. Pricing is consistent with the existing agreement.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

OIT will monitor cloud host vs State host cost to assure competitive pricing and best services.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The Oracle cloud database for OEDQ is small. It is best value for the state to, at this time, house and manage it with the Fin-HR data warehouse. The existing agreement needs to be continued for service continuity.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
