PART III: SUPPLEMENTAL INFORMATION

2. Provide a brief justification for the selected vendor to supplement the response in Part II.

As part of its continuing efforts to meet federal and state responsibilities for conducting elections, the Bureau issued a voting systems and software RFP in 2012 which resulted in a 7-year leasing agreement with ES&S which has been extended through June 30, 2022. In entering the agreement with ES&S, the Bureau understood it would be required to utilize the vendor's services (or those of a partner printer authorized by the vendor) to print ballots that work with its proprietary system. While this was not formally part of the RFP scoring, the potential additional cost was considered in evaluating the proposal and it was determined that even with the dedicated printing costs, the lease agreement still offered significant savings over the next lowest bidder.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

As noted in item 2, an RFP to lease elections equipment was issued and awarded. In evaluating responses prior to award, current printing and related costs were given consideration but the bidder not chosen was so much higher in cost (excess of \$2,400,000) that there was no chance of the sole source printings costs exceeding that amount or likely approaching it.

4. Describe the plan for future competition for the goods or services.

The Bureau's lease agreement for the voting system software expires on June 30, 2022. The Bureau will be seeking to extend its lease agreement for at least another year (until June 30, 2023), and possibly longer, until the voting systems vendors have manufactured and received federal certification for new equipment that meets the new Voluntary Voting System Guidelines (VVSG 2.0) promulgated by the US Elections Assistance Commission.
