State of Maine Waiver of Competitive Bidding Request Form

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The state has an immediate need to train technical state staff in using Oracle Enterprise Manager Cloud Control 13c Ed 2 in conjunction with a current project retiring OpenText GQL software moving to Oracle Analytics Cloud Services (OACS). The State is also actively engaged in replacing the legacy human resources system, which interfaces with the data warehouse. Oracle is upgrading its service from IaaS to PaaS, which the State plans to take advantage of. The state hosts a large Oracle application environment, uses Oracle subscription software, and Oracle Analytics Cloud Service.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

N/A – There are currently no public resources within the state of Maine's government to provide described services.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Oracle training for this project along with the software, support, and cloud computing is being acquired under the pricing, terms and conditions of the State of Massachusetts ITS-64 Oracle Software and Services contract which replaced ITS-19 effective 5-22-2018 and is in force through 6-30-2023. Massachusetts negotiated the contract with Oracle over a period of 3-years replacing the previous ITS-19 agreement. Maine indicated it would participate in ITS-64. Pricing is consistent with the existing agreement.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is a one-time procurement. If the need for the service arises in the future, a competitive procurement will be performed.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This training is integral and in association with the State of Maine's project to retire OpenText GQL software to move to OACS. Oracle application services are used by several employees to perform their essential job functions. It is integral to the success of OACS and datawarehouse projects to receive Oracle Enterprise Manager Cloud Control 13c Ed training in May.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
