State of Maine Waiver of Competitive Bidding Request Form (Formerly Sole Source Authorization Form)

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The ADACS4 (Advanced Digital Audio Collection System) permits the Agency to conduct real-time pen data collection with a court order and provide the Agency with the ability to import basic phone data for historical analysis. This system allows investigators to monitor real-time pen data and location mapping information, pinpoint GPS location with interactive mapping, geo-fencing and location alerts, and through analysis reveal trends, identify connections, and predict events with customized reports and charts. Without this project, the Agency is unable to conduct pen registers, or enhance its ability analyze the data retrieved from seized phones. Having an advanced digital/analog collection system allows for a centralization of call data, real-time cell phone GPS tracking and data analysis will enhance MDEA's efforts to disrupt/dismantle heroin and other opioid Drug Trafficking Organizations operating in Maine.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

None. This is a procurement of a technology service not available within Maine State government or other governmental entities.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Agency acquired ADACS4 system in 2018 through a Federal grant where the vendor is the only manufacturer of the equipment and developer of the proprietary software installed offering direct purchase by its customers. The first-year cost of maintenance and CDC Frame Network Service were included in the purchase price. This year's cost is the same as last year's cost.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Agency will continue to pursue opportunities for continuous improvement on technology and its costs through networking with other law enforcement associations and alliances.

State of Maine Waiver of Competitive Bidding Request Form (Formerly Sole Source Authorization Form)

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The ADACS4 can only be purchased from SyTech Corporation, as SyTech is the original manufacturer of the system and developer of the proprietary software installed. See SyTech Sole Source Justification document.

7. Timeframe

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
