Please note that the following four points below (#2 through 5) <u>all</u> require a response.				
2. Description of Specific Need				
Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.				
<p>Truck T11-591 was brought in with complaint of no power. We did a Health Report found no codes. Tech started to check over the truck and removed CAC tube and found lots of oil. Tech took CAC tube off turbo inlet and found turbo fan had lots of play in it. With this truck being used daily for snow removal and other trucks being down, to get the back in service in a timely manner and being a big repair, I called Daigle & Houghton and they could get it in.</p>

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Daigle & Houghton has the staff, specialized tools and access to the parts needed to complete the job in a timely manner to get the truck back in service.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Daigle & Houghton is an International dealer and was the best choice to get the job completed with a fair and reasonable rate. This was the most cost-effective solution.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The surrounding shops couldn't get it in for a few weeks. Shops in the area have limited trained staff, which renders timeframe to complete repair in a timely manner as not acceptable for MaineDOT.
