Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need
 Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Water Testing at the F, H, and IF&W Buildings identified extremely high levels of lead and copper in fixtures in all three buildings. All three building are occupied by State of Maine Employees and their clients/visitors. This is considered a health and safety emergency repair to replace existing fixtures that had elevated levels of both Copper and Lead.

3. Availability of other Public Resources
 Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The Bureau of Real Estate Management does not have the trained/licensed personnel to perform these duties.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Bureau of Real Estate Management has had contracts for this type of service with Nichol's Plumbing in the past and found their costs fair and reasonable.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Bureau of Real Estate Management released a RFP for Property Management Services and has awarded contracts, which do not commence until July 1, 2019. Under the circumstance of emergency work required from lead and copper hits above the EPA limits in the F, H and IF&W Buildings we have decided to go with our most utilized plumber for the campus to provide the state with the most competitive pricing.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.
