## PART III: SUPPLEMENTAL INFORMATION

Please respond to ALL of the following:

**1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.**

Maine is in the midst of a substance use epidemic. Treatment services and interventions are needed to combat Opioid Use Disorder (OUD), Substance Use Disorder (SUD) and alcohol dependence. Intensive Outpatient (IOP) and Outpatient services are lower levels of care and aid in the prevention of an individual needing a higher more costly level of care such as Residential treatment. These services include individual, group and family counseling and are widely available across the State.

Outpatient Services: represent a point of entry initiating treatment and recovery. It is a community-based service on the care continuum.

Intensive Outpatient (IOP): Is a step above Outpatient services on the continuum of care. This intensive service is designed to meet the more complex needs of people with addiction and co-occurring conditions.
