Please respond to ALL of the questions in the following sections.

PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

Water Resources Database (WRDB) is a computer software program developed for federal and state governmental agencies to manage and display environmental data. The base software is free for public use; however, the Department has previously worked with the software developer to procure the development of two WRDB projects that were created to enhance access to two vital program databases: EGAD and PCS. This current phase of work will provide essential updates to the software and implement productivity enhancements associated with Department workflows.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

WRDB is a software application that was created solely by the specified vendor. There are no other vendors that could potentially conduct this work due to the inherent learning curve.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The Department has a long history with developing database solutions. This database solution is cheaper than other considered options by orders of magnitude. The WRDB product has been widely adopted at DEP because it has proven to be so useful.

4. Describe the plan for future competition for the goods or services.

There are no plans due to the very specific and unique aspect of this project.

PART IV: AMERICAN RESCUE PLAN ACT (ARPA) / MAINE JOBS & RECOVERY PLAN (MJRP)

Does this request utilize ARPA/MJRP funds?

Yes – If Yes, please attach the approved Business Case(s).

No – If No, proceed to Part V.
