PART III: SUPPLEMENTAL INFORMATION

Please respond to ALL of the following:

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

The Division of Juvenile Services (DJS) under the Maine Department of Corrections (DOC) has a need for an evidence-based practice that will reduce the recidivism rate and reduce out of home placement for youth at moderate to high risk of reoffending. The mission of the Division of Juvenile Services (DJS) is to promote public safety by ensuring that juveniles under DOC jurisdiction are provided with risk-focused interventions, quality treatment, and other services that teach skills and competencies; strengthen pro social behaviors to reduce the likelihood of re-offending and require accountability to victims and communities. DOC determined Multi-systemic Therapy is appropriate for meeting the above stated need.

PART III: SUPPLEMENTAL INFORMATION

2. Provide a brief justification for the selected vendor to supplement the response in Part II.

Kennebec Behavioral Health (KBH) is **one of only three** providers currently licensed in Maine to deliver this service. KBH has provided a range of services for over 60 years to the Maine community. Juvenile Community Corrections is broken up into three regions across the state. **KBH is the only provider that operates in Region 3, specifically a Bangor team, and the only provider who provides an Augusta team, which is considered Region 2.**

Since 2015, KBH has served approximately 61 youth with an increasing need each year due to the uniqueness and scientifically proven Blue Print Model used, to reduce juvenile criminal activity.

MST is a proprietary service and can only be delivered by clinical staff that have undergone extensive training, regularly engage in on-going clinical & MST consultation, deliver the treatment adherent to the model and are licensed by MST Services. MST is an intensive family-based treatment that addresses the known determinants of serious antisocial behavior in adolescents and their families. As such, MST treats those factors in the youth's environment that are contributing to his or her behavior problems. KBH is only one of three providers in Maine that is licensed to deliver MST-PSB (Problem Sexual Behavior) for youth with problem sexual behavior.

KBH is only **one of three** providers in Maine that is licensed to deliver MST-PSB (Problem Sexual Behavior) for youth with problem sexual behavior. Due to the geographical nature of Maine, one provider cannot cover the state with this service. Over the last five years, KBH has lost 2 clinical MST/MST-PSB teams due to the geographical burden, rural restrictions, and funding restraints.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

A 25% increase was provided to the provider to increase staff retention, to serve more youth, and to run fully staffed. This amendment covers additional funds for FY22, and adds in the FY23 funds to deliver the service. MST is a rigorously researched and challenging model to implement with significant start-up costs and on-going costs associated with ensuring fidelity to the model all of which is KBH is being supported through other means besides State General Funds. The individual treatment costs are established through a state-agency rate setting process. The Department deems this rate and cost fair and reasonable.

4. Describe the plan for future competition for the goods or services.

Future competition to this program will necessitate an RFP; however, the costs associated with the start-up of a new program will strongly inhibit another site from implementing this Blue Print Model.
