PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

Waldoboro Maintenance Camp water supply well currently does not meet state and federal standards for potable water quality. However, the Waldoboro facility does have a bedrock well located several hundred feet away, across the road at their Brine making location that has potable water. Well at Brine site will be retrofitted to provide potable water to Maintenance Camp. Plumbing supplies acquired to complete the water well retrofit and provide potable water meeting state and federal standards for water quality. Internal and properly licensed MaineDOT professionals will complete the needed plumbing work.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

Limited plumbing supply companies in the central Maine area. MaineDOT has used F.W. Webb Company for many years, and they consistently offer quality items for reasonable cost, have products readily available and deliver material to the site.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

F.W. Webb is the largest wholesale plumbing supply company in the Northeast. This size affords them the opportunity to aggressively price items. Webb has consistently provided MaineDOT competitive pricing on quality plumbing supplies when compared to similar companies in the State. Many of the plumbing vendors under contract with MaineDOT also utilize F.W. Webb because of the same reasons. The company's competitive pricing structure is supported by an extensive inventory (readily available parts and supplies) and on-site delivery of materials. Pricing, customer-service, inventory and delivery ensures F.W. Webb rates and charges to MaineDOT are fair and reasonable.

4. Describe the plan for future competition for the goods or services.

We anticipate contracting this type of work in the future to avoid issues like this.
