Please respond to ALL of the questions in the following sections.

<b>PART III: SUPPLEMENTAL INFORMATION</b>	
1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.	<p>As part of the State of Maine’s PFAS response, the Maine Department of Inland Fisheries and Wildlife has been lethally sampling wildlife (primarily white-tailed deer and wild turkeys) for PFAS tissue analysis to assess the potential risk to hunters through consumption of PFAS-contaminated wild game. IFW’s earlier work has resulted in consumption advisory areas in parts of Fairfield and Unity. IFW plans to sample additional deer and other wildlife species in other locations across the state to determine if additional PFAS consumption advisories are warranted. This will require lethally sampling wildlife and submitting tissue samples for PFAS analysis. Currently, there is only one commercially available laboratory in Maine.</p>
2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.	<p>Maine Laboratories is the only currently EPA-accredited commercial lab in Maine that can conduct PFAS analysis of muscle tissue samples from wildlife. In previous years, IFW had to establish contracts with out-of-state laboratories and ship samples in batches out of state.</p>
3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.	<p>Maine Laboratories’ fees are substantially lower (\$425/sample) than what our previous laboratory was providing (~\$600/sample). Maine Labs can also provide all sampling supplies, a courier service to transport samples to the lab, and can deliver electronic results within 10 business days of receiving the sample. In previous years, IFW needed to pay for overnight shipping to laboratories, and our previous lab took well over 90 days to deliver results.</p>
4. Describe the plan for future competition for the goods or services.	<p>At this time, Maine Laboratories is the only commercially available PFAS laboratory in Maine that is accredited to use EPA’s 1633 Method that screens for 40 separate PFAS compounds. If we become aware of another vendor that has the expertise and equipment to complete the required work, we will establish a competitive process to select the most qualified vendor and competitive pricing.</p>

## Electronic Record and Signature Disclosure

## **ELECTRONIC RECORD AND SIGNATURE DISCLOSURE**

From time to time, Inland Fisheries and Wildlife (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

### **Getting paper copies**

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

### **Withdrawing your consent**

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

### **Consequences of changing your mind**

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

### **All notices and disclosures will be sent to you electronically**

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

### **How to contact Inland Fisheries and Wildlife:**

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:

We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

### **To request paper copies from Inland Fisheries and Wildlife**

We will bill you for any fees at that time, if any.

### **To withdraw your consent with Inland Fisheries and Wildlife**

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

- i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;
- ii. send us an email to [heather.rodrique@maine.gov](mailto:heather.rodrique@maine.gov) and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..
