**Please note that the following four points below (#2 through 5) all require a response.**

## **2. Description of Specific Need**

Please identify, and fully describe, the specific problem, requirement, or need the resulting non- competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

This is a long standing grant program authorized through Title 12 Chapter 220 Subchapter 8, section 1893 subsection 2. This subsection applies to the use of fees credited to the ATV Recreational Management Fund to make Grants-in Aid to political subdivisions, educational institutions, regional planning agencies, Atv groups and others for the construction and maintenance of ATV trails. These grants have been available since 1992 and are managed under the rules promulgated through the APA Process. There is a tremendous cost savings to the state since we only reimburse 70 % of the actual costs. The local municipality matches the state money with local funds and donated labor, equipment, and supplies.

## **3. Availability of other Public Resources**

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The ATV Trail Maintenance Program has been a tremendous partnership between the state and local communities. A considerable amount of local volunteer contributions are a part of this agreement since the state is only obligated for up to 70 percent of the costs. We have a long history of successful trail maintenance grants. There is no way the State could afford the trail system if it were not handled and through grants to local agencies.

## **4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

ACF ATV Recreational Management Fund promulgated grant rules all funding of up to 70 percent of the approved costs. The approved cost comes from the project Budget developed by the local Town/County and submitted as part of their application. We negotiate the costs to make sure they fit the state guidelines and then they are required to raise 30 to 50 percent of the approved cost locally.

## **5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is a municipal/county grant awarded to the municipal government. There are no competitors for the political subdivision. It is their responsibility and decision to contract/assign services locally. They may also do the work themselves. The projects are approved based on need and so they do not receive one every year. Grants are awarded yearly based on available funding and the need. Funding comes from ATV registrations which can vary annually.

**Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.**

### 6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The project is administered through a locally appointed Project Director familiar with the area trails, the type of work being done, oversees grooming, maintenance often through local clubs. The maintenance requires very specialized equipment and tools to complete the task. The state does not supervise or direct the work to be done. We do inspect all projects for compliance with the standard agreement for public safety and Best Management practices.

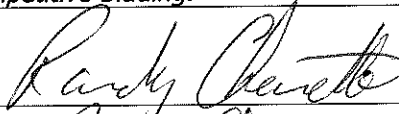

### 7. Timeframe

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

This is seasonal work including last minute trail preparation and or maintenance resulting from weather events and private land access changes. It is essential these be approved in a timely manner in order for the trails to be open and safe for summer use.
