3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Staffing and expertise to provide this service more efficiently and effectively is not currently available within State government or other local, state or federal agencies. The department communicated with other State agencies, with municipalities and with the professional planning community within Maine to make this determination.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Department determined that the costs for these services is fair and reasonable. The Department has experience contracting for planning services from private consulting firms and the rates charged by the regional planning organizations falls at or below the rates of those firms and individuals.

The amount of this award is determined by a formula based on the number of municipalities and the population within the area covered by each regional planning organization divided by the total number of organized municipalities and the total population in organized municipalities for the entire state. The formula weights the factors as follows: municipalities *.6 and population *.4.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Department will continue to monitor the rates charged and the quality of the services provided by these organizations to insure that the services being purchased through these grants are being done so in a fiscally responsible manner.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

State of Maine Waiver of Competitive Bidding Request Form (Formerly Sole Source Authorization Form)

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The regional planning organizations are formed by the municipalities; there is only one per planning development district making each one unique within its region. The delivery of land use technical assistance to municipalities is a place-based effort requiring local knowledge, strong working relationships, and the capacity to deliver services which require field work, meetings, and workshops.

7. Timeframe

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
